## mikroBasic PRO for FT90x

PID: MIKROE-1732

## Single solution for designing GUIs, coding the backend, compiling and debugging

With the integrated <u>Visual TFT</u> you can create amazing user interfaces, simply drag and drop visual elements and the compiler will generate the code for you. Save time and focus on making your graphic design the best possible.

Seamlessly switch between designing and coding using keyboard shortcut F12.

Manage all your data quickly and easily. Make the workspace comfortable and suited to your need. Use the default layout of the IDE, or arrange the windows manually. Navigate through all the projects you are working seamlessly and save time with the intuitive IDE of the mikroBasic compiler.

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

health and safety management system.

## **Specifications**

Architecture	FT90x (32-bit)
License type	Electronic (virtual),USB Dongle
Programming language	Basic
Silicon Vendor	FTDI
