

WAGO has launched a new version of our SmartPrinters.

The part numbers that you have purchased previously are no longer available and have been replaced by new part numbers. You will not be able to purchase the old parts.

Importantly, this does not mean that the old SmartPrinters have become obsolete overnight, they can still carry on being used and any stock that you have can still be sold.

Here are the new part numbers:-

258-5000 (old starter kit) becomes **258-5107 (new starter kit)**

258-5001 (old basic kit) becomes **258-5108 (new basic kit)**

258-5000

**258-5107
Starter Kit
(with marking media)**

258-5001

**258-5108
Basic Kit
(without marking media)**

The new version has a couple of new features and is now WAGO branded....and in a few months there will be a Marking App available meaning that our printer can be used wireless too.

If you have any questions or need more information, then please let us know.
