### Notes on this Catalog:

- The Catalog ST 70 News · 2006 is a supplement to the Catalog ST 70 · 2005. It contains new products as well as updated technical and ordering data.
- Catalog ST 70 · 2005 remains valid.

**SIEMENS**

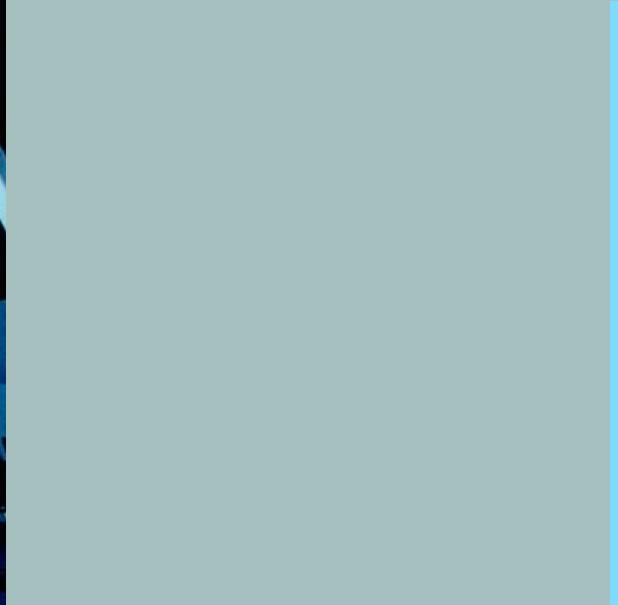

## Welcome to Automation and Drives

We would like to welcome you to Automation and Drives and our comprehensive range of products, systems, solutions and services for production and process automation and building technology worldwide.

With Totally Integrated Automation and Totally Integrated Power, we deliver solution platforms based on standards that offer you a considerable savings potential.

Discover the world of our technology now. If you need more detailed information, please contact one of your regional Siemens partners.

They will be glad to assist you.

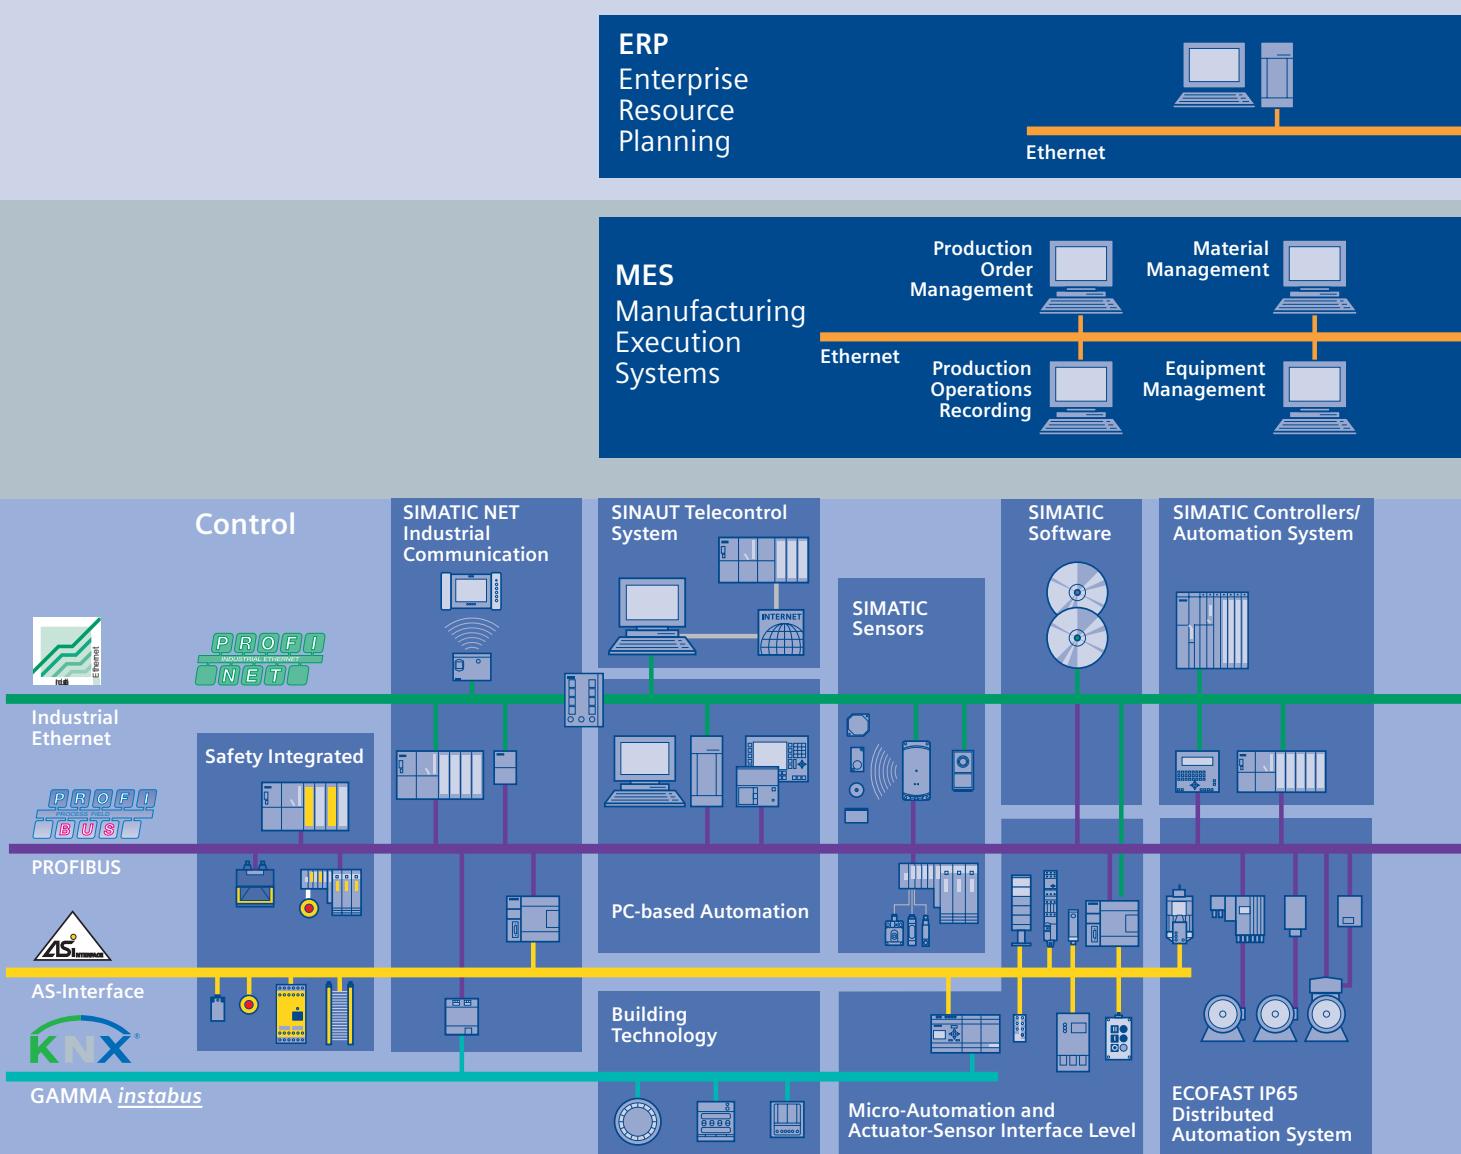

# Totally Integrated Automation – innovations for more productivity

With the launch of Totally Integrated Automation, we were the first ones on the market to consistently implement the trend from equipment to an integrated automation solution, and have continuously improved the system ever since.

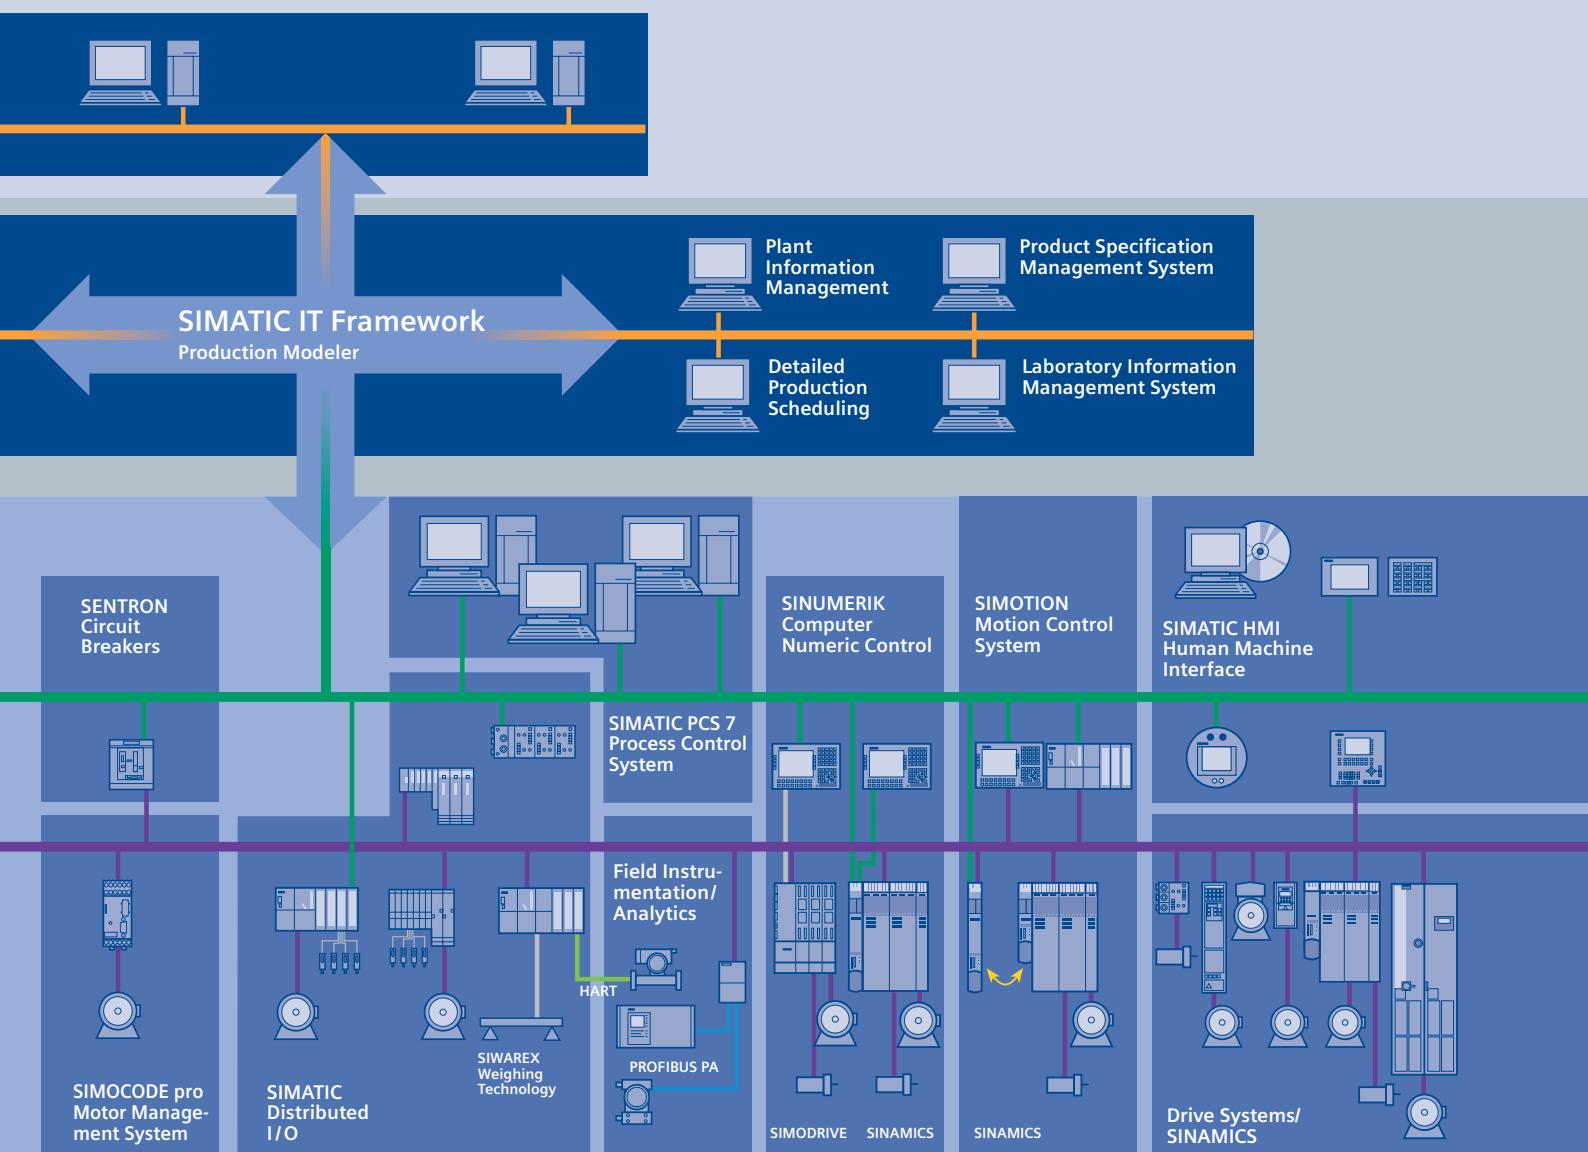

Whether your industry is process- and production-oriented or a hybrid, Totally Integrated Automation is a unique "common solution" platform that covers all the sectors.

Totally Integrated Automation is an integrated platform for the entire production line - from receiving to technical processing

and production areas to shipping. Thanks to the system-oriented engineering environment, integrated, open communications as well as intelligent diagnostics options, your plant now benefits in every phase of the life cycle.

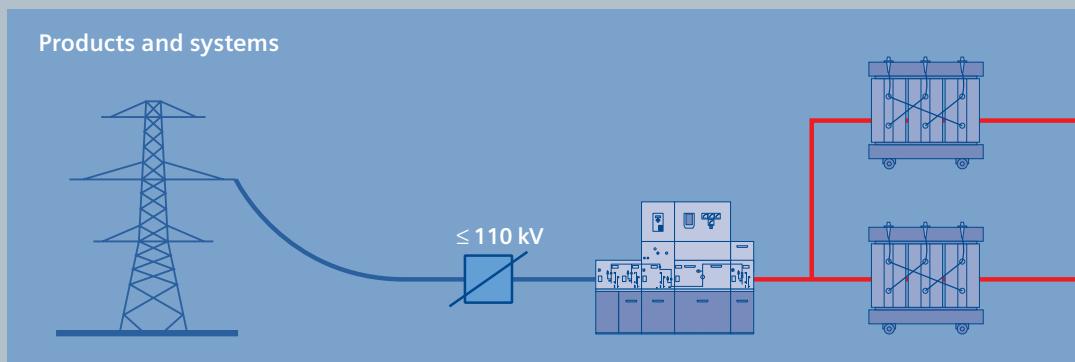

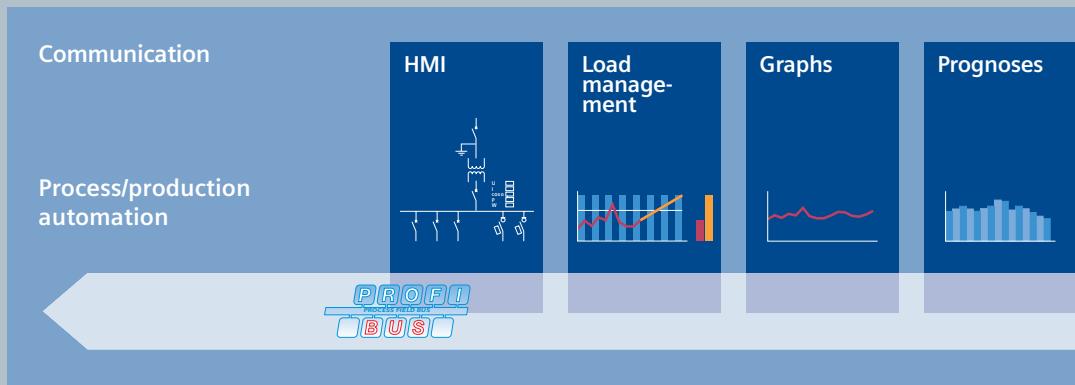

In fact, to this day we are the only company worldwide that can offer a control system based on an integrated platform for both the production and process industry.

