

Wiha. Premium Tools
for Professionals.

Wiha Selector. Easy Selection Guaranteed.

Newly developed opening mechanism allows one-hand handling only by pressing one button. Transparent selector offers a quick overview of equipment.

New!

Product Features:

- **Newly developed opening mechanism allows quick opening by pressing a button.**
- **Perfect handling due to the new ergonomic design.**
- **Fits easily in every pocket or tool box and can be stored on the wall.**
- **The first selector that can be equipped with 50 mm long bits.**
- **Selector windows for overview of equipment.**
- **Colour code system for a quick selection of the bits quality.**

Wiha continues with its programme of optimizing selectors according to users requirements. Thus, the newly designed opening mechanism offers an easy handling of the selector. A window for the product overview and the ergonomic design offers a maximum of comfort and handling.

Wiha-Info

Technical Advice of the Colour Code system

Wiha makes it easier for the user to divide between the different bits qualities by a new colour code system
The colours of the selector inserts mean:

-  DuraBit
-  Diamond
-  Specialist (i.e. Inkra, Bits with MagicRing...)
-  TiN
-  Torsion
-  Standard
