

Fall protection

North fall protection products are designed with the user in mind. Our goal is to provide high quality easy-to-use fall protection so that your employees are encouraged to wear the products we manufacture for their protection. Everything from easy to read, comprehensive instructions to products that are continuously tested during the manufacturing process are made with safety, comfort and user in mind. Our range of products covers the complete scope of fall protection. North is dedicated to increasing compliance and worker safety in the fall protection area through quality enhancement or manufacturing innovation and the overall promotion of safety in the workplace.

GENERAL STANDARDS AND APPROVALS

The safety industry is in constant flux looking for the best possible solutions to safety issues, hazards and product performance. The goal is simple – to get you home each and every night after work. Fall protection is no different. North continues to look for easy-to-use fall protection solutions so that you can use your equipment with confidence. Product standards and regulations play a big part in guaranteeing that North's product line is up to the challenge. They ensure that our products meet the performance requirements set by the industry or in legislation. They also help you in the selection of proper equipment.

HARNESSES EN 361

FP699/1D

A basic economy harness for fall arrest only, with a sliding dorsal D-ring.

art. no.

938137.AFV

ALSO AVAILABLE

Three harnesses with extended D-ring are also available: FP701/3ED, FP745/5ED and the PPFV81F/1EDBA.

FP702/3D

The general purpose harness. Fall arrest, descent, vertical safety wire/rail systems. With sliding dorsal D-ring and 2 sternal D-rings. The flat bar buckles are easy to use and fail safe. The shoulder straps and the height of the chest strap are adjustable.

art. no.

938145.AFV

FP745/5D

Heavy duty general purpose harness for all the linesman's activities. Fall arrest, control descent, rescue and work positioning with perfect lumbar support. With dorsal D-ring, sternal loops and padded belt with lateral D-rings.