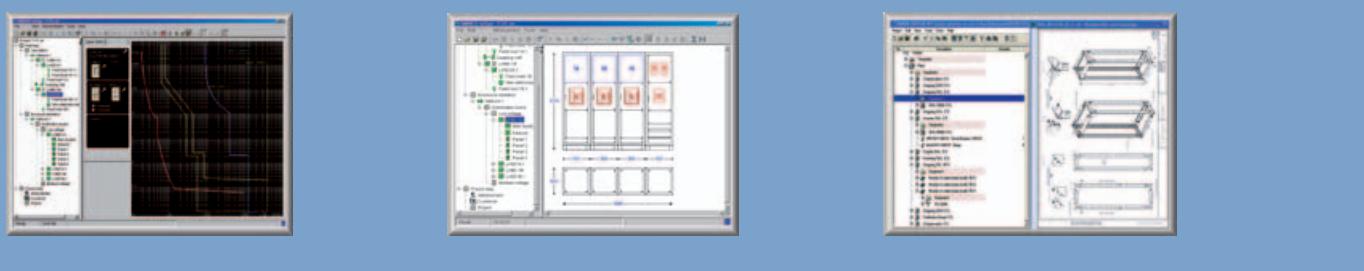

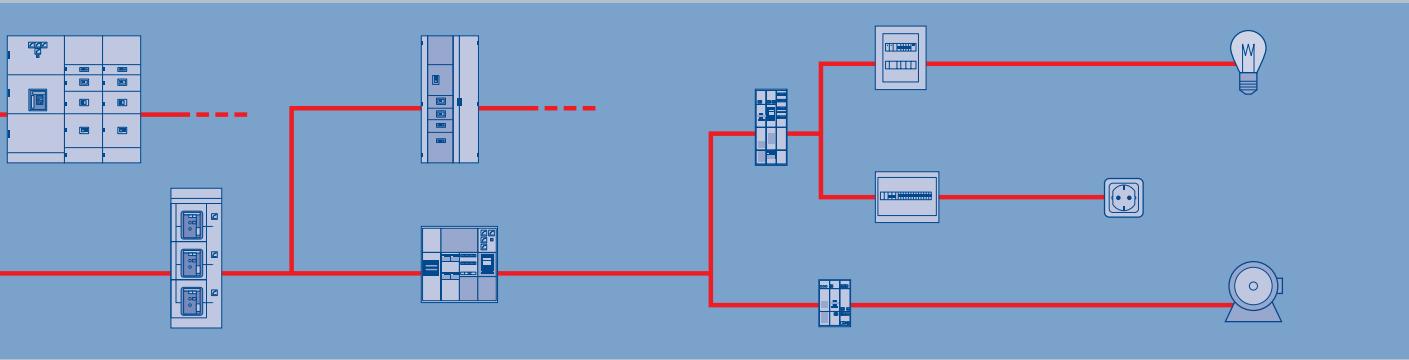

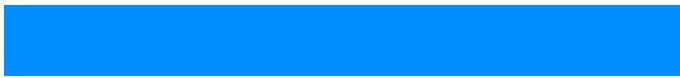

# Totally Integrated Power – energy distribution and management from one source

Totally Integrated Power™ by Siemens offers integrated solutions for energy distribution in functional and industrial buildings covering everything from medium-high voltage to power outlets.

Totally Integrated Power™ is based on integration in planning and configuration as well as coordinated products and systems. In addition, it features communications and software modules for connecting power distribution systems to industrial automation and building automation, thereby offering a substantial savings potential.

### SIPLUS LOGO! modular basis variants

#### Overview

- The space-saving basic variants.
- Interface for the connection of expansion modules, up to 24 digital inputs, 16 digital outputs, 8 analog inputs and 2 analog outputs can be addressed.
- CE, cUL certifications (available soon)

#### This module is designed for

- an ambient temperature range of – 25 to + 70 °C  
(– 25 to +55 °C for applications with cUL certification); condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

#### Technical specifications

<b>SIPLUS LOGO! 24</b>	<b>6AG1 052-1CC00-2BA5</b>
(extended temperature range and extraordinary medial load)	
24 V DC supply voltage, 8 digital inputs 24 V DC, of which 2 can be used as analog inputs (0 to 10 V), 4 digital outputs 24 V DC, 0.3 A; 130 function blocks can be linked, with modular expansion capability	
<b>SIPLUS LOGO! 12/24RC</b>	<b>6AG1 052-1MD00-2BA5</b>
(extended temperature range and extraordinary medial load)	
12/24 V DC supply voltage, 8 digital inputs 12/ 24 V DC, of which 2 can be used as analog inputs (0 to 10 V), 4 relay outputs 10 A, integral time switch; 130 function blocks can be linked, with modular expansion capability	
<b>SIPLUS LOGO! 24RC</b>	<b>6AG1 052-1HB00-2BA5</b>
(extended temperature range and extraordinary medial load)	
24 V AC/DC supply voltage, 8 digital inputs 24 V AC/DC, 4 relay outputs 10 A, integral time switch; 130 function blocks can be linked, with modular expansion capability	
<b>SIPLUS LOGO! 230RC</b>	<b>6AG1 052-1FB00-2BA5</b>
(extended temperature range and extraordinary medial load)	
115 /230 V AC/DC supply voltage, 8 digital inputs 115 /230 V AC/DC, 4 relay outputs 10 A, integral time switch; 130 function blocks can be linked, with modular expansion capability	
<b>Accessories</b>	see ordering data for LOGO! modular basic variants

#### SIPLUS LOGO! 24

(extended temperature range and extraordinary medial load)  
24 V DC supply voltage,  
8 digital inputs 24 V DC, of which  
2 can be used as analog inputs  
(0 to 10 V),  
4 digital outputs 24 V DC, 0.3 A;  
130 function blocks can be  
linked, with modular expansion  
capability

#### SIPLUS LOGO! 12/24RC

(extended temperature range and extraordinary medial load)  
12/24 V DC supply voltage,  
8 digital inputs 12/ 24 V DC, of  
which 2 can be used as analog  
inputs (0 to 10 V),  
4 relay outputs 10 A,  
integral time switch;  
130 function blocks can be  
linked, with modular expansion  
capability

#### SIPLUS LOGO! 24RC

(extended temperature range and extraordinary medial load)  
24 V AC/DC supply voltage,  
8 digital inputs 24 V AC/DC,  
4 relay outputs 10 A,  
integral time switch;  
130 function blocks can be  
linked, with modular expansion  
capability

#### SIPLUS LOGO! 230RC

(extended temperature range and extraordinary medial load)  
115 /230 V AC/DC supply voltage,  
8 digital inputs 115 /230 V AC/DC,  
4 relay outputs 10 A,  
integral time switch;  
130 function blocks can be  
linked, with modular expansion  
capability

#### Accessories

## Overview

- Expansion modules for the connection to LOGO! modular
- With digital inputs and outputs, analog inputs or analog outputs
- CE, cUL certifications (available soon)

This module is designed for

- an ambient temperature range of – 25 to + 70 °C (– 25 to +55 °C for applications with cUL certification); condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

## SIPLUS central processing units

### SIPLUS CPU 221, 222, 224, 224 XP, 226

3

#### Overview SIPLUS CPU 221

- The smart compact solution
- With 10 inputs/outputs on board
- Not expandable
- Conformity with standard for electronic devices on rail vehicles (EN 50155, temperature T1, category 1)
- CE, cUL certifications (available soon)

This module is designed for

- an ambient temperature range of – 25 to + 70 °C  
(- 25 to +55 °C for applications with cUL certification); condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

#### Overview SIPLUS CPU 222

- The superior compact solution
- With 14 inputs/outputs on board
- Expandable with up to 2 expansion modules
- Conformity with standard for electronic devices on rail vehicles (EN 50155, temperature T1, category 1)
- CE, cUL certifications (available soon)

This module is designed for

- an ambient temperature range of – 25 to + 70 °C  
(- 25 to +55 °C for applications with cUL certification); condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

#### Overview SIPLUS CPU 224, CPU 224 XP

CPU 224:

- The compact high-performance CPU
- With 24 inputs/outputs on board
- Expandable with up to 7 expansion modules
- Conformity with standard for electronic devices on rail vehicles (EN 50155, temperature T1, category 1)
- CE, cUL certifications (available soon)

CPU 224 XP:

- The power CPU
- With 24 digital and 3 analog inputs/outputs onboard
- Expandable with up to 7 expansion modules
- CE, cUL certifications (available soon)

These modules are designed for

- an ambient temperature range of – 25 to + 70 °C  
(- 25 to +55 °C for applications with cUL certification); condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

#### Overview SIPLUS CPU 226

- The high-performance package for complex technical tasks
- With additional PPI port for added flexibility and communication options
- With 40 inputs/outputs on board
- Up to 7 expansion modules.

**Overview SIPLUS CPU 226 (continued)**

- Conformity with standard for electronic devices on rail vehicles (EN 50155, temperature T1, category 1)
- CE, cUL certifications (available soon)

**This module is designed for**

- an ambient temperature range of – 25 to + 70 °C  
(- 25 to +55 °C for applications with cUL certification); condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

## SIPLUS analog modules, function modules

### SIPLUS EM 231 RTD module

#### Overview

- For user-friendly, high precision temperature detection
- Supports 31 standard resistance temperature sensors
- Easy to install in an existing system
- SIPLUS RTD module 6AG1 231-7PB22-2XY0:  
Conformity with standard for electronic devices on rail vehicles (EN 50155, temperature T1, category 1)
- CE, cUL certifications (available soon)

These modules are designed for

- an ambient temperature range of – 25 to + 70 °C  
(– 25 to +55 °C for applications with cUL certification); condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

### SIPLUS DCF 77 radio clock module

#### Overview

The synchronisation of the real-time clock for the automation systems SIMATIC S7-200, S7-300 and S7-400 with the official time of day of the time signal transmitter DCF 77 of the Physikalisch-Technische Bundesanstalt Braunschweig is made by this module.

The time receipt occurs via a DCF transmitter (antenna with solid-state) which is connected to the SIMATIC and SIPLUS PLC via two digital inputs and a software driver included in the scope of supply (function block FB). The function blocks can be downloaded under: <http://www.siemens.com/siplus> - Support - Tools & Downloads!

#### Technical specifications

##### SIPLUS DCF 77 radio clock module

Radio frequency	77,5 Hz
Power supply	24 V DC (20,4 ... 28,8 V DC)
Power consumption, typ.	50 mA
Ambient temperature range	-25 ... +70 °C
Degree of protection	IP 65
Dimensions (W x H x D) in mm	75 x 125 <sup>1)</sup> x 75

1) Additionally 25 mm (0.98 in) for heavy duty threaded joint and bending radius for cables

#### Ordering data

#### Order No.

SIPLUS DCF 77 radio clock module <sup>A)</sup>	6AG1 057-1AA03-0AA0

**SIPLUS EM 277 PROFIBUS DP module**

**Overview**

- For connection of the S7-22x to PROFIBUS DP (as slave) and MPI
- Can be simultaneously operated as MPI slave and DP slave
- Transmission rate max. 12 Mbps
- Can be used with CPU from version 6AG1 22x-xxx**21**-xxxx
- Conformity with standard for electronic devices on rail vehicles (EN 50155, temperature T1, category 1)
- CE, cUL certifications (available soon)

This module is designed for

- an ambient temperature range of – 25 to + 70 °C  
(– 25 to +55 °C for applications with cUL certification); condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

## Human Machine Interface

### TD 100C text display

3

#### Overview

- The low-cost text display for the S7-200 with customized display
- For HMI functions:  
display of message texts, interventions in the control program, setting of inputs and outputs
- Direct connection to CPU interface
- No separate power supply required
- No separate parameterization software required
- Front design can be selected individually
- Addressing and setting of contrast in supplied menu

#### Technical specifications

	<b>6ES7 272-1BA10-0YA0</b>
<b>Power supply</b>

## Central processing units

### CPU 314C-2 PtP, CPU 314C-2 DP, CPU 314

#### Overview CPU 314C-2 PtP

- The compact CPU with integrated digital and analog I/Os, as well as a second serial interface
- For installations with high requirements in terms of processing power and response time
- With process-related functions

*Micro memory card required to operate the CPU.*

#### Overview CPU 314

- For installations with medium requirements on program scope
- High processing performance in binary and floating-point arithmetic

*Micro memory card required to operate the CPU.*

#### Overview CPU 314C-2 DP

- The compact CPU with integrated digital and analog I/Os and PROFIBUS DP master/slave interface
- With process-related functions
- For tasks with special functions
- For the connection of standalone I/O devices

*Micro memory card required to operate the CPU.*

## Central processing units

CPU 315-2 PN/DP, CPU 315T-2 DP,  
CPU 315F-2 PN/DP, CPU 317F-2 PN/DP

### CPU 315-2 PN/DP

- The CPU with a medium program memory and quantity framework
- High processing performance in binary and floating-point arithmetic
- Used as a central controller on production lines with central and distributed I/O
- Integral PROFINET interface
- Combined MPI / PROFIBUS DP-master/slave interface
- Component Based Automation (CBA) on PROFINET
- PROFINet proxy for intelligent devices on PROFIBUS DP in Component Based Automation (CBA)
- PROFINET IO Controller for operating distributed I/O on PROFINET

*Micro Memory Card required for operation of CPU.*

### CPU 315T-2 DP

- SIMATIC CPU with integrated technology/motion control functionality
- With the full functionality of the standard CPU 315-2 DP
- For multi-sector automation tasks in the construction of series machines, special machines and plants
- Ideal for synchronized motion sequences such as coupling to a virtual/real master, electronic gearbox, cam disc or print-mark correction.
- Used as a central controller on production lines with central and distributed I/O
- With integrated I/O for fast technological functions (e.g. cam switching, reference point detection)
- PROFIBUS DP (DRIVE) interface for the isochronous connection of drive components.
- A common S7 application program for control and motion control tasks (no additional programming language for motion control required)
- Optional "S7 Technology" package required

*Micro Memory Card required for operation of CPU.*

# SIMATIC S7-300

## Central processing units

CPU 315-2 PN/DP, CPU 315T-2 DP,  
CPU 315F-2 PN/DP, CPU 317F-2 PN/DP

### CPU 315F-2 PN/DP

- For design of a fail-safe automation system for plants with increased safety requirements
- Complies with safety requirements up to SIL 3 to IEC 61508 and up to Cat. 4 according to EN 954-1
- Fail-safe I/O modules in distributed stations can be connected through the integrated PROFINET interface (PROFIsafe) and/or through the integrated PROFIBUS DP interface (PROFIsafe)
- Fail-safe I/O modules of the ET 200M range can also be centrally connected
- Central and distributed use of standard modules for non safety-relevant applications
- Component Based Automation (CBA) on PROFINET
- PROFINET proxy for intelligent devices on PROFIBUS DP in Component Based Automation (CBA)

*Micro Memory Card required for operation of CPU.*

### CPU 317F-2 PN/DP

- The fail-safe CPU with a large program memory and quantity framework for demanding applications
- For design of a fail-safe automation system for plants with increased safety requirements
- Complies with safety requirements up to SIL 3 to IEC 61508 and up to Cat. 4 according to EN 954-1
- Fail-safe I/O modules in distributed stations can be connected through the integrated PROFINET interface (PROFIsafe) and/or through the integrated PROFIBUS DP interface (PROFIsafe)
- Fail-safe I/O modules of the ET 200M range can also be centrally connected
- Central and distributed use of standard modules for non safety-relevant applications
- Component based Automation (CBA) on PROFINET
- PROFINET proxy for intelligent devices on PROFIBUS DP in Component Based Automation (CBA)

