

## **Advanced Electrical Installation Work 4th Edition**

This book has been completely restructured to provide a specific match to the requirements of the Installation route of the 2330 Level 3 Certificate in Electrotechnical Technology, and will also prove an essential purchase for students of Level 3 NVQs in Electrotechnical Services (Electrical Installation – Buildings & Structures).

- A concise and practical approach
- Complete resource for the 2330 Certificate covering the core unit of the scheme, along with the two Occupational Units 2 and 3 in Installation (Buildings & Structures)
- An additional chapter Electronic Components – a key area of electrical installation work – is also included for reference
- Highly illustrated text features worked examples and exercises with answers to create an easily accessible student book, ideal for self-directed study
- Content has been brought fully in line with the 2004 version of the IEE Wiring Regulations BS 7671:2001 (incorporating Amendments 1:2002 & 2:2004)
- Features new sections on Health & Safety, Employment Rights and Responsibilities, Personal Protective Equipment, and Safety Regulations, reflecting the emphasis of the 2330 Certificate in these particular areas
