

PRODUCT DESCRIPTION

TRIAD™ 20 CONDUIT ADAPTORS are designed to be used in conjunction with the TRIAD™ 20 range of connectors and the SHURESEAL range of liquid-tight flexible metal conduits and fittings. The combination of adaptors, connectors, conduits and fittings offers the user an extensive liquid-tight connector-conduit disconnect system rated to IP65.

Material: Steel, zinc plated.

M178F-0500	17	40	20mm
M178F-0750	17	45	25mm
M238F-0500	23	40	20mm
M238F-0750	23	45	25mm
M238F-1000	23	49	32mm

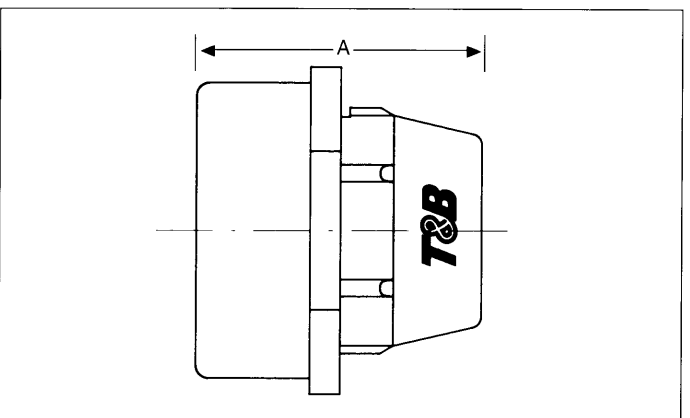

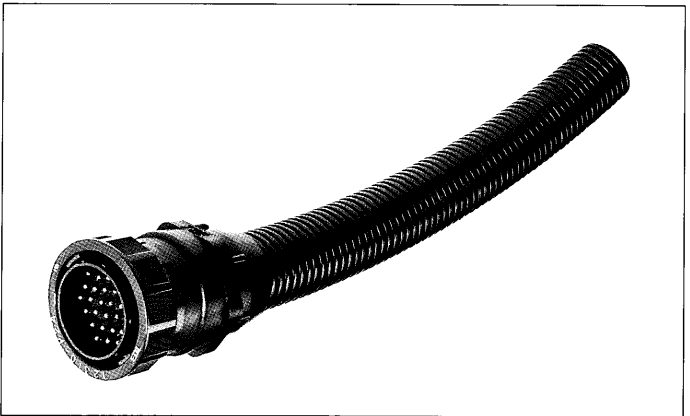

PRODUCT DESCRIPTION

TRIAD™ 10 CONDUIT ADAPTORS are designed to be used with the TRIAD™ 10 range of connectors and the SHURESEAL range of plastic conduits and fittings. The combination of adaptors, connectors, conduits and fittings offers the user an extensive connector-conduit disconnect system. The system can be uprated to IP65 with the addition of a sealing ring to the mating receptacle connector, see page 19.

Material: Flame retardant Nylon 6/6.