*Micro Memory Card required for operation of CPU.*

<b>Test and startup functions (continued)</b>				
Diagnostic buffer				
- available	Yes	Yes	Yes	Yes
- Number of inputs, max.	100	100	100	100
- adjustable	No	No	No	
<b>Communication functions</b>				
• PG/OP communication	Yes	Yes	Yes	Yes
• Routing	Yes	Yes	Yes	Yes
Global data communication				
- supported	Yes	Yes	Yes	Yes
- Size of GD packets, max.	22 Byte	22 Byte	22 Byte	22 Byte
S7 basic communication				
- supported	Yes	Yes	Yes	Yes
S7 communication				
- supported	Yes	Yes	Yes	Yes
S5 compatible communication				
- supported	Yes	Yes	Yes	Yes
Open IE Communication				
- TCP/IP	Yes; via integrated PROFINET interfaces and loadable FBs		Yes; via integrated PROFINET interfaces and loadable FBs	Yes; via integrated PROFINET interfaces and loadable FBs
- Number of connections, max.	8		8	8
- Data length, max.	1,460 Byte		1,460 Byte	1,460 Byte
Number of connections				
- overall	16	16	16	32
- usable for PG communication	15	15	15	31
- usable for OP communication	15	15	15	31
- usable for S7 basic communication	14	12	14	30
PROFINET CBA (at 50 % Communication Load)				
- Number of remote interconnection nodes	32		32	32
- Sum of all Master/Slave connectors	1,000		1,000	1,000
- Data length of all input Master/Slave connectors	4,000 Byte		4,000 Byte	4,000 Byte
- Data length of all output Master/Slave connectors	4,000 Byte		4,000 Byte	4,000 Byte
- Data length for arrays and structures (acyclic interconn.), max.	1,400 Byte		1,400 Byte	1,400 Byte
- Data length for arrays and structures (cyclic interconn.), max.	450 Byte		450 Byte	450 Byte
- Data length for arrays and structures (local interconn.), max.	128 Byte		128 Byte	128 Byte
• Remote interconnections with acyclic transmission				
- Sample frequency: sample interval, min.	500 ms		500 ms	500 ms
- Number of input interconnections	100		100	100
- Number of output interconnections	100		100	100
- Data length of all input interconnections	2,000 Byte		2,000 Byte	2,000 Byte
- Data length of all output interconnections	2,000 Byte		2,000 Byte	2,000 Byte

<b>Communication functions (continued)</b>				
• Remote interconnections with cyclic transmission				
- Transmission frequency: transmission interval, min.	10 ms		10 ms	10 ms
- Number of input interconnections	200		200	200
- Number of output interconnections	200		200	200
- Data length of all input interconnections	2,000 Byte		2,000 Byte	2,000 Byte
- Data length of all output interconnections	2,000 Byte		2,000 Byte	2,000 Byte
• HMI variables via PROFINET (acyclic)				
- No. of stations that can log on simultaneously for HMI variab	3		3	3
- Update HMI variables	500 ms		500 ms	500 ms
- Number of HMI variables	200		200	200
- Data length of all HMI variables	2,000 Byte		2,000 Byte	2,000 Byte
• PROFIBUS Proxy Functionality				
- supports	Yes		Yes	Yes
- Number of coupled PROFIBUS devices	16		16	16
- Number of device internals and PROFIBUS interconnections	500		500	500
- Data length of all device internals and PROFIBUS interconnections	4,000 Byte		4,000 Byte	4,000 Byte
<b>1st interface</b>				
• Type of interface	integrated RS 485 interface	integrated RS 485 interface	integrated RS 485 interface	integrated RS 485 interface
• Physical	RS 485	RS 485	RS 485	RS 485
• Isolated	Yes	Yes	Yes	Yes
• Power supply to interface (15 to 30 V DC), max.	200 mA	200 mA	200 mA	200 mA
Functionality				
- MPI	Yes	Yes	Yes	Yes
- DP master	Yes	Yes	Yes	Yes
- DP slave	Yes	Yes	Yes	Yes
- Point-to-point connection	No	No	No	No
<b>MPI</b>				
- Number of connections	16		16	16
• Services				
- PG/OP communication	Yes	Yes	Yes	Yes
- Routing	Yes	Yes	Yes	Yes
- Global data communication	Yes	Yes	Yes	Yes
- S7 basic communication	Yes	Yes	Yes	Yes
- S7 communication	Yes	Yes	Yes	Yes
- S7 communication, as client	Yes; (via CP and loadable FB)	Yes	Yes; (via CP and loadable FB)	No; via CP and loadable FB
- S7 communication, as server	Yes	Yes	Yes	Yes
- Transmission rates, max.	12 Mbit/s	12 Mbit/s	12 Mbit/s	12 Mbit/s

<b>CPU/ programming (continued)</b>				
Software library				
• Instruction set	see instruction list		see instruction list	See instruction list
• Bracket levels	8	8	8	8
• User program protection/password protection	Yes	Yes	Yes	Yes
• System functions (SFC)	see instruction list		see instruction list	See instruction list
• System function blocks (SFB)	see instruction list		see instruction list	see instruction list
<b>Digital inputs</b>				
• Number of digital inputs		4		
• Functions		Technological functions, e.g. recording of reference point (BERO), digital inputs can also be used (to limited extent) in the STEP 7 user program.		
Number of inputs that can be driven in parallel				
- Number of inputs that can be driven in parallel, up to 40 °C		4		
- Number of inputs that can be driven in parallel, up to 60 °C		4		
Length of cable				
- Length of cable shielded, max		1,000 m		
- Length of cable unshielded, max		600 m		
• Standard DI				
• Input characteristic to comply with IEC 1131, Type 1		Yes		
Input voltage				
- Rated value, DC		24 V		
Input current				
- for 1 signal, typical		7 mA		
Input delay (at rated value of the input voltage)				
• for counters/technological functions				
- at 0 to 1, max.		10 µs		
- at 1 to 0, max.		10 µs		
<b>Digital outputs</b>				
• Number of digital outputs		8		
• Functions		for technological functions, e.g. fast cam switching signals.		
• Length of cable shielded, max.		1,000 m		
• Length of cable unshielded, max.		600 m		
• Short-circuit protection of the output		Yes		
- Response threshold, type.		1.0 A		
• Lamp load, max.		5 W		
• Driving a digital input		No		
Output voltage				
- for 0 signal (DC), max.		3 V		
- for 1 signal		2L+ (-2,5 V)		

**Technical specifications (continued)**

	6ES7 315-2EG10-0AB0	6ES7 315-6TG10-0AB0	6ES7 315-2FH10-0AB0	6ES7 317-2FJ10-0AB0
<b>Digital outputs (continued)</b>				
Output current				
- for 1 signal rated value		0.5 A		
- for 1 signal permissible range for 0 to 60 °C, min.		5 mA		
- for 1 signal permissible range for 0 to 60 °C, max.		0.6 A		
- for 0 signal residual current, max.		0.3 mA		
Parallel switching of 2 outputs				
- to increase power		No		
- to redundantly drive a load		No		
Switching frequency				
- at resistive load, max.		100 Hz		
- at inductive load, max.		0.2 Hz		
- at lamp load, max.		100 Hz		
Summation current of the outputs (per group)				
• horizontal mounting positions				
- up to 40°C, max.		4 A		
- up to 60°C, max.		3 A		
• all other mounting positions				
- up to 40°C, max.		3 A		
Load impedance range				
- lower limit		48 Ω		
- upper limit		4 kΩ		
<b>Sensor</b>				
Connectable encoders				
- 2-wire BEROS		No		
<b>Potentials/ electrical isolation</b>				
Digital output functions				
- between the channels and the backplane bus		Yes		
Digital input functions				
- between the channels and the backplane bus		Yes		
<b>Dimensions and weight</b>				
• Width	80 mm	160 mm	80 mm	80 mm
• Height	125 mm	125 mm	125 mm	125 mm
• Depth	130 mm	130 mm	130 mm	130 mm
• Weight, approx.	460 g	750 g	460 g	460 g

## SIPLUS central processing units

### SIPLUS CPU 313C-2 DP to CPU 317F-2 DP

#### Overview SIPLUS CPU 313C-2 DP

- The compact CPU with integrated digital I/Os and PROFIBUS DP master/slave interface
- With process-related functions
- For tasks with special functions
- For the connection of standalone I/O devices
- Conformity with standard for electronic devices on rail vehicles (EN 50155, temperature T1, category 1)

*Micro Memory Card required for operation of CPU.*

This module is designed for

- an ambient temperature range of – 25 to + 70 °C; condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

#### Overview SIPLUS CPU 314C-2 DP

- The compact CPU with integrated digital and analog I/Os and PROFIBUS DP master/slave interface
- With process-related functions
- For tasks with special functions
- For the connection of standalone I/O devices

*Micro Memory Card required for operation of CPU.*

This module is designed for

- an ambient temperature range of – 25 to + 70 °C; condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

#### Overview SIPLUS CPU 314

- For installations with medium requirements on program scope
- High processing performance in binary and floating-point arithmetic
- Conformity with standard for electronic devices on rail vehicles (EN 50155, temperature T1, category 1)

*Micro Memory Card required for operation of CPU.*

This module is designed for

- an ambient temperature range of – 25 to + 70 °C; condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

**SIPLUS CPU 313C-2 DP to CPU 317F-2 DP**

**Overview SIPLUS CPU 315-2 PN/DP**

- The CPU with a medium program memory and quantity framework
- High processing performance in binary and floating-point arithmetic
- Used as a central controller on production lines with central and distributed I/O
- Integral PROFINET interface
- Combined MPI / PROFIBUS DP-master/slave interface
- Component Based Automation (CBA) on PROFINET
- PROFINet proxy for intelligent devices on PROFIBUS DP in Component Based Automation (CBA)
- PROFINET IO Controller for operating distributed I/O on PROFINET

*Micro Memory Card required for operation of CPU.*

This module is designed for

- an ambient temperature range of – 25 to + 70 °C; condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

**Overview SIPLUS CPU 317-2 PN/DP**

- The CPU with a large program memory and quantity framework for demanding requirements
- Distributed intelligence in Component Based Automation (CBA) on PROFINet
- PROFINET proxy for intelligent devices on PROFIBUS DP in Component Based Automation (CBA)
- PROFINET I/O controller for operating distributed I/O on PROFINET
- For multisector automation tasks in the construction of series machines, special machines and plants
- Used as a central controller on production lines with central and distributed I/O
- For extensive I/O configurations
- For setting up distributed I/O structures
- High processing performance in binary and floating-point arithmetic
- Combined MPI/PROFIBUS DP-master/slave interface
- Supports as an option the use of SIMATIC Engineering Tools

*Micro Memory Card required for operation of CPU.*

This module is designed for

- an ambient temperature range of – 25 to + 70 °C; condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

# SIMATIC S7-300

## SIPLUS central processing units

### SIPLUS CPU 313C-2 DP to CPU 317F-2 DP

#### Overview SIPLUS CPU 315F-2 DP

- For design of a fail-safe automation system for plants with increased safety requirements
- Based on the SIMATIC CPU 315-2 DP
- Complies with safety requirements up to SIL 3 to IEC 61508 and up to Cat. 4 according to EN 954-1
- Distributed fail-safe I/O modules can be connected through the integral PROFIBUS DP interface (PROFIsafe).
- Fail-safe I/O modules of the ET 200M range can also be centrally connected
- Central and distributed use of standard modules for non-safety-relevant applications
- Conformity with standard for electronic devices on rail vehicles (EN 50155, temperature T1, category 1)

*Micro Memory Card required for operation of CPU.*

This module is designed for

- an ambient temperature range of – 25 to + 70 °C; condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

**Technical specifications**

	<b>6ES7 331-7PF01-0AB0</b>	<b>6ES7 331-7PF11-0AB0</b>
<b>Voltages and currents</b>		
Load voltage L+		
- Rated value (DC)	24 V	24 V
- Reverse polarity protection	Yes	Yes
<b>Current consumption</b>		
• from load voltage L+ (no load), max.	240 mA	200 mA
• from backplane bus 5 V DC, max.	100 mA	100 mA
• Power dissipation, typical	4.6 W	3 W
<b>Connection system</b>		
• Requisite front connector	40-pin	40-pin
<b>Clock synchronization</b>		
• Clock synchronous operation	No	No
<b>Analog inputs</b>		
• Number of analog inputs	8	8
• Number of analog inputs for resistance measurement	8	
• Length of cable shielded, max.	200 m	100 m
• Permiss. input voltage for voltage input (destr. limit), max.	75 V; 35 V permanent, 75 V for max. 1 s (cycle factor 1:20)	75 V; 20 V DC continuous; 75 V DC for max. 1s (pulse duty ratio 1:20)
Input ranges (rated values), thermocouples		
- Type B	Yes	
- Type E	Yes	
- Type J	Yes	
- Type K	Yes	
- Type L	Yes	
- Type N	Yes	
- Type R	Yes	
- Type S	Yes	
- Type T	Yes	
- Type U	Yes	

	<b>6ES7 331-7PF01-0AB0</b>	<b>6ES7 331-7PF11-0AB0</b>
Input ranges (rated values), resistances		
- 0 to 150 ohms	Yes	
- 0 to 300 ohms	Yes	
- 0 to 600 ohms	Yes	
Input ranges (rated values), resistance thermometer		
- Cu 10	Yes	
- Ni 100	Yes	
- Ni 1000	Yes	
- Ni 120	Yes	
- Ni 200	Yes	
- Ni 500	Yes	
- Pt 100	Yes	
- Pt 1000	Yes	
- Pt 200	Yes	
- Pt 500	Yes	
Characteristic curve linearization		
- parameterizable	Yes	Yes
- for thermocouples		Type B, E, J, K, L, N, R, S, T, U, C
- for resistance thermometer	Pt 100, Pt 200, Pt 500, Pt 1000, Ni 100, Ni 120, Ni 200, Ni 500, Ni 1000, Cu 10 (standard/ climatic)	
Temperature compensation		
- parameterizable		Yes
- external temperature compensation with compensating box possible		Yes
- external temperature compensation with Pt100		Yes
- internal temperature compensation possible		Yes

<b>Analog value formation</b>				
• Measuring principle	integrating	integrating		
Integration and conversion time/ triggering per channel				
- with over-range (bits incl. sign), max	16 Bit; Two's complement	16 Bit; Two's complement	+/- 0,05 %	
- Integration time parameterizable	Yes	Yes	+/- 0,5 K	
- Basic conversion time, ms	up to 4 channels: 10 ms per module, as of 5 channels: 190 ms per module, 8 channels: 80 ms	up to 4 channels: 10 ms per module, as of 5 channels: 190 ms per module		
- Interference voltage suppr. for interference frequency f1 in Hz	400 / 60 / 50 Hz	400 / 60 / 50 Hz		
<b>Sensor</b>				
Sensing element connection				
- for resistance measurement, with 2-wire connection	Yes; without resistance correction			
- for resistance measurement, with 3-wire connection	Yes			
- for resistance measurement, with 4-wire connection	Yes			
<b>Error/accuracies</b>				
Operational limit in the entire temperature range				
- relative to the input range, voltage		+/- 1 K		
- relative to the input range, resistance	+/- 0,1 %			
- relative to the input range, resistance thermometer	+/- 1 K			
<b>Basic error limit (operational limit at 25 °C)</b>				
- relative to the input range, resistance			+/- 0,05 %	
- relative to the input range, resistance thermometer			+/- 0,5 K	
<b>Status information/ interrupts/diagnostics</b>				
Interrupts				
- Diagnostic interrupt		Yes; parameterizable per group	Yes; parameterizable per group	Yes; parameterizable
- Limit value interrupt		Yes; parameterizable		
Diagnostics				
- Diagnostic information can be read out		Yes	Yes	Yes
<b>Insulation</b>				
• Insulation tested with		500 V DC	500 V DC	
<b>Potentials/ electrical isolation</b>				
Analog output functions				
- between the channels		Yes	Yes	
- between the channels, in groups of		2	2	
- between the channels and the backplane bus		Yes	Yes	
<b>Dimensions and weight</b>				
• Weight, approx.		272 g	272 g	
• Width		40 mm	40 mm	
• Height		125 mm	125 mm	
• Depth		120 mm	120 mm

## Function modules

### SIWAREX FTA

#### Overview

The SIWAREX FTA (Flexible Technology, Automatic Weighing Instrument) is a versatile and flexible weighing module for industrial use. It can be used for automatic and non-automatic weighing, e.g. for the production of mixtures, filling, loading, monitoring and bagging.

It has been assigned appropriate scale approvals and is also suitable for calibration plants.

The SIWAREX FTA function module is integrated in SIMATIC S7/PCS7, and uses the features of this modern automation system, such as integral communication, diagnostics and configuration tools.

