

22-Nov-2024

PCN #: P-24-027214

Subject : 2 & 3 WAYS HP/HPSL Connector

Description of Change : Dear Customer, We hereby inform you about adding a dual source material for the rear grid of the mentioned part numbers. As previously communicated, this action is mandatory to ensure multiple sourcing and to avoid any shortages

Reason for Change: Part status change. TE Connectivity could switch to a dual source material with similar characteristics as the currently used material. The alternative material for the rear grid component of the HP/HPSL connector, Paldur PBT GF-15, is not limited in time and depends on market conditions. The switch back to the previous material will also depend on market conditions. The material marking will remain the same: PBT GF-15. TE Connectivity will not conduct full testing, as the material has the same characteristics, and to the best of TE's knowledge, no negative impact on product performance is expected.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
