Part Name	Digital IR EVM KIT	Part No.	IMF059M00	Rev.	0.0

1. Introduce

This document describes the ZTPD series digital output Evaluation Kit, including the hardware software, and its installation.
The software is designed for Windows®-based operating systems to communicate with user's computer, which functions as a master.

2. Overview

Evaluation Kit includes the following hardware components as below Fig 1.

- I2C communication board
- IR detector breakout board
- USB A to B cable
- Signal connect 4 wire cable
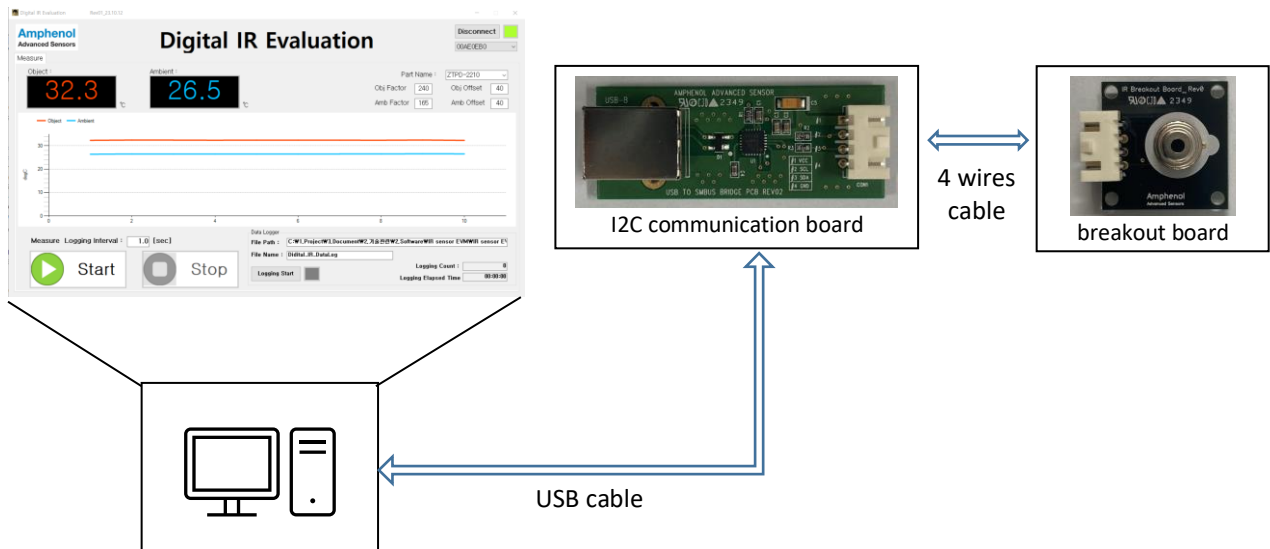

* Remark
- IR detector is not included at EVM Kit

Fig. 1 Evaluation board setting Overview.

- **Software operating procedure**

- Downloading software
- Connect the USB cable(PC and I2C board) and 4 wire cable(I2C and breakout board)
- Enter folder and click ZTPD-2210_EVM_xxx_xxx.exe
- Click connect button
- Click Start button

3. Software GUI

Basic operating condition setting and display sensor measurement value.

Fig. 2   Measurement Tab screen

Control Unit	Description
Connection setting	The button allows closing and opening the USB communication port.
Slave device scan	If the slave device address is not automatically displayed, check the device manually.
Model selection	Select specific ZTPD model
Measure Logging Interval	Sensor output temperature value display/logging interval setting
Logging Start	Measure data logging option(If you want to save data, click the button)
Data acquisition Start / Stop	Measurement start/stop setting

- **Product selection**

ZTPD series IR detector has different temperature ranged product, so evaluating sensors using EVM software, you must select the exact model you want to evaluate.

Part name	Object Temp. Range	Ambient Temp. Range	Remark
ZTPD-2210	-20℃ ~ 100℃	-20℃ ~ 85℃	Standard TO-39 package
ZTPD-2210TA	-20℃ ~ 60℃	-20℃ ~ 60℃	Standard TO-39 package
ZTPD-2210H	-40℃ ~ 125℃	-20℃ ~ 105℃	Narrow FOV TO-39 package

4. Logging data

Evaluation software provide sensor measurement data in csv file format.

Below is sensor logged data example.

Time	Object Temperature [degC]	Ambient Temperature [degC]
[2023-11-01 13:17:09.338]	25.6	27.8
[2023-11-01 13:17:10.345]	25.6	27.8
[2023-11-01 13:17:11.337]	25.4	27.8
[2023-11-01 13:17:12.345]	25.6	27.8
[2023-11-01 13:17:13.335]	25.2	27.8