#### Technical specifications

SIWAREX FTA	
<b>Use in automation systems</b>	
• S7-300	Directly or via ET 200M
• S7-400 (H)	Via ET 200M
• PCS 7 (H)	Via ET 200M
<b>Communication interfaces</b>	SIMATIC S7, RS 232, RS 485
<b>Module parameterization</b>	Using SIMATIC S7 Using SIWATOOL FTA software (RS 232)
<b>Measuring properties</b>	
• EC type approval as non-automatic weighing machine, trade class III	3 x 6000 d ≥ 0.5 µV/e
• Internal resolution	16 million parts
• Internal/external updating rate	400/100 Hz
<b>Several parameterizable digital filters</b>	Critically damped, Bessel, Butterworth (0.05 ... 20 Hz), mean value filter
<b>Weighing functions</b>	
• Non-automatic weighing machine	OIML R76
• Automatic weighing machine	OIML R51, R61, R107
<b>Load cells</b>	Strain gauges in 4-wire or 6-wire system
Load cells and mounting accessories see catalog WT 01	
• 3 characteristic value ranges	1, 2 or 4 mV/V
<b>Load cell powering</b>	
• Supply voltage $U_S$ (rated value)	10.3 V DC
• Max. supply current	184 mA
• Permissible load cell resistance	
- $R_{Lmin}$	> 56 Ω
- $R_{Lmax}$	> 87 Ω with Ex interface ≤ 4010 Ω
<b>SIWAREX FTA</b>	
<b>Max. distance of load cells</b>	
When using the recommended cable:	
• Standard	1000 m (500 m legal-for-trade)
• In hazardous area <sup>1)</sup>	
- For gases of group IIC	300 m
- For gases of group IIB	1000 m
<b>Connection to load cells in Ex zone 1</b>	Optionally via SIWAREX IS Ex interface
<b>Ex approvals zone 2 and safety</b>	ATEX 100a, FM, UL, cUL <sub>US</sub> Haz. Loc.
<b>Power supply</b>	
• Rated voltage	24 V DC
• Max. current consumption	500 mA
• Current consumption from backplane bus	Typ. 55 mA
<b>Inputs/outputs</b>

**Overview**

The SIWAREX FTC (Flexible Technology for Continuous Weighing) is a versatile and flexible weighing module for conveyor scales. It can also be used to record weights and measure force. The SIWAREX FTC function module is integrated in SIMATIC S7/PCS7, and uses the features of this modern automation system, such as integral communication, diagnostics and configuration tools.

**Technical specifications**

<b>SIWAREX FTC</b>	
<b>Use in automation systems</b>	
• S7-300	Directly or via ET 200M
• S7-400 (H)	Via ET 200M
• PCS 7 (H)	Via ET 200M
<b>Communications interfaces</b>	SIMATIC S7, RS 232, RS 485
<b>Module parameterization</b>	Using SIMATIC S7
	Using SIWATOOL FTC software (RS 232)
<b>Measuring properties</b>	
• EC type approval as non-automatic weighing machine, trade class III	3 x 6000 d ≥ 0.5 µV/e
• Internal resolution	+/- 8 million parts
• Internal/external updating rate	400/100 Hz
<b>Several parameterizable digital filters</b>	Critically damped, Bessel, Butterworth (0.05 ... 20 Hz), mean value filter
<b>Weighing functions</b>	
• Non-automatic weighing machine, force measurement	
• Conveyor scale	
<b>Load cells</b>	Strain gages in 4-wire or 6-wire system
• 3 characteristic value ranges	1, 2 or 4 mV/V
<b>Load cell powering</b>	
• Supply voltage $U_S$ (rated value)	10.3 V DC
• Max. supply current	184 mA
• Permissible load cell resistance	
- $R_{Lmin}$	> 56 Ω
- $R_{Lmax}$	> 87 Ω with Ex interface ≤ 4010 Ω

<b>SIWAREX FTC</b>	
<b>Max. distance of load cells</b>	
When using the recommended cable:	
• Standard	1000 m (500 m legal-for-trade)
• In hazardous area <sup>1)</sup>	
- For gases of group IIC	300 m
- For gases of group IIB	1000 m
<b>Connection to load cells in Ex zone 1</b>	Optionally via SIWAREX IS Ex interface
<b>Ex approvals zone 2 and safety</b>	ATEX 100a, FM, UL, cUL <sub>us</sub> Haz. Loc. (all available soon)
<b>Power supply</b>	
• Rated voltage	24 V DC
• Max. current consumption	500 mA
• Current consumption from backplane bus	Typ. 55 mA
<b>Inputs/outputs</b>	
• Digital inputs	7 DI electrically isolated
• Digital outputs	8 DO electrically isolated
• Counter input	Up to 10 kHz
• Analog output	
- Current range	0/4 to 20 mA
- Updating rate	100 Hz
<b>Approvals</b>	
For NAWI mode	EC type approval, OIML-R76
<b>Degree of protection to DIN EN 60529; IEC 60529</b>	IP20
<b>Climatic requirements</b>

#### Overview

SIWAREX P is a weighing and force measuring system for simple tasks. It can be used for all kinds of industrial measurements. SIWAREX P has the design of the SIMATIC S5-100U programmable controllers and can be used as a stand-alone device or also integrated directly in a SIMATIC S5-90U, -95U or -100U programmable controller.

#### Note:

Bus module available as spare part; see I-button with the accessories ordering data.

#### Technical specifications

SIWAREX P	SIWAREX P
<b>Main applications</b>	<ul style="list-style-type: none"> <li>• Load measurement on cranes</li> <li>• Overload protection</li> <li>• Belt tensioning devices</li> <li>• Platform scales</li> <li>• Fill level (containers/bins)</li> </ul>
<b>Intrinsically-safe load cell powering</b>	Optional (Ex-I)
<b>Stand-alone (without SIMATIC)</b>	Yes
Integration in:	
• S5-90/-95U/-100U	Direct integration
• S5-95U/DP (PROFIBUS master)	Through ET 200U
• S5-115U/-135U/-155U	Through ET 200U
• S7-300	Through ET 200U
• S7-400	Through ET 200U
• M7-300	Through ET 200U
• M7-400	Through ET 200U
• C7	Through ET 200U
<b>Communication interfaces</b>	SIMATIC S5 bus TTY
<b>Process interfaces</b>	
• Digital outputs	2 limits/fault
• Analog output/analog input	Yes / No
<b>Remote display connection</b> (via serial interface)	Yes Gross
<b>Measuring properties</b>	
Error limit according to DIN 1319-1 of full-scale value at 20 °C ± 10 K	0,1 %
Internal resolution	20.000
Data format for weight values	2 byte (fixed-point)
<b>Number of measurements/second</b>	10
<b>Filter</b>	0.0625 - 2 Hz
<b>Weighing functions</b>	
• Weight values	Gross
• Limits	2 (min./max.)
<b>Integral display and operator panel</b>	Yes
<b>Module parameterization</b>	Built-in LCD + Membrane keyboard
IP degree of protection to DIN 60 529; IEC 60 529	IP20
<b>Load cell powering</b>	
• Supply voltage $U_s$ (rated value)	10 V ± 0.5 V DC
• Max. supply current	≤ 160 mA or ≤ 115 mA (Ex area)
• Permissible load resistance: - $R_{Lmin}$	> 60 Ω
- $R_{Lmax}$	< 4010 Ω
	<u>With Ex(i) interface:</u>
- $R_{Lmin}$	> 87 Ω
- $R_{Lmax}$	< 4010 Ω
<b>Permissible load cell characteristic</b>	Up to 3 mV/V
<b>Permissible range of measuring signal (at greatest set characteristic)</b>	0 to 33 mV
<b>Max. distance of load cells</b>	500 m (300 m in Ex area)
<b>Supply voltage 24 V DC</b>	
• Rated voltage	24 V DC
• Max. current consumption	300 mA
<b>Serial port 1</b>	TTY (serial 20 mA):
• Baud rate	9600 baud
• Parity	straight
• No. of data bits/stop bits	8/1
• Signal level	Passive, floating
• Protocols	3964R / RK512 (send only on request)
<b>Binary outputs</b>	Number: 2 (relay) Max. switching voltage: 120 V DC 50 V AC Max. current: 1 A (resistive load)

### SIPLUS DCF 77 radio clock module

#### Overview

The synchronisation of the real-time clock for the automation systems SIMATIC S7-200, S7-300 and S7-400 with the official time of day of the time signal transmitter DCF 77 of the Physikalisch-Technische Bundesanstalt Braunschweig is made by this module.

The time receipt occurs via a DCF transmitter (antenna with solid-state) which is connected to the SIMATIC and SIPLUS PLC via two digital inputs and a software driver included in the scope of supply (function block FB). The function blocks can be downloaded under: <http://www.siemens.com/siplus> - Support - Tools & Downloads!

#### Technical specifications

##### SIPLUS DCF 77 radio clock module

Radio frequency	77,5 Hz
Power supply	24 V DC (20,4 ... 28,8 V DC)
Power consumption, typ.	50 mA
Ambient temperature range	-25 ... +70 °C
Degree of protection	IP 65
Dimensions (W x H x D) in mm	75 x 125 <sup>1)</sup> x 75

1) Additionally 25 mm (0.98 in) for heavy duty threaded joint and bending radius for cables

### SIPLUS CP 341

#### Overview

- For powerful, high-speed serial communication via point-to-point links
- Physical properties RS 422/RS 485 (X.27)
- Implemented protocols: ASCII, 3964 (R), RK 512, customer-specific protocols (reloadable)
- Simple parameterization via a parameterization tool integrated into STEP 7

#### This module is designed for

- an ambient temperature range of – 25 to + 70 °C; condensation permissible
- extraordinary medial load (for example by chloric and sulphuric atmospheres)

#### Technical specifications

<b>6AG1 341-1CH01-2AE0</b>	see 6ES7 341-1CH01-0AE0

communications processor

#### Overview

4

- Connection of SIMATIC S7-300 to Industrial Ethernet
  - 10/100 Mbit/s full/half duplex connection with autosensing
  - Connection for RJ45
  - Multi-protocol operation with TCP and UDP transport protocol
  - Adjustable Keep Alive function
- Communication services:
  - PROFINET IO Controller
  - TCP/IP und UDP transport protocol
  - Programming device/operator panel communication:
    - Cross-network by means of S7 routing
    - S7 communication (client, server, multiplexing)
    - S5-compatible communication
  - Multicast for UDP
  - IP address assignment via DHCP, simple PC tool or via the user program (e.g. HMI)
  - Access protection by means of configurable access list
  - Remote programming and initial startup via the network
  - Automatic setting of the CPU clock via Ethernet with NTP or SIMATIC procedure
  - SNMP MIB2 diagnostics information for network management systems

#### Technical specifications

	CP 343-1
Transmission rate	10/100 Mbit/s autosensing
Interfaces	
• 10BaseT, 100BaseTX	RJ45
• Connection for power supply	2-pin plug-in terminal strip
Power supply	+5 V DC ( $\pm 5\%$ ) and +24 V DC ( $\pm 5\%$ )
Current consumption	
• From backplane bus	200 mA
• From 24 V DC external	typ. 160 mA max. 200 mA
Power loss	5.8 W
Perm. ambient conditions	
• Operating temperature	0 °C to +60 °C
• Transport/storage temperature	-40 °C to +70 °C
• Relative humidity	Max. 95% at +25 °C
Construction	
• Module format	Compact module S7-300, double width
• Dimensions (W x H x D) in mm	80 x 125 x 120
• Weight	Approx. 600 g
Configuring software	STEP 7 V5.3 SP2 and higher
Performance data	
<b>S5-compatible communication</b> (SEND/RECEIVE)	
• Sum of all simultaneously operable TCP/UDP connections	Max. 16
• Useful data	
- TCP	8 KB
- UDP	2 KB

	CP 343-1
<b>S7 communication</b>	
• Number of connections	Max. 16
<b>PG/OP communication</b>	
• Number of operable OP connections (non-isochrone services)	16
<b>Multi-protocol operation</b>	
• Sum of all simultaneously operable connections	Max. 48
<b>Multicast</b>	16
<b>PROFINET communication</b>	
PN IO-Controller	
• Number of operable PN IO-Devices	125
• Size of IO data areas overall	
- I/O input area	2160 byte
- I/O output area	2160 byte
• Size of I/O data areas per connected PN IO-Device	
- I/O input area	Max. 128 byte
- I/O output area	Max. 128 byte

## Central processing units

### CPU 416F-2

#### Overview

- For design of a fail-safe automation system for plants with increased safety requirements
- High-performance CPU in the high-end performance range
- With 2 interfaces (1x DP/MPI, 1x DP)
- Complies with safety requirements up to SIL 3 to IEC 61508 and Cat. 4 according to EN 954-1
- Standard as well as safety-relevant tasks can be solved with just one CPU
- Multi-processor mode is possible
- Safety-related communication with distributed I/O stations over PROFIBUS DP with the PROFIsafe profile
- Distributed fail-safe I/O modules can be connected over the integral PROFIBUS DP interfaces and/or over communications modules (CP443-5 Ext. and CP443-1 Adv.)
- Central and distributed use of standard modules for non-safety-relevant applications

#### Technical specifications

6ES7 416-2FK04-0AB0	
<b>Product version</b>	
• Firmware version	V4.0
• Associated programming package	as of STEP7 V 5.2 SP1 HF3 with HW-Update
<b>Supply voltages</b>	
Rated value - 24 V DC	Yes
<b>Voltages and currents</b>	
• Incoming supply of external backup voltage to the CPU	5 to 15 V DC
<b>Current consumption</b>	
• from backplane bus 5 V DC, max.	1.6 A
• Power dissipation, typical	4.5 W
Back-up battery	
- Backup current, max.	1,539 µA
- Backup current, typical	550 µA
<b>Memory/backup</b>	
Memory	
• Working memory - integrated (for program) - integrated (for data) - expandable	1,400 KByte 1,400 KByte No
• Load memory - expandable FEPROM - expandable FEPROM, max. - integral RAM, max. - expandable RAM - expandable RAM, max	Yes; with Memory Card (FLASH) 64 MByte 256 KByte Yes; with Memory Card (RAM) 64 MByte
Backup	
- available - with battery - without battery	Yes Yes; all data No
<b>CPU/blocks</b>	
DB	
- Number, max. - Size, max.	4,095; DB 0 reserved 64 KByte

6ES7 416-2FK04-0AB0	
FB	
- Number, max.	2,048
- Size, max.	64 KByte
FC	
- Number, max.	2,048
- Size, max.	64 KByte
OB	
- Number, max.	See instruction list
- Size, max.	64 KByte
Nesting depth	
- per priority class	24
- additional levels within an error OB	2
<b>CPU/processing times</b>	
• for bit instruction, min.	0.04 µs
• for word instruction, min.	0.04 µs
• for integer math, min.	0.04 µs
• for floating-point math, min.	0.12 µs
<b>Timers/counters and their retentive characteristics</b>	
S7 counter	
- Number	2,048
• Retentivity	
- adjustable	Yes
- lower limit	0
- upper limit	2,047
- preset	from Z 0 to Z 7
• Counting range	
- lower limit	0
- upper limit	999
IEC counter	
- available	Yes
- Type	SFB

**Technical specifications (continued)**

<b>Configuration</b>		
• connectable OP		
• Central units, max.		
• Expansion units, max.		
• Multi-computing		
IM		
- Number of pluggable IMs (overall), max.	6	
- Number of pluggable IM 460s, max.	6	
- Number of pluggable IM 463s, max.		
Number of DP masters		
- integral		
- via IM 467		
- via CP		
- Mixed mode of IM + CP permitted		
- No. pluggable S5 modules (via adapter casing in centr. unit) max		
Number of FMs and CPs that can be operated (recommendation)		
- FM		limited by the number of slots and by the number of connections
- CP, point-to-point		CP 440: limited by the number of slots
- CP, LAN		CP 441: limited by the number of connections
- PROFIBUS and Ethernet CPs		limited by the number of connections
Time		14; incl. CP 443-5 Ext. and IM 467
Clock		
- Hardware clock (realtime clock)		
- buffered		
- Triggering		
Run-time meter		
- Quantity	8	
Time synchronization		
- supported		Yes
- on MPI, master		Yes
- on MPI, slave		Yes
- on DP, master		Yes
- on DP, slave		Yes
- in AS, master		Yes
- in AS, slave		Yes
S7 message functions		
• Number of stations that can log on for message functions, max.		12
• Symbol-related messages		Yes
Number of messages		
- total, max.	1,024	
• Block-related messages		
• Alarm 8 blocks		
• Statuses		
<b>Test and startup functions</b>		
Status/modify		
- Variable		Yes

### SIPLUS DCF 77 radio clock module

#### Overview

The synchronisation of the real-time clock for the automation systems SIMATIC S7-200, S7-300 and S7-400 with the official time of day of the time signal transmitter DCF 77 of the Physikalisch-Technische Bundesanstalt Braunschweig is made by this module.

The time receipt occurs via a DCF transmitter (antenna with solid-state) which is connected to the SIMATIC and SIPLUS PLC via two digital inputs and a software driver included in the scope of supply (function block FB). The function blocks can be downloaded under: <http://www.siemens.com/siplus> - Support - Tools & Downloads!

