

FSB001 Folding Shelf Brackets

The FSB001 folding shelf brackets offer a versatile solution for temporary storage/work spaces or social areas. Depending on the material mounted to the brackets, they can be used as folding storage shelves, fold-out desktop, fold-out worktop or lift-up social/coffee break side tables.

The folding design of these wall-mounted shelf brackets offers a better solution for smaller areas or where space is at a premium.

The triangle bracket construction remains stable while in use for hobbies, crafts, office work and more. Easy to fold with just a click of the sprung release levers.

- Folding bracket design
- Saves space for when not in use
- Triangle structure increases stability
- Sprung release catch, easy to fold down with a click
- Optimal distance between two brackets is 400-800mm
- Made from powder coated Steel for strength
