Details

The 3M™ SecureFit™ X5000 Series Safety Helmet uses innovation to deliver uncompromising protection. The proprietary, climbing helmet-inspired design meets ANSI Z89.1 and is compatible with a variety of 3M face shields, earmuffs, and other accessories to help you design a fully-customized protection solution. Choose the gear that's built using the science of safety — equip yourself with the 3M™ SecureFit™ X5000 Series Safety Helmet.

Comfort is at the core of the design for the 3M™ SecureFit™ X5000 Series Safety Helmet. Its internal suspension system incorporates exclusive patented Pressure Diffusion Technology for added comfort, while a 6-point ratchet suspension creates 15 adjustment settings so that the wearer can customize both height and fit. When compared to conventional 3M helmet suspension systems, this technology helps reduce the amount of force on the forehead up to 20%. By design, this helmet sits low on the head to reduce pressure, improve comfort, and enhance security. Rise above the standard add the 3M™ SecureFit™ X5000 Series Safety Helmet to your kit.

- Uses a proprietary, climbing helmet-inspired design
- 6-point ratchet suspension system incorporates exclusive patented Pressure Diffusion Technology
- Proprietary UVicator sensor changes from red to white, letting the wearer know when to replace helmet due to UV exposure
- Customize your fit across 15 adjustment settings
- Works with a variety of 3M faceshields, earmuffs, and other accessories
- Meets ANSI Z89.1 and tested to the European EN12492 Mountaineering Helmet Standard for Shock Absorbing (clauses 4.2.1.1, 4.2.1.2, 4.2.1.3, 4.2.1.4) and Penetration (clause 4.2.2)

- Available in a range of colours with reflective options available
- Approved for Lateral Deformation and Molten Metal splash

Suggested Applications

- Pair with other 3M personal protective equipment for a customized and comprehensive protection solution
- Made to suit the protection needs of workers in industries like construction, mining, and transportation

Specifications

Brand	SecureFit™
Features	Accessory Slots, Pressure Diffusion Technology, Replaceable Brow Pad, UV Indicator
For Use With	Earmuffs, Faceshields, Headlamps, Reflective Markings
Product Colour	White
Product Series	X5000

Safetv Helmet

Product Type

Recommended Application

Construction, Forestry, Oil & Gas

Recommended Industry

Construction, Heavy Infrastructure, Mining, Oil & Gas, Transportation

Shell Material

ABS
