

Data sheet Single-LED.

Part No.: 10-2601.3172K

Technical data

Illuminative colour	Red
Forward voltage kind of	DC
Forward voltage typ.	2.0 V
Forward current	20 mA
Weight	0.001 kg
Illumination colour	Red
Dom. Wavelength	635 nm
Lumi. Intensity	450 mcd

Hints

- For LED element fitting information see Application guidelines, LED polarity
- Luminosity and wave length variations caused by LED manufacturing processes may cause slight differences regarding the illumination. The customer has to decide what resistor shall be used to the LED
