

**09206 - Jewel® MagSnap Coil Cord, 6' Right Angle**

- **[Strain Relief Tests](#) Over 1 Million Cycles; 62 Times The Minimum Requirement Per ESD S1.1**

Eliminates intermittent failures that occur with less durable cords and extends the lifespan of the wrist strap.

- **Patented<sup>1</sup> Spring Supported Contoured Banana Plug**

Designed to prevent wear to banana springs that will leads to accidental disconnects from banana jacks.

- **Right Angle Banana Design**

Extends coil cord life by reducing fatigue at the strain relief of the banana plug and by reducing incidents of being struck by operator, chair and carts that damage the banana plug.

- **Low Profile Snap Design**

Prevents cord from being disconnected or getting in the way of operator's work area.

- **Date Coded**

Provided so that the lifespan of the product may tracked and to ensure quality control.

- **UL Listed**

Meets UL requirements to ensure operator safety.

- **Made in the United States of America**
