

Internal Product Announcement

EOL Announcement: Audio Adapter for the Analog Discovery (#410-405)

Date: August 23, 2024

Recommended Audience:

Digilent Employees

Digilent Distributors

Digilent has decided to EOL (End of Life) the Audio Adapter for the Analog Discovery (#410-405). This audio adapter has been replaced with the new Analog Discovery Audio Adapter+ (#410-418) that was released for the Analog Discovery 3 and is backwards compatible with the Analog Discovery 2. We have sold the last of the remaining Audio Adapter for the Analog Discovery stock and this product has been removed from our website. Any customers looking for this EOL device should be directed to the new Analog Discovery Audio Adapter+ (#410-418).

EOL Product	Recommended Product Replacement
Audio Adapter for the Analog Discovery	Analog Discovery Audio Adapter+
Part Number: 410-405	Part Number: 410-418
	

Description:

The Audio Adapter+ is a module that allows the Analog Discovery 3 to capture and analyze audio signals from external sources and easily connect the signals generated by the device to audio devices like headphones and speakers.
