Bourns® SRF1006 Series and Model SRF1065-110Y Line Filters

Process Automation

Riverside, California – California – March 10, 2025 – In the spirit of continuous improvement, effective August 25, 2025, Bourns will change its soldering and appearance inspection processes from manual to automated for the [SRF1006 Series](#) and Model SRF1065-110Y Line Filters. A list of affected part numbers is included below.

Affected Part Numbers	
SRF1006-121Y	SRF1006-302Y
SRF1006-251Y	SRF1006-402Y
SRF1006-501Y	SRF1006-472Y
SRF1006-102Y	SRF1006-502Y
SRF1006-202Y	<u>SRF1065-110Y</u>

The form, fit, and function of the affected part numbers will remain the same. The quality and reliability of the affected line filters should be improved as a result of the process change. The country of origin of the affected part numbers will remain the same. Traceability will be maintained through lot code and date code.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

Implementation dates are as follows:

Date that delivery of products manufactured with current process will cease: **August 24, 2025**

Date that delivery of products manufactured with the new process will begin: **August 25, 2025**

First date code using the above changes: **2535**

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
