

## Description

The product is a CAT III 600V auto-ranging True RMS fork meter that measures 60AAC/DC current. It can detect the presence of voltage via the integrated non-contact voltage (NCV) sensor on the tip of the fork. The easy-to-use interface with bright backlight can help users finish the work efficiently and conveniently. The specially designed slim meter shell and thin fork are quite useful for cable measuring in narrow spaces. The meter comes with two 1.5V AAA batteries that can easily be changed, and the easy-access door is built for fast battery changes.
