Instructions for the

BodyGuard[®] 2000

Mini Keyring Personal Alarm Plus Torch

Made to British Standard BS6800

The **BodyGuard 2000**, the smallest and most powerful electronic personal alarm. It is the ideal deterrent and protection against attack. Designed especially as a keyring so that it is always to hand and is small enough to fit in a pocket or handbag but with a powerful high output, high frequency pulsating siren that will attract immediate attention and discourage a would-be attacker. It also has the added advantage of a built in torch.

OPERATION OF THE ALARM

- To operate the alarm in an emergency or panic situation, simply pull the cord pin out of the socket. To stop the alarm sounding replace the cord pin back into the socket.
- To test the alarm or to activate the alarm without pulling the cord simply slide the switch backwards. To stop the alarm return the switch to the mid position.

OPERATION OF THE TORCH

- To turn on the torch slide the switch forward.
- Return the switch to the mid position to turn off.

BATTERY REPLACEMENT

- Remove the two fastening screws on the back cover of the alarm using a small Philips Screwdriver
- Gently separate the back cover from the main alarm unit to access the battery compartment
- Remove existing battery and replace with a new 12v (GP-23A) alkaline battery ensuring the terminals make good contact with the battery
- Replace the back cover and tighten the two screws

BULB REPLACEMENT

- Remove the back cover as above
- Unscrew the bulb (anticlockwise) and remove
- Replace with a new miniature light bulb
- Replace the back cover and tighten the two screws

GUARANTEE

The **BodyGuard 2000** Personal Alarm is guaranteed from defects in materials and workmanship in normal use for a period of one year from the date of purchase. This guarantee is valid as long as the alarm has not been altered, modified or a repair attempted.

WARNING

The high output siren fitted to this quality alarm may cause ear damage if used at close range for a prolonged period of time. Keep away from children and pets. This product is designed to be used as a deterrent, it does not in any way guarantee protection. It is designed purely as an alarm signalling device. The manufacturer and its agents will not accept any responsibility for any loss, damage or personal injury sustained while in the possession of this product whatever the cause or reason.
