# DORO
CONGRESS - 200 Business Phone

APPLICATIONS

This uniquely designed business class telephone is ideally suited for all applications including business and government office environments.

Stylish in design, the Congess 200 provides a range of features such as the selectable message waiting indicator to suit all popular PABX applications.

The LCD displaying the dialled number, clock and call timer together with the headset port make this phone suitable for call centres, help desks and telemarketing environments.

The Congress 200 also includes 20 true one-touch memories and on-hook dialling for the busy executive and a one-way speakerphone for situations that require group listening.

Built to perform and highly durable, this sleek modern phone is an affordable and reliable alternative for any business.
