

Product Change Notification

Date: 02/07/2024

By UTC-100 Series PM

Introduction:

In seeking for improved user experience and security, UTC-115 will implement updated design of Back-Cover.

The new designs are:

1. For UTC-115 all Series: Add screws to side cover. This would add securities to unmanned UTC-115 that are placed in various different places. However it would still maintain that “smooth and screwless” look on the surface.
2. For UTC-115 all Series: All peripheral covers are now re-usable.

Please note that this change will begin taken effect on newly manufactured units after current stocks are depleted. Thus there would be a period where units would have new designs and old designs; depending on its manufactured date. Please note that T-P/N and ODM models will also be impacted by this change.

Description of Component Changes:

The 3-digits in below tables represents PNs to be changed soon.

The key message here is to show the amount of changes to be expected. Part Numbers will be updated as soon as they become ready.

Please note the New and Old components are mutually exclusive and cannot be mixed together.

Milestone:

Milestone	Definition	Remark
Announcement Date	The publication date of this notice	2024/2/7
Cut in schedule	Advantech will start to implement within 2 weeks after this notice	No later than 2024 Q1
Ordering P/N change?	Will the ordering P/N be changed?	No
All Rework?	Will this change apply to current stock and RMA units?	No

Impact on Application and Recommended Action:

Item	Impact
Impact on functionality	Yes
Impact on Mechanical Design	Yes
Impact on Audio driver	No
Impact on BIOS	No
Impact on Environment Characteristics	No
Impact on System Certificates	No

Affected Products:

1. For UTC-115 G and H and I series: Add screws to side cover. This would add securities to unmanned UTC-115 that are placed in various different places. However it would still maintain that “smooth and screwless” look on the surface.

Standard Products and all customized products including T-P/N and ODM models will be impacted.

[Note: Please work with your Advantech representatives if you have any concern of your products \(T-P/Ns and ODM models\) phase in plan.](#)
