Subject: Raw material issue affecting Johanson 0201 High-Q products

We have identified a raw material issue that is affecting our 0201 L-Series products. Our technical team is focused on resolving this issue. However, currently we have not identified a solution. 0201 L-Series capacitors are affected.

The result of this issue is that most lots do not pass our standard reliability screening process. As such, we cannot guarantee reliability and delivery. Because we are faced with an indefinite period to resolve the issue and we cannot guarantee a delivery date, we have moved the affected parts to End-of-Life (EOL) status.

We believe that our reliability screening prevents the escape of problem products to our customers.

We will accept any requests for cancellations of the part numbers included on the below list.

Johanson does not have an alternate offering at this time.

This document serves as notification of the change in product availability.

Overview of Products Affected (Note below is a detail list of all specific P/Ns affected)

Global P/N	Legacy P/N	Affected Values
QLCDxxxxxxxxxxxxxx,	xxxR05Lxxxxxxx,	All values

Below is the complete list of 2,706 part-numbers which are affected. These are sorted by our new global part numbers and include our legacy part numbers.

If you have any questions, please contact Scott Muller by email, smuller@johansondielectrics.com or by phone at 480 220-2510.

Sincerely,
Johanson Technology, Inc.

Scott Horton
Vice President, Marketing
