Re: WAGO 852-1106/010-000 and 852-1111 End of Life Notice

Dear Sir or Madam,

WAGO's Ethernet Switch platform was first launched in 2009 and we continue to expand the product line with new managed and unmanaged switches. Ultimately, we know the life cycle of each specific product is not endless. The current market situation for semiconductor components together with a component discontinuation unfortunately means that the products listed below are discontinued.

Background of discontinuation: Product and component shortages due to global supply chain issues.

Products/Versions being discontinued:

Item number	Item Name
852-1111	5 Port Gigabit ECO Ethernet Switch
852-1106/010-000	16 Port Gigabit Ethernet Switch

Last call date:

Due to the discontinuation of a microchip used in the above-mentioned Switches, these WAGO products are no longer available with immediate effect.

Alternative options:

WAGO offers alternative Switches similar functionality and price point. We recommend that you check to ensure that these products meet your needs regarding functionality and features. Our technical support team will be happy to assist you in selecting a suitable alternative.

Alternative options:

Discontinued product		Successor product	
Item number	Article description	Item number	Article description
852-1111	5 Port Gigabit ECO Switch	852-1111/000-001	5 Port Gigabit ECO Switch
852-1106/010-000	16 Port Gigabit Switch	852-1106	16 Port Gigabit Switch

Please ask a WAGO representative to help you select an alternative or contact our technical support line at 1-800-DIN-RAIL.

Sincerely,

WAGO Corporation
