

## Encoder Mounting Kit – Type 3205/4/6/8 Part Number MMUK02043

### The mounting kit

This fits to the back of our motors. It consists of:

- 3 x shaft sleeve to allow the encoder to be fitted to motors with shaft diameters of 4, 6 & 8 mm and also 1/4 inch
- A two-part plastic mounting ring & base plate, this allows the encoder to be positioned to within 3 degrees
- 3 x screws to secure the mounting ring to the motor.

### The encoder

This snaps onto the mounting ring.

The encoder disc is secured with a grub screw tightened by a hex wrench (supplied).
