

## Cat6 Patch Cables Cat6 UTP Extension Cables

Part No: 1966 - (Length) see chart

The UTP extensions avoid the necessity of replacing an existing cable when additional length is required. Available in both Cat.5E and Cat.6 versions, each assembly is quality manufactured and fully tested before shipment.

### Features & Benefits

- Both Cat.5E and Cat.6 versions manufactured using quality components
- Plug to socket cable allowing the extension of an already sited patch cable
- Useful network link cables available in various lengths, standard colour is beige
- Fully tested UTP cables, wired on a straight through pin 1 to 1 configuration
