Plastic Tweezers

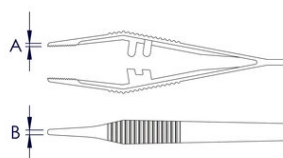

- Plastic disposable tweezers (red): for the chemicals, pharmaceuticals or cosmetics sector, food industry and scientific use; ideal for gripping, holding and moving small objects, such as fine tissues, small items or solid samples
- Disposable tweezers only (red): made of 30% glass fiber reinforced plastic for high strength and flexibility
- Plastic disposable tweezers (red) are characterised by their high temperature resistance and excellent chemical resistance
- The grooved handles of the plastic disposable tweezers (red) ensure optimum safe handling and precision; with internally serrated tips and a particularly wide clamping area
- Plastic

General

| | |