#### Technical specifications

##### SIPLUS DCF 77 radio clock module

Radio frequency	77,5 Hz
Power supply	24 V DC (20,4 ... 28,8 V DC)
Power consumption, typ.	50 mA
Ambient temperature range	-25 ... +70 °C
Degree of protection	IP 65
Dimensions (W x H x D) in mm	75 x 125 <sup>1)</sup> x 75

1) Additionally 25 mm (0.98 in) for heavy duty threaded joint and bending radius for cables

#### Ordering data

##### SIPLUS DCF 77 radio clock module<sup>A)</sup>

6AG1 057-1AA03-0AA0

For synchronisation of SIMATIC S7-200, S7-300 and S7-400 with the official time of day of the time signal transmitter DCF 77 of the Physikalisch-Technische Bundesanstalt Braunschweig

A) Subject to export regulations: AL: N and ECCN: EAR99H

#### Overview

- Master connection of the S7-400 to PROFIBUS
- Communication services:
  - PG/OP communication
  - S7 communication
  - S5-compatible communication (SEND/RECEIVE)
  - PROFIBUS FMS
- Time synchronization
- Easy programming and configuration over PROFIBUS
- Cross-network programming device communication through S7 routing
- Can be easily integrated into the SIMATIC S7-400 system
- Modules can be replaced without the need for a PG
- SIMATIC H system operation for redundant S7 communication

#### Technical specifications

Data transmission rate	9.6 kbit/s to 12 Mbit/s
Interface	
• Connection to PROFIBUS	9-pin Sub-D socket (RS 485)
Power supply	5 V DC ± 5%
Current input from 5 V DC	1.2 A
Power loss	6.5 W
Perm. ambient conditions	
• Operating temperature	0 °C to +60 °C
• Transport/storage temperature	-40 °C to +70 °C
• Relative humidity	Max. 95% at +25°C
Construction	
• Dimensions (WxHxD) in mm	25 x 290 x 210
• Weight	Approx. 700 g
<b>Performance data for S7 communication</b>	
• Number of connections that can be used	16 to 48 <sup>1)</sup>

<b>Performance data for S5-compatible communication (SEND/RECEIVE)</b>	
• Number of connections that can be used	Max. 32
• Useful data / connection	max. 240 byte (SEND and RECEIVE)
<b>Performance data for FMS function</b>	
• Number of connections that can be used	Max. 48
• Variable length READ	Max. 237 byte
• Variable length WRITE	Max. 233 byte
• Configurable server variables	512
• Variables that can be loaded from partners	2640
<b>Multi-protocol operation</b>	
• Number of connections that can be used (2 of which are reserved for PG/OP communication)	Max. 59

# SIMATIC S7-400

## Communication

### CP 443-5 Extended

#### Overview

#### Technical specifications

Data transmission rate	9.6 kbit/s to 12 Mbit/s
Interfaces	
• Ports	9-pin Sub-D socket (RS 485)
Power supply	5 V DC ± 5% 24 V DC ±5%
Current input from 5 V DC	1.3 A
Power loss	6.5 W
Perm. ambient conditions	
• Operating temperature	0 °C to +60 °C
• Transport/storage temperature	-40 °C to +70 °C
• Relative humidity	Max. 95% at +25°C
Construction	
• Dimensions (WxHxD) in mm	25 x 290 x 210
• Weight	Approx. 700 g
Number of external DP-lines in one central rack	10

#### Performance data for DP master function

• DP master	DP-V1
• Number of operable DP slaves	Max. 125
• Size of DP data areas overall	
- DP input area	Max. 4 KB
- DP output range	Max. 4 KB
• Size of DP data areas per connected DP slave	
- DP input area	Max. 244 byte
- DP output range	Max. 244 byte

1) Dependent on CPU type

- DP-V1 master connection of the S7-400 on PROFIBUS
- For setting up additional PROFIBUS DP lines
- Communication services:
  - PROFIBUS DP
  - PG/OP communication
  - S7 communication
  - S5-compatible communication (SEND/RECEIVE)
- Time synchronization
- Easy programming and configuration over PROFIBUS
- Cross-network programming device communication through S7 routing
- Can be easily integrated into the SIMATIC S7-400 system
- Module replacement without PG
- SIMATIC H system operation for redundant S7 communication or DP master communication
- Data record routing (PROFIBUS DP)
- Adding or modifying distributed I/O during operation

#### Performance data for S7 communication

- Number of connections that can be used

16 to 48<sup>1)</sup>

#### Performance data for S5-compatible communication (SEND/RECEIVE)

- Number of connections that can be used

Max. 32

- Useful data / connection

max. 240 byte  
(SEND and RECEIVE)

#### Multi-protocol operation

- Number of connections that can be used (2 of which are reserved for PG/OP communication)

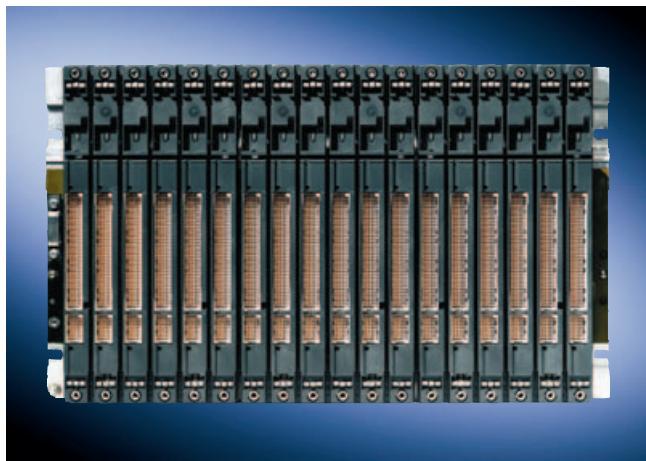

Max. 59

- Without DP
- With DP

Max. 55

Ordering data	Order No.	Order No.

F) Subject to export regulations: AL: N and ECCN: 5A991

- The basic mechanical framework of the SIMATIC S7-400/ S7-400H
- For accommodating the modules, supplying them with operating voltage and connecting them via the backplane bus
- Several versions for configuring central controllers and expansion racks

#### **UR1 (universal rack)**

- For configuring central controllers and expansion units
- For up to 18 modules
- Also suitable for S7-400H

#### **UR2 (universal rack)**

- For configuring central controllers and expansion units
- For up to 9 modules
- Also suitable for S7-400H
- Also available in aluminum

#### **CR2 (central rack)**

- For configuring central controllers
- For up to 18 modules
- Segmented racks:  
For operating two independent S7-400 CPUs without S7-400 Multicomputing, but with communication between the CPUs via the backplane bus (C bus). Both CPUs can address local, separate I/O modules (segmented P bus).

#### **CR3 (central rack)**

- For configuring central controllers
- Optimized for decentralized automation tasks thanks to support of up to 4 modules

#### **UR2-H**

- For setting up a complete S7-400H system in a single mounting rack
- Also suitable for S7-400H:  
Operation of 2 separate CPUs with their own I/O (own P and C bus)
- Can also be used as expansion unit
- For up to 18 modules
- Also available in aluminum

#### **ER1 (expansion rack)**

- For cost-effective configuration of expansion units
- For up to 18 modules with restricted functionality
- Also suitable for S7-400H

#### **ER2 (expansion rack)**

- For cost-effective configuration of expansion units
- For up to 9 modules with restricted functionality
- Also suitable for S7-400H

# SIMATIC S7-400

## Power supplies

### Power supplies PS 405/PS 407

#### Overview

- Power supplies for the SIMATIC S7-400
- For conversion of AC or DC network voltages into the required 5 V and 24 V DC operating voltages
- Output current 4 A, 10 A and 20 A

5

#### Technical specifications

	6ES7 405-0DA01-0AA0	6ES7 405-0KA02-0AA0	6ES7 405-0KR00-0AA0	6ES7 405-0RA01-0AA0
<b>Power supply</b>				
• Line supply/voltage failure buffering	4.5 ms	20 ms	20 ms	20 ms
• Line supply/voltage failure buffering to comply with the NAMUR	No	Yes	Yes	Yes
Input voltage				
- Rated value, 24 V DC	Yes	Yes	Yes	Yes
- Rated value, 48 V DC		Yes	Yes	Yes
- Rated value, 60 V DC		Yes	Yes	Yes
- permissible range, lower limit (DC)	static 19.2 V dynamic 18.5 V		static 19.2 V dynamic 18.5 V	static 19.2 V dynamic 18.5 V
- permissible range, upper limit (DC)	static 30 V dynamic 30.2 V		static: 72 V dynamic 75.5 V	static: 72 V dynamic 75.5 V
Input current				
- Rated value at 24 V DC	2 A	4 A	4.5 A	7.3 A
- Rated value at 48 V DC		2 A	2.1 A	3.45 A
- Rated value at 60 V DC		1.6 A	1.7 A	2.75 A
- Inrush current, max.	27 A	18 A	18 A	56 A
Output voltage				
- Rated value, 5 V DC	Yes	Yes	Yes	Yes
- Rated value, 24 V DC	Yes	Yes	Yes	Yes
Output current				
- for backplane bus (5 V DC), max.	4 A	10 A	10 A	20 A
- for backplane bus (24 V DC), max.	0.5 A	1 A	1 A	1 A
- Short-circuit protection	Yes	Yes	Yes	Yes
<b>Voltages and currents</b>				
• Power consumption, typical	48 W	95 W	104 W	175 W
<b>Current consumption</b>				
• Power dissipation, typical	16 W	20 W	29 W	51 W
Back-up battery				
- Backup battery (optional)	Yes	Yes	Yes	Yes
<b>Connection system</b>				
• Connecting cables/ cross-sections	3 x 1.5 mm <sup>2</sup> , solid or stranded wire, outer diameter 3 to 9 mm	3 x 1.5 mm <sup>2</sup> , solid or stranded wire, outer diameter 3 to 9 mm	3 x 1.5 mm <sup>2</sup> , solid or stranded wire, outer diameter 3 to 9 mm	3 x 1.5 mm <sup>2</sup> , solid or stranded wire, outer diameter 3 to 9 mm

## SIMATIC C7

6/2  
6/2  
6/7

**Control systems**  
C7-613  
C7-636 Touch

#### Overview

- The low-cost entry point in the world of SIMATIC C7 control systems
- For all applications which require fast PLC performance and easy to use human-machine interface functionality
- With user-friendly, onboard I/O for space-saving implementation at the machine level
- Integrated technology functions for counting, frequency measurement and closed-loop control

*A micro memory card and connector set are required for C7 operation.*

#### Technical specifications

	6ES7 613-1CA01-0AE3
<b>Supply voltages</b>	
Rated value	
- 24 V DC	Yes
- permissible range, lower limit (DC)	20.4 V
- permissible range, upper limit (DC)	28.8 V
<b>Current consumption</b>	
• Inrush current, max.	2 A
• Current consumption, typical	350 mA
Digital outputs	
• Power dissipation, typical	11 W
<b>Memory/backup</b>	
Memory	
- Micro memory card	Yes
• Working memory	
- integral	32 KByte; for program and data, less the display data
- expandable	No
• Load memory	
- pluggable (MMC)	Yes
- pluggable (MMC), max.	8 MByte
- expandable FEPROM	with Micro Memory Card (MMC)
Backup	
- available	Yes
- without battery	Yes
<b>CPU/blocks</b>	
DB	
- Number, max.	127
- Size, max.	16 KByte
FB	
- Number, max.	128
- Size, max.	16 KByte
FC	
- Number, max.	128
- Size, max.	16 KByte

	6ES7 613-1CA01-0AE3
OB	
- Size, max.	16 KByte
Nesting depth	
- per priority class	6
- additional levels within an error OB	4
<b>CPU/processing times</b>	
• for bit instruction, min.	0.1 µs
• for bit instruction, max.	0.2 µs
• for word instruction, min.	0.2 µs
• for integer math, min.	2 µs
• for floating-point math, min.	3 µs
<b>Timers/counters and their retentive characteristics</b>	
S7 counter	
- Number	256
• of which retentive without battery	
- adjustable	Yes
- lower limit	0
- upper limit	256
• Counting range	
- lower limit	0
- upper limit	999
IEC counter	
- available	Yes
- Type	SFB
S7 times	
- Number	256
• of which retentive without battery	
- adjustable	Yes
- lower limit	0
- upper limit	256
• Timing range	
- lower limit	10 ms
- upper limit	9,990 s
IEC timer	
- available	Yes
- Type	SFB

**Technical specifications (continued)**

<b>6ES7 613-1CA01-0AE3</b>		<b>6ES7 613-1CA01-0AE3</b>
<b>Data areas and their retentive characteristics</b>		
Flags		
- Number	256 Byte	
- adjustable retentivity	Yes	
<b>Address area</b>		
I/O address area		
- Inputs	1 KByte	
- Outputs	1 KByte	
Process image		
- Inputs	128 Byte	
- Outputs	128 Byte	
Digital channels		
- Inputs	992	
- Outputs	992	
Analog channels		
- Inputs	248	
- Outputs	124	
<b>Configuration</b>		
• Number of modules per system, max.	4	
Number of DP masters		
- integral	0	
- via CP	1	
Number of FMs and CPs that can be operated (recommendation)		
- FM	8	
- CP, point-to-point	4	
- CP, LAN	2	
Expansion modules		
- Number of expansion modules, max.	4; Max. 2 flat alignment, max. 4 deep alignment	
<b>Time</b>		
Clock		
- Hardware clock (realtime clock)	Yes	
- buffered	Yes	
Run-time meter		
- Quantity	1	
Time synchronization		
- supported	Yes	
<b>S7 message functions</b>		
• Number of stations that can log on for message functions, max.	5	
<b>Communication functions</b>		
• Number of logical connections (including the network), max.	1	
• PG/OP communication	Yes	
Global data communication		
- Number of send GD packets, max.	4	
- Number of receive GD packets, max.	4	
- Size of GD packets, max.	22 Byte	
S7 basic communication		
- supported	Yes	
- User data per job	76 Byte	
S7 communication		
- supported	Yes	
- User data per job, max.	64 KByte	
Number of connections		
- overall	8	
- reserved for PG communication	1	
- customizable for PG communication, max.	7	
- reserved for OP communication	1	
- customizable for OP communication, max.	7	
- reserved for S7 basic communication	4	
- customizable for S7 basic communication, max.	4	
<b>1st interface</b>		
• Isolated	No	
Functionality		
- MPI	Yes	
- DP master	No	
- DP slave	No	
MPI		
- Number of connections	8	
• Services		
- PG/OP communication	Yes	
- Global data communication	Yes	
- S7 basic communication	Yes	
- S7 communication	Yes	
- S7 communication, as client	No	
- S7 communication, as server	Yes	
- Transmission rates, max.	187.5 kBit/s	
<b>CPU/programming</b>		
Programming language		
- KOP	Yes	
- FUP	Yes	
- AWL	Yes	
- SCL	Yes	
- CFC	Yes	
- GRAPH	Yes	
- HiGraph	Yes	
Software library		
• Bracket levels	8	
• User program protection/ password protection	Yes

	<b>6ES7 613-1CA01-0AE3</b>	<b>6ES7 613-1CA01-0AE3</b>
<b>Digital inputs</b>		
• Number of digital inputs	24	
Length of cable		
- Length of cable shielded, max.	1,000 m	
- Length of cable unshielded, max.	600 m	
Input voltage		
- Rated value, DC	24 V	
- for signal "0"	-3 to 5 V	
- for signal "1"	15 to 30 V	
Input current		
- for 1 signal, typical	8 mA	
Input delay (at rated value of the input voltage)		
• For standard inputs		
- Parameterizable	Yes	
• for counters/technological functions		
- at 0 to 1, max.	16 µs	
<b>Digital outputs</b>		
• Number of digital outputs	16	
• Length of cable shielded, max.	1,000 m	
• Length of cable unshielded, max.	600 m	
• Short-circuit protection of the output	Yes; clocking electronically	
• Limitation of voltage induced on circuit interruption to	L+ (-48 V)	
Output voltage		
- for 1 signal	L+ (-0.8 V)	
Output current		
- for 1 signal permissible range for 0 to 40 °C, max.	0.5 A	
- for 1 signal permissible range for 40 to 60 °C, max.	0.5 A	
- for 1 signal minimum load current	5 mA	
- for 0 signal residual current, max.	0.5 mA	
Switching frequency		
- at resistive load, max.	100 Hz	
- at inductive load, max.	0.5 Hz	
Summation current of the outputs (per group)		
• horizontal mounting positions		
- up to 40 °C, max.	4,000 mA	
- up to 60 °C, max.	2,000 mA	
<b>Analog inputs</b>		
• Number of analog inputs	4	
• Number of analog inputs for voltage/current measurement	4	
• Number of analog inputs for resistance/temperature measurement)	1	
Input ranges (rated values), voltages		
- 0 to +10 V	Yes	
- -10 V to +10 V	Yes	
Input ranges (rated values), currents		
- 0 to 20 mA	Yes	
- -20 to +20 mA	Yes	
- 4 to 20 mA	Yes	
Input ranges (rated values), resistances		
- 0 to 600 ohms	Yes	
Input ranges (rated values), resistance thermometer		
- Pt 100	Yes	
<b>Analog outputs</b>		
• Number of analog outputs	2	
Output ranges, voltage		
- 0 to 10 V	Yes	
- -10 to +10 V	Yes	
Output ranges, current		
- 0 to 20 mA	Yes	
- -20 to +20 mA	Yes	
- 4 to 20 mA	Yes	
<b>Analog value formation</b>		
Integration and conversion time/triggering per channel		
- with over-range (bits incl. sign), max	12 Bit	
- Integration time parameterizable	Yes; 2.5 / 16.6 / 20 ms	
- Conversion time (per channel)	1 ms	
<b>Sensor</b>		
Connectable encoders		
- 2-wire BEROS	Yes	
- permissible closed-circuit current (2-wire BEROS), max.	1.5 mA	
<b>Error/accuracies</b>		
Basic error limit (operational limit at 25 °C)		
- relative to the output range, voltage	+/- 0.7 %	
- relative to the output range, current	+/- 0.7 %	
- relative to the input range, voltage	+/- 0.7 %	
- relative to the input range, current	+/- 0.7 %	
- relative to the input range, resistance	+/- 3 %	
- relative to the input range, resistance thermometer	+/- 3 %	
<b>Integral functions</b>		
• Number of counters	3	
• Count frequency (counters) max.	30 kHz	
• Frequency measurement	Yes	
• PID controller	Yes	
• Number of pulse outputs	3	
• Cut-off frequency (pulse)	2.5 kHz	

