## **SH-81 - SHOCKPROOF VULCAN SPUDGER, ROUND**

- Screwdriver and Conical End Round Spudger
- 5-1/2" Length x 5/16"
- Use the screwdriver end to bend and clinch component leads.
- Use both ends to position components when soldering or desoldering.
- Use the screwdriver end to break solder bridge.
- Use the screwdriver end as a screw driver where metallic drivers may hurt the board components.
- Use the conical end to guide wire in tight places on the board.
- Use the conical end to remove components when desoldering.
