

## Basic Electrical Installation Work

### 4th Edition

Basic Electrical Installation Work has helped thousands of students to gain their first qualification in electrical installation. Now in its fourth edition, this book has been completely restructured to provide a specific match to the requirements of the Installation route of the 2330 Level 2 Certificate in Electrotechnical Technology from City & Guilds, and will also prove an essential purchase for students of the Level 2 NVQ in Installing Electrotechnical Systems (2356).

- Concise and practical approach
- A complete resource for the 2330 Certificate
- Covering the three core units of the scheme, along with the Occupational Unit 4 Installation (Buildings and Structures)
- Additional chapter - Lighting - a key area of electrical installation work is also included for reference
- Highly illustrated text features worked examples and exercises with answers
- An easily accessible student book, ideal for self-directed study
- Content is fully in line with the 2004 version of the "IEE Wiring Regulations" BS 7671:2001 (incorporating Amendments 1:2002 and 2:2004)
- Features new sections on Health and Safety, Employment Rights and Responsibilities, Personal Protective Equipment, and Safety Regulations, reflecting the emphasis of the 2330 Certificate in these particular areas
