

BEAU TECH

SH-80 - SHOCKPROOF VULCAN SPUDGER, FLAT

- Double Beveled and Conical End Flat Spudger
- 6" Length x 1/4"
- Use the beveled end to bend and clinch component leads.
- Use both ends to position components when soldering or desoldering.
- Use the beveled end to break solder bridge.
- Use the beveled end as a screw driver where metallic drivers may hurt the board components.
- Use the conical end to guide wire in tight places on the board.
- Use the conical end to remove components when desoldering.
