

Energizer® Vision HD Performance Tactical Metal Light – TAC 700

PMHT2L

The *Energizer*® TAC 700 delivers high performance in a durable, dependable, and compact body. The rear push button, strobe mode, and durable aircraft grade aluminum were designed to work in various situations. In addition, the light output and 4 different modes (High, Medium, Low, Emergency Strobe), make it perfect for any outdoors and indoors usage, including work and DIY projects. Stay prepared in emergency situations with this light's strike bezel head. Its removable clip works in both orientations which provides the versatility to clip and use whichever way works best for you.

Provides
700
Lumens of
Light

Provides
Run Time
of 2 Hours

Sustains 1
Meter
Drop Test

Illuminates
objects up
to 100m
away

Water Resistant
IPX4 – works after
splashing water
on all sides

DESIGN BENEFITS

- ✓ Durable Aircraft Grade Aluminum
- ✓ Rear push button to easily change modes while holding the light
- ✓ Compact size and lightweight
- ✓ Removable clip that works in both orientations
- ✓ Strike Bezel Head

LIGHT AND POWER SOURCE

- ✓ Features LED Technology
- ✓ Emergency Strobe : ~17 Hz frequency
- ✓ Operates on 2 x CR123 *Energizer*® Lithium Batteries (Included)

ELECTRICAL CHARACTERISTICS

Electrical Characteristics Nominal Power:
Power consumption 6.45W / Battery Energizer
Lithium CR123 3.0V dc
LED Specifications: LED 3.0V cc / 2150 mA

CERTIFICATES AND COMPLIANCE

CE RoHS
EMC, EN62471, FCC

WARNING

A small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights and strobing lights. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can trigger these "photosensitive epileptic seizures." These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. Immediately stop using this product and consult a doctor if you experience any of these symptoms. If you have a history of seizures or epilepsy, consult a doctor before using.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Tested according to ANSI/NEMA FL1 Standards.

Results based on: Energizer Lithium EL123

PERFORMANCE BENEFITS

- ✓ MAXVIZ Technology to deliver a wide, powerful beam and high-definition vision
- ✓ Up to 15X brighter than standard LED technology
- ✓ Extended run time

SPECIFICATIONS

Weight Excluding Batteries:

113 Grams / 4 Ounces

Dimensions:

122mm x 33mm x 33mm / 4.8" x 1.3" x 1.3"

NUMBER OF OPERATING MODES: 4

Mode	Lumens (lm)	Runtime (h)	Beam Distance (m)
High	700	2	100
Medium	100	12	N/A
Low	20	30	N/A
Strobe	N/A	N/A	N/A

Before using your flashlight, please read all instructions and cautionary marking on the package and the light.