**Technical specifications (continued)**

	<b>6ES7 613-1CA01-0AE3</b>	<b>6ES7 613-1CA01-0AE3</b>
<b>Operator control and monitoring</b>		
• Graphic objects	Yes	
• Info texts	Yes	
• Messages	Yes	
• Number of process pictures	128	
• Number of variables per picture, max.	8	
• Password protection	Yes	
Keyboard		
- Number of operating cycle keys	1,000,000	
- Number of function keys	10	
- Number of softkey keys	4	
Display		
- Type	LCD backlit	
- Number of lines	4	
- Number of characters per line	20	
- Background lighting MTBF (at 20°C)	100,000 h	
<b>Potentials/ electrical isolation</b>		
Analog output functions		
- Electrical isolation, analog output functions	Yes	
Analog output functions		
- Electrical isolation, analog inputs	Yes	
Digital output functions		
- between the channels	Yes	
- between the channels, in groups of	8	
Digital input functions		
- between the channels	Yes	
- between the channels, in groups of	8; 16 and 8	
<b>Environmental requirements</b>		
• Environmental conditions	Not suitable for outdoor use	
Operating temperature		
- 45 degree mounting, min.	0 °C	
- 45 degree mounting, max.	45 °C	
- vertical mounting, min.	0 °C	
- vertical mounting, max.	50 °C	
- horizontal mounting, min.	0 °C	
- horizontal mounting, max.	40 °C	
Air pressure		
- permissible range, min	795 hPa	
- permissible range, max	1,080 hPa	
Relative humidity		
- Operation, min.	5%	
- Operation, max.	95%	
Degree of protection and class of protection		
- IP 20	Yes	
- IP 65	Yes	
<b>Dimensions and weight</b>		
• Width	215 mm	
• Height	165 mm	
• Depth	79 mm	
• Installation cutout, width	202 mm	
• Installation cutout, height	152 mm	
• Weight, approx.	1,350 g	
<b>Online languages</b>		
• Number	3	

# SIMATIC C7

## Control systems

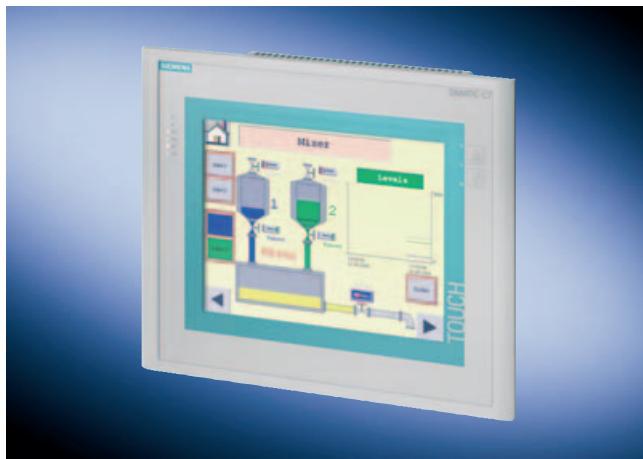

### C7-613

6

Ordering data	Order No.	Order No.
<b>C7-613 compact control unit</b> 32 KB working memory (PLC), 24 DI, 16 DO, 5 AI, 2 AO, integrated; backlit LC display (4-line, 20 chars/line; with mounting accessories	<b>6ES7 613-1CA01-0AE3</b>	
<b>Micro Memory Card</b> Essential for operation		
64 KB	<b>6ES7 953-8LF11-0AA0</b>

Spanish	<b>6ES7 613-1CA00-8DB0</b>	
Italian	<b>6ES7 613-1CA00-8EB0</b>	
<b>Accessories</b>		
<b>SIMATIC C7 Simulator</b>		<b>6ES7 620-0AA00-4AA0</b>
With integral 16 DI and 16 DO; with switches and LEDs for simulating 16 DIs and 16 DOs		
<b>I/O set</b>		
For expanding the C7-613/ C7-635/C7-636 with max. 4 modules; mounted at rear of device		
For 2 modules, installed flat		<b>6ES7 635-0AA00-6AA0</b>
For 4 modules, installed vertically		<b>6ES7 635-0AA00-6BA0</b>
<b>I/O expansion cable</b>		<b>6ES7 635-0AA00-6CA0</b>
For external expansion of the SIMATIC C7-613/C7-635/C7-636 with max. 4 modules; length 1,5 m		
<b>SIMATIC Manual Collection<sup>E)</sup></b>		<b>6ES7 998-8XC01-8YE0</b>
Electronic manuals on CD-ROM, multiple languages		
<b>SIMATIC Manual Collection update service for 1 year<sup>E)</sup></b>		<b>6ES7 998-8XC01-8YE2</b>
Up-to-date S7 Manual Collection CD as well as the three subsequent updates		
<b>Spare parts</b>		
<b>Service package</b>		<b>6ES7 635-0AA00-3AA0</b>
3 seals, 10 brackets, for all SIMATIC C7-613, C7-635 and C7-636		
<b>Ground rail</b>		<b>6ES7 635-0AA00-6EA0</b>
With shield terminals for analog I/O		

E) Subject to export regulations: AL: N and ECCN: 5D992B1

## Overview

- Compact units for comprehensive applications
- The CPU with medium to large program memory and quantity framework for the use, if required, of SIMATIC Engineering Tools
- High processing performance in binary and floating-point arithmetic
- C7-636 Touch: Pixel graphics 10" STN display, color (256 colors) with context-sensitive touch capability
- With integral I/O for use at machine level
- With integral PROFIBUS DP connection for distributed structures
- Graphical and color visualization and operator support for particularly user-friendly use

*For operation of the C7, a micro memory card and connector set are necessary.*

## Technical specifications

	6ES7 636-2EB00-0AE3
<b>Supply voltages</b>	
Rated value	
- 24 V DC	Yes
- permissible range, lower limit (DC)	20.4 V
- permissible range, upper limit (DC)	28.8 V
<b>Current consumption</b>	
• Inrush current, max.	3 A
• Current consumption, max.	1.5 A
• Current consumption, typical	650 mA
Digital input	
- from load voltage L+ (without load), max.	70 mA
Digital outputs	
- from load voltage L+, max.	20 mA
• Power dissipation, typical	24 W
Back-up battery	
- Backup battery (optional)	Yes
<b>Memory/backup</b>	
Memory	
- Micro memory card	Yes
• Working memory	
- integral	128 KByte
- expandable	No
• Load memory	
- pluggable (MMC)	Yes
- pluggable (MMC), max.	8 MByte
• User memory	
- integral	2 MByte

	6ES7 636-2EB00-0AE3
Backup	
- available	Yes
- with battery	Yes
- without battery	Yes
<b>CPU/blocks</b>	
DB	
- Number, max.	1,023
- Size, max.	16 KByte
FB	
- Number, max.	2,048
- Size, max.	16 KByte
FC	
- Number, max.	2,048
- Size, max.	16 KByte
OB	
- Size, max.	16 KByte
Nesting depth	
- per priority class	8
- additional levels within an error OB	4
<b>CPU/processing times</b>	
• for bit instruction, min.	0.1 µs
• for word instruction, min.	0.2 µs
• for integer math, min.	2 µs
• for floating-point math, min.	3 µs

#### Technical specifications (continued)

	<b>6ES7 636-2EB00-0AE3</b>	<b>6ES7 636-2EB00-0AE3</b>
<b>Timers/counters and their retentive characteristics</b>		
S7 counter		
- Number	256	
• of which retentive without battery		
- adjustable	Yes	128 Byte
- lower limit	0	128 Byte
- upper limit	256	
• Retentivity		
- adjustable	Yes	24
- preset	Z 0 to Z 7	16
• Counting range		
- lower limit	0	16,384
- upper limit	999	16,384
IEC counter		
- available	Yes	- Inputs, of which central 992
- Type	SFB	- Outputs, of which central 992
S7 times		
- Number	256	
• of which retentive without battery		
- adjustable	Yes	4
- lower limit	0	2
- upper limit	256	- Inputs 1,024
• Retentivity		- Outputs 1,024
- adjustable	Yes	- Inputs, of which central 248
- preset	No retention	- Outputs, of which central 248
• Timing range		
- lower limit	10 ms	
- upper limit	9,990 s	
IEC timer		
- available	Yes	
- Type	SFB	
<b>Data areas and their retentive characteristics</b>		
Flags		
- Number	2,048 Byte	
- adjustable retentivity	Yes	
- preset retentivity	MB 0 to MB 15	
- Number of clock memories	8	
Data blocks		
- Number, max.	1,023	
- Size, max.	16 KByte	
Local data		
- per priority class, max.	1,024 Byte	
<b>Address area</b>		
I/O address area		
- Inputs	2 KByte	
- Outputs	2 KByte	
Process image		
- Inputs	128 Byte	
- Outputs	128 Byte	
Digital channels		
- integrated channels (DI)	24	
- integrated channels (DO)	16	
- Inputs	16,384	
- Outputs	16,384	
- Inputs, of which central	992	
- Outputs, of which central	992	
Analog channels		
- integrated channels (AI)	4	
- integrated channels (AO)	2	
- Inputs	1,024	
- Outputs	1,024	
- Inputs, of which central	248	
- Outputs, of which central	248	
<b>Configuration</b>		
• Number of modules per system, max.	23	
• Racks, max.	4	
• Modules per rack, max.	8	
• Number of rows, max.	4	
Number of DP masters		
- integral	1	
- via CP	1	
Number of FMs and CPs that can be operated (recommendation)		
- FM	8	
- CP, point-to-point	8	
- CP, LAN	10	
Expansion modules		
- Number of expansion modules, max.	4	
<b>Time</b>		
Clock		
- Hardware clock (realtime clock)	Yes	
- buffered	Yes	
- Backup duration	6 w	
- Deviation per day, max	10 s	
Run-time meter		
- Quantity	1	
- Granularity		
- retentive	Yes	
Time synchronization		
- supported	Yes	
- on MPI, master	Yes	
- on MPI, slave	Yes	
- in AS, master	Yes	

**Technical specifications (continued)**

<b>6ES7 636-2EB00-0AE3</b>	
<b>S7 message functions</b>	
• Number of stations that can log on for message functions, max.	16
• Process diagnostic messages	Yes
• simultaneously active Alarm-S blocks, max.	40
<b>Test and startup functions</b>	
Status/modify	
- Variable	Yes
- Variables	Inputs, outputs, flags, DB, timers, counters
- Number of variables, max.	30
- of which status variables, max.	30
- of which modify variables, max.	14
Forcing	
- Forcing	Yes
- Forcing, variables	Inputs, outputs
- Forcing, number of variables, max.	10
• Status block	Yes
• Single step	Yes
• Number of breakpoints	2
<b>Diagnostic buffer</b>	
- available	Yes
- Number of inputs, max.	100
- adjustable	No
<b>Communication functions</b>	
• PG/OP communication	Yes
<b>Global data communication</b>	
- supported	Yes
- Number of GD packets, max.	8
- Number of send GD packets, max.	8
- Number of receive GD packets, max.	8
- Size of GD packets, max.	22 Byte
- Size of GD packets (of which consistent), max.	22 Byte
<b>S7 basic communication</b>	
- supported	Yes
- User data per job	76 Byte
- User data per job (of which consistent), max.	76 Byte
<b>S7 communication</b>	
- supported	Yes
- as server	Yes
- as client	Yes
- User data per job, max.	180 Byte
- User data per job (of which consistent), max.	64 Byte
<b>S5 compatible communication</b>	
- supported	Yes
<b>Standard communication</b>	
- Supported	No

<b>6ES7 636-2EB00-0AE3</b>	
Number of connections	
- overall	16
- usable for PG communication	15
- reserved for PG communication	1
- Customizable for PG communication, min.	1
- customizable for PG communication, max.	15
- usable for OP communication	15
- reserved for OP communication	1
- Customizable for OP communication, min.	1
- customizable for OP communication, max.	15
- usable for S7 basic communication	12
- reserved for S7 basic communication	12
- Customizable for S7 basic communication, min.	0
- customizable for S7 basic communication, max.	12
<b>Interfaces</b>	
• Number of printer interfaces	1
<b>1st interface</b>	
• Type of interface	integrated RS 485 interface
• Physical	RS 485
• Isolated	No
• Power supply to interface (15 to 30 V DC), max.	200 mA
<b>Functionality</b>	
- MPI	Yes
- DP master	No
- DP slave	No
<b>MPI</b>	
- Number of connections	16
<b>Services</b>	
- PG/OP communication	Yes
- Routing	Yes
- Global data communication	Yes
- S7 basic communication	Yes
- S7 communication	Yes
- S7 communication, as client	Yes
- S7 communication, as server	Yes
- Transmission rates, max.	187.5 kBit/s
<b>2nd interface</b>	
• Type of interface	integrated RS 485 interface
• Physical	RS 485
• Isolated	Yes
• Power supply to interface (15 to 30 V DC), max.	200 mA
• Number of connection resources	16

#### Technical specifications (continued)

	<b>6ES7 636-2EB00-0AE3</b>	<b>6ES7 636-2EB00-0AE3</b>
Functionality		
- MPI	No	
- DP master	Yes	
- DP slave	Yes	
DP master		
- Number of connections, max.	16	
- Number of connections (of which reserved), max.	1 for PG, 1 for OP	
• Services		
- PG/OP communication	Yes	
- Routing	Yes	
- Global data communication	No	
- S7 basic communication	No	
- S7 communication	No	
- S7 communication, as client	No	
- S7 communication, as server	No	
- Equidistance support	Yes	
- SYNC/FREEZE	Yes	
- Activate/deactivate DP slaves	Yes	
- Direct data exchange (lateral communication)	Yes	
- Transmission rates, max.	12 Mbit/s	
- Number of DP slaves, max.	125	
• Address area		
- Inputs, max.	244 Byte	
- Outputs, max.	244 Byte	
DP slave		
- Number of connections	16	
• Services		
- PG/OP communication	Yes	
- Routing	Yes	
- Global data communication	No	
- S7 basic communication	No	
- S7 communication	No	
- Direct data exchange (lateral communication)	Yes	
- DPV1	Yes	
- Transmission rates, max.	12 Mbit/s	
• Intermediate memory		
- Inputs	244 Byte	
- Outputs	244 Byte	
- Address areas, max.	32	
- User data per address area, max.	32 Byte	
<b>CPU/ programming</b>		
Configuration software		
- STEP 7	Yes	
- ProTool	Yes	
- ProTool/Lite	Yes	
- ProTool/Pro	Yes	
Programming language		
- KOP	Yes	
- FUP	Yes	
- AWL	Yes	
- SCL	Yes	
- CFC	Yes	
- GRAPH	Yes	
- HiGraph	Yes	
Software library		
• Bracket levels	8	
• User program protection/ password protection	Yes	
<b>Integrated inputs/outputs</b>		
Default addresses of the integral		
- Digital input	124.0 to 126.7	
- Digital outputs	124.0 to 125.7	
- Analog inputs	752	
- Analog outputs	761	
<b>Digital inputs</b>		
• Number of digital inputs	24	
- which can be used as inputs for technological functions	16	
Number of inputs that can be driven in parallel		
• vertical mounting positions		
- up to 40°C	18	
• horizontal mounting positions		
- up to 40°C	12	
Length of cable		
- Length of cable shielded, max	1,000 m	
- Length of cable unshielded, max	600 m	
• Technological function		
- shielded, max.	50 m	
• Standard DI		
- shielded, max.	1,000 m	
- unshielded, max.	600 m	
• Input characteristic to comply with IEC 1131, Type 1	Yes	
<b>Input voltage</b>		
- Rated value, DC	24 V	
- for signal "1"	15 to 30 V	
<b>Input current</b>		
- for 1 signal, typical	7 mA	

