PRIMETEST 50
BASIC, HAND-HELD SAFETY CHECKER

Key Features

- **Easy to use**
What can be easier than simple push-button operation? Connect your test appliance, pick your test mode, push the button. The display tells whether it has passed or failed. Done.

- **Hand-held – Highly Portable**
The Primetest 50 is tiny compared to the competition. Measuring only 26 x 10cm, it fits easily in the palm of your hand.

- **Battery Powered**
This means it’s lighter, easier to use and more portable, as you no longer need a power supply nearby. Freedom to move.

- **PATGuard Compatible**
To help make your life as a tester even easier, the Primetest 50 can be used with our industry acclaimed PATGuard Workabout software for mobile data input. Now you have the best of both worlds - easy testing and easy information management.

Primetest 50 Users

- **Maintenance Staff**
- **Schools & Colleges**
- **Care Homes**
- **Leisure Industry**

For those looking for an easy to use, portable appliance checker look no further. The Primetest 50 offers exceptional lightness and portability as well as a simplified range of tests. Simply choose the test you require; either earthed appliance, double insulated appliance, or mains cord testing. The simple display shows whether it’s a Pass or Fail, it could be easier. If toughness is an issue, don’t worry, the rugged outer casing will stand up to anything a normal working environment has to offer. A great choice for those needing a reliable, easy to use, portable safety tester.
Basic PATSolutions Package

PATSolutions is a total solutions philosophy that encompasses all aspects of electrical safety testing, from the testers themselves to information management software, through to label printers and much more.
