

ABB has announced that the RT, BT, E and JS Safety Relays under the Safety Products has a last time buy of September 15, 2022. Any orders after this date will be accepted for available inventory on a first come, first serve basis. When stock is depleted these will be obsoleted. These relays have been in a classic phase since July of 2017 due to the launch of the Sentry Safety Relays. It is recommended to change over customers to the new Sentry Safety Relays to take advantage of the latest technology. These are the affected RT, BT, E and JS Safety Relays:
