### Purpose/objective of the change

Portfolio optimization

### Detailed description of the change

As part of the ongoing improvement process, the passive distributor boxes with M23 plug-in connection will be discontinued and replaced by optimized articles.  
The new distributor boxes (M23) enable quick and easy connection of M12 Push-Pull connectors and M23 Oneclick connectors (master cable). The two integrated fast-locking systems are backward compatible, which means that standard screw connectors can also be connected.  
Please see the attached file for details.

### Identifying characteristics

Discontinuation
