

Product Change Notification (PCN)

PCN Number	508915	Date Issued	June 09, 2020
Reason for Change	Change to Product		
Change Type Description	This letter is to inform you that changes are being made to the part(s) identified in this Notice. The change may affect the fit, form, function or appearance of the parts, or it may result in a change to the specification. The pictures below show an example of the possible differences.		
Assessment of Change	First article inspection		
Internal Molex Qualification Date	December 01, 2020		
Sample Availability Date (Changed Part)	December 01, 2020		
Planned Implementation Date	December 14, 2020		
Method of Identifying Change	Date code		

Before Change

Overview

- Description
 - Replacing the current ERWPAB3002Mxxx and ERWPAB3004Mxxx Series and giving you two options (PG9 or M16 panel mount version) to choose from based on your current needs. We are only restructuring the Part Numbering nomenclature and not making any physical changes to the product design or packaging that you are already receiving for both PG9 & M16 variations.
- Product Impact
 - Doc changes to show correct version in views (PG9 VS M16)
- Part Number Impact
 - Series: 130054
- Qualification Reports and samples available upon request after the date shown above

PG9 mounting Receptacle Shell

M16 mounting Receptacle Shell

After Change

Customer letter

Dear Valued Customer,

In an effort to better align our component inventory strategy for the global market as well as to offer our UltraLock locking technology to a broader market, we will be replacing the current ERWPAB3002Mxxx and ERWPAB3004Mxxx Series and giving you two options to choose from based on your current needs.

You will still have the ability to order the same part you have been receiving in the past (FormID function) but must use the new replacement part number option shown below depending if you wish to use a PG9 or M16 panel mount version.

Note that only the M16 panel mounted version will be compatible with our UltraLock Cordsets just as the past M16 versions have. We are only restructuring the Part Numbering nomenclature and not making any physical changes to the product design or packaging that you are already receiving for both PG9 & M16 variations. This fact should help make the transition a smooth one on your end only having to change the ordering part number.

Danney Perez
Global Product Manager - Molex Network Connectivity Solutions
