

BEAU TECH

SH-141 - 25 MILPROBE, STRAIGHT POINT

- Most universal tools for TH and SMT for pitch sizes above 25 mil
- Use to mechanically test SMT solder joints
- Align through-hole and surface mount component leads and pads
- Straighten bent leads on surface mount components
- Clean between surface mount leads or pads for pitch size as small as 25 mil
- Clean increasingly smaller through-holes as boards and components become more dense
- Maneuver small TH/SMT components
- Straight Point
