239305 - Conductive Tote Box, 400mm x 300mm x 120mm

- Injection moulded conductive polypropylene
- Flat base, stackable
- Rv: 1×10^3 to $< 1 \times 10^6$ ohms
- Internal dimensions: 355 x 255mm, foam liner available
- Custom-made dividers are available for PCB containers
- Machined from approximately 2mm thick conductive plastic or Cortronic® B-flute static dissipative cardboard
- Many shapes and sizes possible
- Process is suited for small and medium quantities
