

3M Scotch-Brite Bristle Disc – DB-ZB

- One-piece moulded construction impregnated with 3M™ Cubitron™ Mineral which gives a consistent cleaning action throughout product life.
- Compared to wire brushes, the Bristle Disc's construction means the risk of flying wires is eliminated and minimal pressure is required, making the product extremely easy and comfortable to use.
- The open bristle construction makes the product more conformable than Clean & Strip, with no loading.
