Metal Switch, Switching Voltage up to 250 VAC

See below:
Approvals and Compliances

## Description

- Mechanical switch with stroke in different versions LA (Latching) and MO (Momentary)
- With torsion protection for easier handling
- Equipped with flat plug in terminals to permit fast connection
- MSM MO: Protection class IP67 frontside

Unique Selling Proposition

## Characteristics

- Housing material in high-quality stainless steel or aluminium
- Switching voltage from 30 VDC to 250 VAC

Switching current from 0.1 A to 16 A

- For use in harsh environments

## References

Further versions on request (MOQ 500 St.)

## Weblinks

pdf data sheet, html datasheet, General Product Information, CAD-
Drawings, Product News, Detailed request for product

- High quality materials
- Long life span
- Color marking

## Technical Data

| Electrical Data |  |
| :--- | :--- |
| Micro Switch | see table of variants |
| Impulse Withstand Voltage <br> (ESD) | 4 kV |
| Mechanical Data |  |
| Actuating Force (MO/LA) | $4.5 \mathrm{~N} / 10 \mathrm{~N}$ |
| Actuating Travel (MO/LA) | $1.0 \mathrm{~mm} / 5.2 \mathrm{~mm}$ |
| Lifetime | 1.5 million actuations |
| Shock Protection | $\mathrm{IK07}$ to IK10 |
| Mounting screw torque Plastic | $\max .3 .5 \mathrm{Nm}$ |
| Nut |  |

## Climatical Data

## Approvals and Compliances

Detailed information on product approvals, code requirements, usage instructions and detailed test conditions can be looked up in Details about Approvals

SCHURTER products are designed for use in industrial environments. They have approvals from independent testing bodies according to national and international standards. Products with specific characteristics and requirements such as required in the automotive sector according to IATF 16949, medical technology according to ISO 13485 or in the aerospace industry can be offered exclusively with customer-specific, individual agreements by SCHURTER.

## Product standards

Product standards that are referenced

| Organization | Design | Standard | Description |
| :--- | :--- | :--- | :--- |
| DIN | Designed according to | DIN EN 61058-1 | Switches for appliances. Part 1. General requirements |
| UL | Designed according to | UL 1054 |  |
|  |  | UL standard for safety special-use switches |  |

## Application standards

Application standards where the product can be used

| Organization | Design | Standard | Description |
| :--- | :--- | :--- | :--- |
| IEC | Suitable for applications acc. | IEC/UL 62368-1 | Audio/video, information and communication technology equipment - Part |
|  |  |  | 1: Safety requirements |

## Compliances

The product complies with following Guide Lines

| Identification | Details | Initiator <br> SCHURTER AG |
| :--- | :--- | :--- |
| CE declaration of conformity | Sescription |  |$\quad$| The CE marking declares that the product complies with the applicable |
| :--- |
| requirements laid down in the harmonisation of Community legislation on |
| its affixing in accordance with EU Regulation $765 / 2008$. |

## Tolerance Range

Actuator Tolerance Range

The mounting tolerance range of the actuator varies from 0.2 mm projection length and 0.2 mm short length to the housing edge. The slanting position of the actuator can range within this tolerance.

## Dimension

With torsion protection Without torsion protection

| Diameter $(\mathrm{mm})$ | A | B |
| :---: | :---: | :---: |
| 16 | $15.15+0.05$ | $16.1+0.1$ |
| 19 | $18.15+0.05$ | $19.1+0.1$ |
| 22 | $21.15+0.05$ | $22.1+0.1$ |

| 30 | $28.85+0.05$ | $30.1+0.1$ |

## Assembly Instructions

During assembly, the protruding bars of the holder should not be pressed together.

I Housing
II Flat Pin Terminal (Illumination)
III 0-Ring gasket
IV Nut (Nut type see Dimensions)
V Module Switching Contact

Installation Instruction:

1. Place the gasket accurately on the actuator housing. Then mount the actuator housing assembly into the panel.
2. Tighten the screw nut according to the torque instructions.
3. Clasp the module switching contact into the micro switch holder of the actuator housing.

Installation information:

- The power supply and the configuration of the flat pin terminals have to be installed correctly for the illumination and micro switch function.
- Insulate the terminals as required. Fully insulated plug-in sleeves are recommended.
- Installation instructions according to VDE-standard DIN VDE 0100-100 or alternatively IEC 60354 standard.
- During assembly, the protruding bars of the holder should not be pressed together.
