TE Connectivity

Product Change Notification: PCN-25-243646

PCN Date: 04-JUN-25

Customer: DISTRIBUTOR NA (66666661)

Location: NO CITY PROVIDED

Agreement: 120513180001

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

Product Description: (Text limited to 120 characters)

MicroSpeed Male straight shield.

General Description of Changes

Valued Customer, we are transitioning the plating of the shields used in our connectors to an existing plating vendor. This change aims to enhance the reliability and flexibility of our supply chain. This plating vendor has been confirmed technical feasibility via sample trials or series production releases of similar products. The plating vendor will perform the standard control and quality measures on individual production batches, which are obligatory to comply with our internal series production and product specifications. These measures will include: Thickness measurements Optical and adhesion tests Minor optical differences may be possible due to different tooling. All other process steps during the manufacturing of our products will remain according to our existing releases. The alternative plating supply chain does not change the fit, form, or function of the product but implies a manufacturing location change. Timing: Juli 2025

Reason for Changes:

Manufacturing location change

PCN Attributes:

Product Category:	Kind of Change:
