**SNAP-ON CONTACTS**

- Economical and reliable contacts are ideal for molded cases with self contained battery compartments.
- Single & dual contact designs available for "A" - "AA" - "AAA" - "AAA" - "12V" size batteries.
- Solder "ear" to facilitate soldering of wire lead.
- Unique spring tension contact adjusts to variations in battery length.
- Reliable spring tension contacts assure low contact resistance.
- Clips easily onto .060 (1.52) to .070 (1.78) thick panel edge.
- Sharp barbs securely anchor contact in place.

For "A" - "AA"

- The (2) two leaf contacts are held together by a web. This design offers greater stability.

For "AAA" - "AAAA" - "12V" - "N"

- The (2) two leaf contacts are separate, allowing a divider between the batteries.
