

Desoldering Iron

User Manual

Part Number: 21-8240

Instruction Manual

- Plug the power cord into a power source.
- Allow the nozzle to warm up for approx. 10 min.
- Press the knob until it clicks.
- Place the tip of the nozzle against the solder.
- When the solder melts, press the button on the handle and the solder will be absorbed.

Cleaning

- Lift the handle slightly in the direction of button and remove it from the grip.
- Remove the solder waste around the cylinder.

Nozzle Replacement

- Turn the nozzle counter-clock with pliers etc., and remove it from the handle.

Note: Turn the power off and wait until the unit has completely cooled before removing the solder waste or replacing the nozzle.

Caution

- The Appliance is not a toy, and must be kept out of children's hands.
- Before cleaning the appliance or changing the filter, always remove the power lead plug from the socket. Unscrewing the housing is not permitted.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
