

BEAU TECH

SH-20K - DOUBLE END STANDARD, STAINLESS STEEL BRUSH AND BEVELED SCRAPER

- Standard Stainless Steel Brush
 - Over 300 long, fine, stainless steel bristles.
 - Use to clean flux from solder joint.
 - Use for general cleaning purposes.
- Standard Beveled Scraper
 - Use the hand ground edge for cutting away solder bridges.
 - Use to clean pad surfaces before soldering.
 - Use to cut and remove traces.
- 8" length
- Hardened tool steel ends provide a tough, long lasting working edge that resists wear.
- Hard satin chrome finish repels solder when in contact with flux and resists wear.
- Solid maple wooden handles provide comfort and a firm grip.
- Mini 5 ½" length also available under item number [SH-20G](#).