**Technical specifications (continued)**

	<b>6ES7 636-2EB00-0AE3</b>		<b>6ES7 636-2EB00-0AE3</b>
Input delay (at rated value of the input voltage)		Load impedance range	
• For standard inputs		- lower limit	48 Ω
- Parameterizable	Yes	- upper limit	4 kΩ
- Rated value	3 ms		
• for counters/technological functions		<b>Analog inputs</b>	
- at 0 to 1, max.	8 µs	• Number of analog inputs	4
<b>Digital outputs</b>		• Number of analog inputs for voltage/current measurement	4
• Number of digital outputs	16	• Number of analog inputs for resistance/temperature measurement)	1
- of which fast outputs	4	• Length of cable shielded, max	100 m
• Length of cable shielded, max.	1,000 m	• Permiss. input voltage for voltage input (destr. limit), max.	30 V
• Length of cable unshielded, max.	600 m	• Permissible input voltage for the current input (destruction limit), max.	2.5 V
• Short-circuit protection of the output	Yes	• Perm. input voltage for the voltage input (destr. limit), max.	0.5 mA
- Response threshold, type.	1 A	• Perm. input volt. for the current input (destr. lim.), max.	50 mA
• Lamp load, max.	5 W	• Technical unit for temperature measurement, adjustable	Yes
• Driving a digital input	Yes		
Output voltage		Input ranges (rated values), voltages	
- for 1 signal	L+ (-0.8 V)	- 0 to +10 V	Yes
Output current		- -10 V to +10 V	Yes
- for 1 signal rated value	0.5 A		
- permissible range for signal "1", min.	5 mA	Input ranges (rated values), currents	
- permissible range for signal "1", max.	0.6 A	- 0 to 20 mA	Yes
- for 1 signal permissible range for 0 to 40 °C, max.	0.5 A	- -20 to +20 mA	Yes
- for 1 signal permissible range for 40 to 60 °C, max.	0.5 A	- 4 to 20 mA	Yes
- for 1 signal minimum load current	5 mA		
- for 0 signal residual current, max.	0.5 mA	Input ranges (rated values), resistances	
Parallel switching of 2 outputs		- Open-circuit voltage (DC), type	2.5 V
- to increase power	No	- Current measurement, type.	1.8 mA to 3.3 mA
- to redundantly drive a load	Yes	- 0 to 600 ohms	Yes
Switching frequency			
- at resistive load, max.	100 Hz	Input ranges (rated values), resistance thermometer	
- at inductive load, max.	0.5 Hz	- Pt 100	Yes
- at lamp load, max.	100 Hz		
- of pulse outputs, at resistive load, max.	2.5 kHz	Characteristic curve linearization	
Summation current of the outputs (per group)		- parameterizable	Yes
• vertical mounting positions			
- up to 40°C., max.	3 A	Temperature compensation	
• horizontal mounting positions		- parameterizable	No
- up to 40°C, max.	2 A		
- up to 40 °C, max.	3 A	<b>Analog outputs</b>	
- up to 60 °C, max.	2 A	• Number of analog outputs	2

#### Technical specifications (continued)

	<b>6ES7 636-2EB00-0AE3</b>	<b>6ES7 636-2EB00-0AE3</b>
Output ranges, voltage		
- 0 to 10 V	Yes	
- -10 to +10 V	Yes	
Output ranges, current		
- 0 to 20 mA	Yes	
- -20 to +20 mA	Yes	
- 4 to 20 mA	Yes	
Actuator connection		
- for voltage output 2-wire connection	Yes	
- for voltage output 4-wire connection	No	
- for current output 2-wire connection	Yes	
Burden resistance (in the nominal output range)		
- at voltage outputs, min.	1 kΩ	
- at voltage outputs, capacitive load, max.	0.1 µF	
- at current outputs, max.	300 Ω	
- at current outputs, inductive load, max.	0.1 mH	
Dest. limit against voltages and currents applied from outside		
- Voltages at the outputs against M <sub>ANA</sub>	16 V	
- Current (DC), max.	50 mA	
<b>Analog value formation</b>		
Integration and conversion time/triggering per channel		
- with over-range (bits incl. sign), max	12 Bit	
- Integration time parameterizable	Yes	
- Permissible input frequency, max.	400 Hz	
- Conversion time (per channel)	1 ms	
- Response time of the input filter	0.38 ms	
- Basic execution time of the module (all channels enabled)	1 ms	
Settling time		
- for resistive load	0.6 ms	
- for capacitive load	1 ms	
- for inductive load	0.5 ms	
<b>Sensor</b>		
Connectable encoders		
- 2-wire BEROS	Yes	
- permissible closed-circuit current (2-wire BEROS), max.	1.5 mA	
<b>Error/accuracies</b>		
Operational limit in the entire temperature range		
- relative to the output range, voltage	+/- 1 %	
- relative to the output range, current	+/- 1 %	
- relative to the input range, voltage	+/- 1 %	
- relative to the input range, current	+/- 1 %	
- relative to the input range, resistance	+/- 5 %	
Basic error limit (operational limit at 25 °C)		
- relative to the output range, voltage	+/- 0.7 %	
- relative to the output range, current	+/- 0.7 %	
- relative to the input range, voltage	+/- 0.7 %	
- relative to the input range, current	+/- 0.7 %	
- relative to the input range, resistance	+/- 3 %	
- relative to the input range, resistance thermometer	+/- 3 %	
Interference voltage suppression for f = n x (f <sub>1</sub> +/- 1 %)		
- Series-mode interference (peak value of interference < rated value)	30 dB	
- Common-mode interference, min.	40 dB	
<b>Integral functions</b>		
• Number of counters	4	
• Count frequency (counters) max.	60 kHz	
• Frequency sensor	Yes	
• Frequency measurement	Yes	
• Number of frequency sensors	4	
• Controlled positioning	Yes	
• Integrated function blocks (control)	Yes	
• PID controller	Yes	
• Pulse outputs	Yes	
• Number of pulse outputs	4	
• Cut-off frequency (pulse)	2.5 kHz	
<b>Status information/ interrupts/diagnostics</b>		
Interrupts		
- Interrupts	Yes	

**Technical specifications (continued)**

## Standard Tools

### STEP 7

#### Overview

- STEP 7 basic software:  
The standard tool for the SIMATIC S7, SIMATIC C7 and SIMATIC WinAC automation systems.
- Makes use of the full performance capabilities of the systems
- User-friendly functions for all phases of an automation project:
  - Configuring and parameterizing the hardware
  - Definition of communication
  - Programming
  - Testing, commissioning and service
  - Documentation, archiving
  - Operating, diagnostics functions

##### STEP 7 Version 5.3

*Target system:*

SIMATIC S7-300/400,  
SIMATIC C7, SIMATIC WinAC

*Requirements:*

Windows 2000 Prof./XP Prof.

*Delivery package:* German,  
English, French, Spanish, Italian;  
incl. 3.5" authorization diskette,  
without documentation

Floating license on CD

Rental license for 50 hours

Software Update Service on CD

Upgrade Floating License from  
3.x/4.x/5.x to V5.3; on CD

Powerpack STEP 7 Lite V2.0 to  
STEP 7 V5.3;  
Floating license on CD

Trial License STEP 7 V5.3;  
on CD, runs for 14 days

**6ES7 810-4CC07-0YA5**

**6ES7 810-4CC07-0YA6**

## Standard Tools

### STEP 7 Professional

#### Overview

STEP 7 Professional supports all IEC languages.

In addition to the languages recognized by STEP 7

- LAD
- FBD
- IL

the following are also available:

- "Sequential Function Chart"
- "Structured Text"

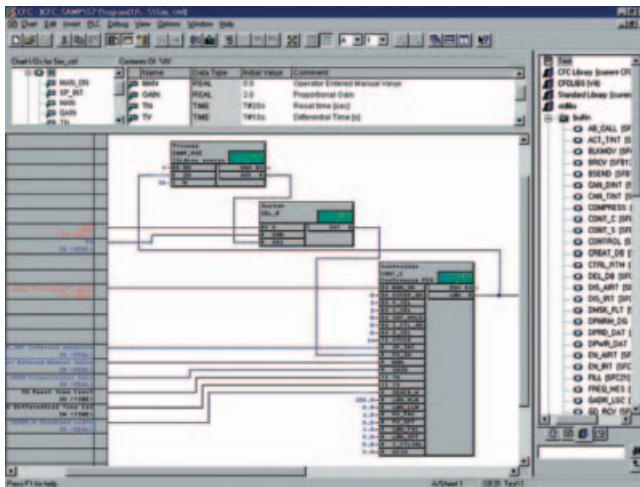

An offline simulation of programs created with these languages is included. STEP 7 Professional thus replaces the combination of the individual packages STEP 7, S7-GRAPH, S7-SCL and S7-PLCSIM.

A POWERPACK is offered to customers who use STEP 7 already and wish to change. A valid STEP 7 license is required for purchasing the POWERPACK. A separate update service is available for STEP 7 Professional.

### Overview

- For creating automation programs by drawing a function chart
- With extensive libraries of prefabricated function blocks to which function blocks created by the user can be added
- Reduced costs and fewer mistakes by simply interconnecting read-to-use function blocks
- Optimized integration in the world of automation, for example, through guaranteed compatibility with all STEP 7 tools
- Can be used for SIMATIC S7-300 (recommended for CPU 316 or CPU 314C or higher), SIMATIC S7-400, SIMATIC WinAC and D7-SYS

# SIMATIC Industrial Software

## Engineering Tools

### Engineering package Drive ES

#### Overview

With Drive ES, Siemens drives may be fully integrated into the SIMATIC automation world with regard to communication, configuring and data management saving you trouble, time and money.

The basis is the user interface of the STEP-7 manager which guarantees consistent configuration.

The following software packages are available:

- Drive ES Basic - introduces you to the world of Totally Integrated Automation and permits routing across network boundaries and use of the SIMATIC Teleservice.
- Drive ES Graphic - is the software for convenient configuration of free drive functions for SIMOVERT MASTERDRIVES and SIMOREG DC MASTER.
- Drive ES SIMATIC - enables you to assign parameters to the STEP-7 communication program instead of programming.
- Drive ES PCS7 - integrates drives with PROFIBUS interface into the PCS 7 process control system.

#### Ordering data

#### Order No.

##### Drive ES Basic V5.3

- Configuring software for integration of drives in Totally Integrated Automation
- Requirement: STEP 7 from V 5.1, SP 3
- Delivery form: on CD-ROM Ger, En, Fr, Sp, It with electronic documentation

Single license

Copy license, qty: 60

Update service for single license

Update service for copy license

Upgrade from V 5.x to V 5.3

### Overview

- For creating safety-oriented automation applications with SIMATIC S7 in LAD or FBD (STEP 7 required)
- Implementation of safety functions by making simple connections between function blocks
- With preconfigured function block library
- User-defined blocks can be created
- Optimum embedding in the automation world due to guaranteed integration with STEP 7 tools
- Scope of supply:
  - Distributed Safety editor
  - Code generator
  - Debugger
  - Libraries of standard blocks

## Engineering Tools

### Version cross-checker

#### Overview

The version cross-checker tool determines the differences between various versions of a project by:

- Comparison of CFCs/SFCs, block types, signals and sequences in order to determine additional, missing or different objects
- Graphic display of comparison results in a combination of tree and tabular formats
- Color-coded identification of objects and attribute values

#### Upgrade from V6.0

For SIMATIC PCS 7 users, the engineering software upgrade package already includes an upgrade of the version cross-checker from V6.0 to V6.1.

A separate upgrade can be purchased for applications in which the version cross-checker is used outside SIMATIC PCS 7.

#### Ordering data

**SIMATIC version cross-checker V6.1**  
3 languages (German, English, French), executes with Windows 2000 Professional or Windows XP Professional, floating license for 1 user  
Type of delivery: License key disk, certificate of license, terms and conditions

#### Upgrade of version cross-checker from V6.0 to V6.1

3 languages (German, English, French), executes with Windows 2000 Professional or Windows XP Professional, floating license for 1 user

#### Overview

PDM lifelist with status and diagnostics display

SIMATIC PDM (Process Device Manager) is a universal, vendor-independent tool for the configuration, parameterization, commissioning, diagnosis and servicing of intelligent field devices (sensors and actuators) and field components (remote I/Os, multiplexers, control-room devices, compact controllers), which in the following sections will be referred to simply as devices. Using one software, SIMATIC PDM enables the processing of more than 1,000 devices from Siemens and over 100 vendors worldwide on one homogeneous user interface.

With respect to device integration, SIMATIC PDM is the most powerful device manager available on the world market. Devices which previously were not supported can be easily integrated in SIMATIC PDM at any time by importing their device descriptions (EDD). This provides security for your investment and saves you investment costs, training expenses and consequential costs.

Parameters and functions for all supported devices are displayed in a consistent and uniform fashion independent of their communications interface.

SIMATIC PDM is integrated in the asset management of SIMATIC PCS 7. The Process Device Manager provides wider information for all devices described by the Electronic Device Description (EDD), e.g. detailed diagnostics information (vendor information, information on fault diagnostics and troubleshooting, further documentation), modification logbook (audit trial), parameter information. You can change directly to SIMATIC PDM from the diagnostics faceplates in the maintenance station.

SIMATIC PDM can be used either integrated in a SIMATIC PCS 7/S7 configuration environment, as a mobile servicing tool on a computer with connection to PROFIBUS, or directly on the device.

