

December 2024

Dear valued customer,

Panasonic 6F22 batteries supply

We regret to inform you that Panasonic 6F22 batteries will be discontinued permanently from the APS portfolio.

The previous supplier has ceased production of this model, and no alternative supplier has been approved by Panasonic Corporation of Japan. The possibility of sourcing 6F22 batteries will be reconsidered only if the global demand for this model significantly increases, which is currently unlikely.

We understand that this situation may cause inconvenience for you and your customers. Please do not hesitate to contact your account manager to discuss alternative products.

Kind regards,

A handwritten signature in blue ink, appearing to read 'Izabela Janicka', is positioned above the printed name.
