Product Name: Ender Enclosure

Product Size: 720*600*480mm

Material: Flame-retardant aluminum foil cloth + solid glass fiber rod

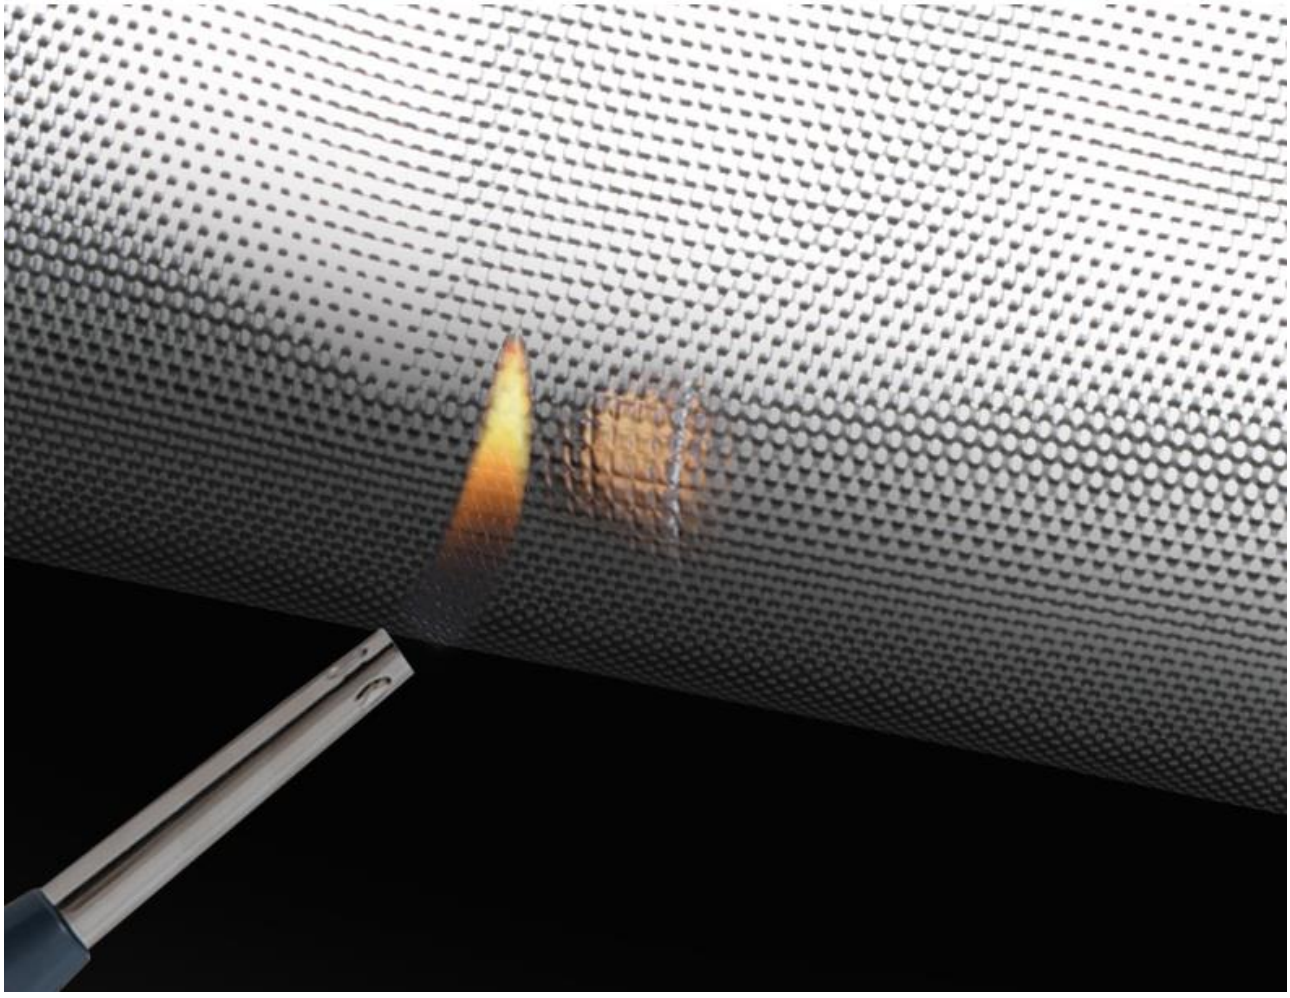
Applicable Models: Ender-3, Ender-3S, Ender-3Pro, Ender-3 V2, CP-01, Ender-2, CR-100

Package size: 695*140*75mm

CREALITY

Fireproof Flame Retardant, High Security

Flame-retardant aluminum foil cloth material, high temperature resistance, flame-retardant and corrosion-resistant
Keep printing at a constant temperature in the enclosure under complicated conditions



CREALITY

Easy Installation, Multifunction

Easy installation Disassembly, Easy using
Glass fiber rod made support frame, lightweight and hardness,
high mechanical strength with anti-aging, high temperature and corrosion resistance

CREALITY

Transparent Window, Clear View

Large window, easy to observe the printing process

CREALITY

Brilliant Details

Pay attention to every detail, exquisite quality, trustworthy product

01

Tee bracket structure

Solid support to avoid shaking

02

Power Cord Hole

Integrated interface design, simple and beautiful

03

High-quality Material (Zipper)

Exquisite workmanship in every detail
