**Description**

These Twist Cobalt Drill Bits, made from premium M35 high-speed steel with 5% cobalt content to provide superior strength and heat resistance for tough drilling tasks. Built to DIN338 standards and designed with a 135-degree split point angle, these bits offer enhanced precision, reduce walking, and allow for efficient drilling through harder materials like stainless steel and cast iron. The cobalt alloy ensures exceptional durability, making these drill bits ideal for heavy-duty and professional applications that demand long-lasting, high-performance tools.

**Specifications:**