#### Technical specifications

##### Requirements for stand-alone operation

Hardware

- PG/PC/notebook with processor in accordance with the operating system requirements
- 256 MB main memory or more
- 210 MB free memory on hard disk or more

Operating system (alternative)

- Microsoft Windows 2000 Professional with SP1 or higher
- Microsoft Windows XP Professional SP1

##### Further software components

- SIMATIC PDM integrated in STEP 7

STEP 7 V5.1 or higher with Service Pack 6 or higher, to be ordered separately

#### Ordering data

#### Order No.

##### **SIMATIC PDM Single Point**

###### **SIMATIC PDM Single Point V6.0**

For operation and parameterization of one field device, communication using PROFIBUS DP/PA or HART modem, incl. 1 TAG

Cannot be expanded by further functions or TAG option/Power-Pack

5 languages (German, English, French, Spanish, Italian), executes with

Windows 2000 Professional or

Windows XP Professional

Floating license for 1 user

**6ES7 658-3HX06-0YA5**

##### **SIMATIC PDM Basic**

###### **SIMATIC PDM Basic V6.0**

For operation and parameterization of field devices and components, communication using PROFIBUS DP/PA, HART modem/interface, RS 232, Modbus, SIREC bus, SIPART DR, incl. 4 TAGs

5 languages (German, English, French, Spanish, Italian), executes with

Windows 2000 Professional or

Windows XP Professional

• Floating license for 1 user

• Rental license for 50 hours

**6ES7 658-3AX06-0YA5**

**6ES7 658-3AX06-0YA6**

##### **Functional options for SIMATIC PDM V6.0**

###### **Integration in STEP 7 / SIMATIC PCS 7**

Only required if it is intended to use the integration of SIMATIC PDM in HW Config

5 languages (German, English, French, Spanish, Italian), executes with

Windows 2000 Professional or

Windows XP Professional

• Floating license for 1 user

• Rental license for 50 hours

**6ES7 658-3BX06-2YB5**

**6ES7 658-3BX06-2YB6**

###### **Routing through S7-400**

5 languages (German, English, French, Spanish, Italian), executes with

Windows 2000 Professional or

Windows XP Professional

• Floating license for 1 user

• Rental license for 50 hours

**6ES7 658-3CX06-2YB5**

**6ES7 658-3CX06-2YB6**

###### **Communication through standard HART multiplexer**

5 languages (German, English, French, Spanish, Italian), executes with

Windows 2000 Professional or

Windows XP Professional

• Floating license for 1 user

• Rental license for 50 hours

## HMI software

### SIMATIC ProTool/Pro

#### Overview

- **PC-based HMI solution** for single-user systems directly at the machine

- SIMATIC ProTool/Pro comprises:
  - SIMATIC ProTool/Pro RT runtime software for PC-based systems

- SIMATIC ProTool/Pro Configuration (CS) configuration software for configuring PC-based systems as well as for configuring SIMATIC Operator Panels

- Executable under Windows 98 SE/ME and Windows NT4.0/2000/XP Professional

- **Current version:**

- SIMATIC ProTool/Pro Configuration V6.0 + SP3
  - SIMATIC ProTool/Pro Runtime V6.0 + SP3

#### 7 Technical specifications

Type	SIMATIC ProTool/Pro Runtime
<b>Operating system</b>	The specifications are maximum values MS Windows 98 SE/ME (ME not for ASIA version), MS Windows NT 4.0/2000/XP Professional
<b>Messages</b>	4000 • Message text (number of characters) 70 • Message buffer size 1024 • Pending message events 500
<b>Archives (number)</b>	100 • Archivable data Process values (max. 100), messages 500,000 • Max. number of entries per archive (incl. sequential archive) • Archive types Short-term archives, sequential archives (max. 40 per archive) • Data storage format CSV (Comma Separated Variable) and interfacing to ODBC database (database not included in scope of supply)
<b>Recipes</b>	1000 • Entries per recipe 2000 <sup>3)</sup> • Data records 5000 <sup>2)</sup>
<b>Diagrams</b>	300 • Fields per diagram 400 • Variables per diagram 400 • Static text 30,000 • Graphics objects 2000 • Complex objects per picture (e.g. bars) 40 • Trend curves 800 • Graphics lists <sup>1)</sup> 500 • Text lists <sup>1)</sup> 500 • Number of entries in symbol lists 3,500

1) Only 500 text and graphics lists in total

2) Depends on the storage medium used

Type	SIMATIC ProTool/Pro Runtime
<b>Variables</b>	2048 <sup>3)</sup>
<b>Password protection</b>	
• Password levels	10 (0 ... 9)
• Number of passwords	50
<b>Visual Basic scripts</b>	50
• Number of lines	100
<b>Online languages, max.</b>	5
<b>Communication</b>	
SIMATIC S7 MPI interface/PROFIBUS DP interface	
• Number of connectable partners, max.	ProTool/Pro permits up to 8 connections, depending on the scope of configuration (communication)
SIMATIC S7 PPI interface	
• Number of connectable partners, max.	1 for ProTool/Pro
SIMATIC S5 loop-through arrangement	No
SIMATIC S5 PROFIBUS DP interface,	
• Number of connectable partners, max.	1 for ProTool/Pro

3) Depends on the number of licensed PowerTags

Ordering data	Order No.	Order No.
<b>SIMATIC ProTool/Pro Configuration V6.0 + SP3 incl. ### SIMATIC WinCC flexible ES

#### Overview

- Integrated family of engineering tools for configuring SIMATIC HMI operator units, the operator control part of SIMATIC C7 systems, SIMOTION/SINUMERIK Panel PCs as well as the PC-based visualization software WinCC flexible Runtime
- Executable under Windows 2000 / XP Professional
- **Current version:**
  - SIMATIC WinCC flexible 2005 Advanced
  - SIMATIC WinCC flexible 2005 Standard
  - SIMATIC WinCC flexible 2005 Compact
  - SIMATIC WinCC flexible 2005 Micro

#### Ordering data

#### Order No.

##### WinCC flexible 2005 Advanced<sup>E)</sup>

**6AV6 613-0AA01-1CA5**

Single license, on CD-ROM incl. authorization, includes:

- Engineering software for configuring WinCC flexible Runtime as well as the micro panels and the panels of the 70/170/270/370 series incl. C7-635/636
- SW for WinCC flexible /Change-Control engineering option <sup>1)</sup>
- Simulation software for WinCC flexible Runtime as well as the micro panels and the panels of the 70/170/270/370 series incl. C7-635/636
- Native drivers
- Electronic documentation (.pdf) in English, German, French, Italian, Spanish

##### WinCC flexible 2005 Standard<sup>E)</sup>

**6AV6 612-0AA01-1CA5**

Single license, on CD-ROM incl. authorization, includes:

- Engineering software for configuring the micro panels and the panels of the 70/170/270/370 series incl. C7-635/636
- SW for WinCC flexible /Change-Control engineering option <sup>1)</sup>
- Simulation software for the micro panels and the panels of the 70/170/270/370 series incl. C7-635/636
- Native drivers
- Electronic documentation (.pdf) in English, German, French, Italian, Spanish

##### WinCC flexible 2005 Compact<sup>E)</sup>

**6AV6 611-0AA01-1CA5**

Single license, on CD-ROM incl. authorization, includes:

- Engineering software for configuring the micro panels and the panels of the 70/170 series incl. C7-635/636
- SW for WinCC flexible /Change-Control engineering option <sup>1)</sup>
- Simulation software for the micro panels and the panels of the 70/170 series incl. C7-635/636
- Native drivers
- Electronic documentation (.pdf) in English, German, French, Italian, Spanish

##### WinCC flexible 2005 Micro<sup>E)</sup>

**6AV6 610-0AA01-1CA8**

Single license, on CD-ROM without authorization, includes:

- Engineering software for configuring the micro panels
- Electronic documentation (.pdf) in English, German, French, Italian, Spanish

<sup>1)</sup> The licenses for WinCC flexible /ChangeControl must be purchased separately for each engineering station

E) Subject to export regulations: AL: N and ECCN: 5D992B1

#### Technical specifications

Type	SIMATIC WinCC flexible Runtime
<b>Operating system</b>	The specifications are maximum values MS Windows 2000 / XP Professional
<b>Diagrams</b>	500 • Fields per diagram 400 • Variables per diagram 400 • Static text 30000 • Graphics objects 2000 • Complex objects per picture (e.g. bars) 40 • Trend curves 800 • Graphics lists <sup>1)</sup> 500 • Text lists <sup>1)</sup> 500 • Number of entries in symbol lists 3500
<b>Variables</b>	2048 <sup>3)</sup>
<b>Messages bit-triggered/analog</b>	4000 / 500 • Message text (number of characters) 80 • Number of process values per message 8 • Message buffer size 1024 • Pending message events 500
<b>Archive <sup>4)</sup></b>	Process values (max. 100), messages 500000 Short-term archives, sequential archives (max. 400 per archive) CSV (Comma Separated Variable) and interfacing to ODBC database (database not included in scope of supply) Process values (max. 100), messages • Archivable data • Max. number of entries per archive (incl. sequential archive) • Archive types • Data storage format

Type	SIMATIC WinCC flexible Runtime
<b>Recipes <sup>4)</sup></b>	1000 • Elements per recipe 2000 <sup>3)</sup> • Records per recipe 5000 <sup>2)</sup>
<b>Password protection</b>	32 • User privileges 10
<b>Visual Basic scripts</b>	200
<b>Online languages, max.</b>	16
<b>Communication</b>	WinCC flexible Runtime permits up to 8 connections, depending on the scope of configuration (communication) SIMATIC S7 MPI interface/PROFIBUS DP interface • Number of connectable partners, max.
SIMATIC S7 PPI interface • Number of connectable partners, max.	1 for WinCC flexible Runtime
SIMATIC S5 PROFIBUS DP interface, • Number of connectable partners, max.	1 for WinCC flexible Runtime
Multi-protocol operation	Yes; OPCclient or SIMATIC HMI HTTP protocol are additive, that is, they can be used in combination with other controller connections

1) Only 500 text and graphics lists in total

2) Depends on the storage medium used

3) Depends on the number of licensed PowerTags

4) Option for SIMATIC WinCC flexible Runtime

# SIMATIC Industrial Software

## HMI software

### SIMATIC WinCC

#### Overview

- PC-based operator control and monitoring system for visualizing and operating processes, production flows, machines and plants in all sectors - with the simple single-user station through to distributed multi-user systems with redundant servers and cross-location solutions with Web clients. WinCC is the information hub for corporation-wide vertical integration.
- The basic system configuration (WinCC basic software) includes industry-standard functions for signaling and acknowledging events, archiving of messages and measured values, logging of all process and configuration data, user administration and visualization.
- The WinCC basic software forms the core of a wide range of different applications. Building on the open programming interfaces, a wide range of WinCC options (from Siemens A&D) and WinCC add-ons have been developed (by Siemens-internal and external partners).
- Current versions:
  - **SIMATIC WinCC V6.0 SP3:**  
Executes under Windows XP Professional/ Windows 2003 Server and Windows 2000
  - **SIMATIC WinCC V5.1 SP2:**  
Executes under Windows NT 4.0 / 2000

7

#### Technical specifications

Type	SIMATIC WinCC V5.1 SP2	SIMATIC WinCC V6.0 SP3
<b>Operating system</b>	Windows NT4.0/ Windows 2000  WebClient, additionally: Windows 98, Windows ME, Windows 2000 terminal services	Windows XP Professional/ Windows 2000 Professional, Windows 2000 Server and Windows 2003 Server  WebClient/Dat@Monitor Client, additionally: Windows NT4.0/ Windows XP Home, Windows 2000 terminal services
<b>Hardware requirements for PC</b>		
<b>CPU</b> <sup>1)</sup>	<ul style="list-style-type: none"> <li>• Minimum</li> </ul> Pentium II, 400 MHz	Single-user system/server: Pentium III, 800 MHz  Central archive server: Pentium IV, 2 GHz  Client: Pentium III, 300 MHz  WebClient/Dat@Monitor client: Pentium III, 300 MHz
• Recommended	Pentium III, 400 MHz	Single-user system/server: Pentium IV, 1400 MHz  Central archive server: Pentium IV, 2.5 GHz  Client: Pentium III, 800 MHz  WebClient/Dat@Monitor client: Pentium III, 800 MHz
<b>RAM (main memory)</b>	<ul style="list-style-type: none"> <li>• Minimum</li> </ul> ≥ 128/256 MB (single-user station/server), ≥ 128 MB (client) <sup>2)</sup>	Single-user system/server: 512 MB  Central archive server: 1 GB  Client: 256 MB  WebClient/Dat@Monitor client: 128 MB
• Recommended	≥ 256 MB (single-user station/server), ≥ 256 MB (client) <sup>2)</sup>	Single-user system/server: 1 GB  Central archive server: ≥ 1 GB  Client: 512 MB  WebClient/Dat@Monitor client: 256 MB

1) An AMD system of comparable performance can also be used

2) At least 32 MB more when using online configuration

**Technical specifications (continued)**

Type	SIMATIC WinCC V5.1 SP2	SIMATIC WinCC V6.0 SP3
<b>Graphics card</b>		
• Minimum	SVGA (4 MB), 800 x 600	SVGA (16 MB), 800 x 600
• Recommended	XGA (8 MB), 1024 x 768	SXGA (32 MB), 1280 x 1024
<b>Hard disk</b>		
• Minimum	> 3 GB	Single-user system/server: 20 GB Client: 5 GB WebClient/Dat@Monitor client: 5 GB
• Recommended	> 3 GB	Single-user system/server: 80 GB Client: 20 GB WebClient/Dat@Monitor client: 10 GB
• Hard disk (free disk space for installation)		
- Minimum	650 MB	Server: 1 GB Client: 700 MB
- Recommended	≥ 650 MB	Server: > 10 GB Client: > 1.5 GB
<b>CD-ROM/DVD-ROM/diskette drive</b>	For software installation	For software installation
<b>Functionality/quantity framework</b>		
Messages (number)	50,000	50,000
• Message text (number of characters)	10 x 256	10 x 256
• Message archive	> 500,000 messages <sup>1)</sup>	> 500,000 messages <sup>1)</sup>
• Process values per message	10	10
• Continuous loading, max. messages	2/s	Central archive server: 100/s Server/single-user station: 10/s
• Message surge, max.	2000 in 10 min.	Central archive server: 15,000/10 sec. every 5 min Server/single-user station: 2,000/10 sec. every 5 min
Archive		
• Archive data points	Max. 30,000 per server	Max. 80,000 per server <sup>2)</sup>
• Archive types	Short-term and sequential archives	Short-term archive with and without long-term archiving
• Data storage format	Sybase SQL 7 or dBase III <sup>3)</sup>	Microsoft SQL Server 2000
• Measured values per second, max.	Server/single-user station: 360/s (500/s dBase III)	Central archive server: 10,000/s Server/single-user station: 5,000/s
User archives		
• Archive (recipes)	500	Determined by system <sup>1)</sup>
• Data records per user archive	65,536 <sup>4)</sup>	65,536 <sup>4)</sup>
• No. of fields per user archive	500 <sup>4)</sup>	500 <sup>4)</sup>
Graphics system		
• No. of diagrams	Determined by system <sup>1)</sup>	Determined by system <sup>1)</sup>
• No. of objects per picture	Determined by system <sup>1)</sup>	Determined by system <sup>1)</sup>
• No. of operator-controllable fields per picture	Determined by system <sup>1)</sup>	Determined by system <sup>1)</sup>
Process variables	64 K <sup>5)</sup>	64 K <sup>5)</sup>
Trend curves		
• Curve windows per display	8	25
• Curves per curve window	15	80

1) Dependent on available memory

2) Dependent on the number of licensed archive variables

3) Dbase III only with TagLogging short-term archives

4) The product of number of fields and number of data records must not exceed 320,000

5) Depends on the number of licensed PowerTags.

### Field PG M

#### Overview

- The mobile, industry-compatible programming device with the powerful Intel Pentium M processor.
- It is ideal for start-up, servicing and maintaining automation systems.
- Industrial notebook with wireless technology, large display, slow battery discharge, high-speed RAM and integrated data backup concept.
- With all the usual interfaces for industrial applications.

#### Technical specifications

SIMATIC Field PG M	
<b>General features</b>	
Design	Notebook
Processor	Pentium Mobile 1.6 GHz or 2.0 GHz Dothan processor; Intel Mobile chip set 915 GM
Main memory	512 MB or 1 GB DDR2 memory with 533 MHz Frontsidebus
Free expansion slots	PC card/PCMCIA: 1 x Type III or 2 x Type I
Graphic	Intel GMA 900 with DualView (e.g. desktop across 2 screens)
Display	15" display; XGA resolution (1024 x 768) or SXGA+ (1400 x 1050)
Loudspeaker	Integrated stereo loudspeakers
Pointing device	Touch pad
Operating system	Windows XP SP2 MUI (Eng., Ger., Fr., It., Sp.; further languages can be installed separately)
Power supply	Wide-range power supply unit 100 to 240 V, 50 to 60 Hz, high-performance lithium ion rechargeable battery 73 Wh (runtime over 4 hours)
Guarantee	24 months on hardware components (battery 6 months)
<b>Drives</b>	
Hard disk	Serial ATA with 60 GB or 80 GB; for easy swapping
DVD/CD	DVD ROM /CD RW or multi-standard DVD RW / CD RW
Floppy disk	1.44 MB; 3.5"

1) The integrated wireless LAN (2.4 GHz band) and modem is approved for operation in Europe. In the 5 GHz band, the wireless LAN is approved for operation in Germany, France, Italy, Spain, UK and Austria. Please adhere to the relevant local regulations when operating the device outside these countries.

SIMATIC Field PG M	
<b>Ports</b>	
PROFIBUS DPMPI	CP 5611-compatible
COM 1	V.24/TTC (for SIMATIC S5)
Programming interface	For memory cards, micro memory cards and S5 EPROM modules (using an adapter)
Ethernet	10/100 Mbit/s Fast Ethernet
USB 2.0	2 x 2 (1 A / pair)
PC card (PCMCIA)	1 x Type III or 2 x Type II
VGA	1 x (for connecting an external monitor)
COM 2 (serial)	9-pin Sub-D male; V.24; over I-Cable
Parallel (LPT)	ECP
WLAN <sup>1)</sup>	Integrated, IEEE802.11 a,b,g
Modem	Analog, V.92-compatible
Headphones	1 x (stereo)
Microphone	1 x (stereo)
<b>Ambient conditions</b>	
Degree of protection EN 60529	IP30 at the front with unit closed
Vibrations	Tested to DIN IEC 68-2-6
• Operation	10 to 58 Hz: 0.01875 mm; 58 Hz to 500 Hz: 4.9 m/s <sup>2</sup>
• Transport	5 to 9 Hz: 3.5 mm; 9 Hz to 500 Hz: 9.8 m/s <sup>2</sup>
Resistance to shock	tested to DIN IEC 68-2-29
• Operation	50 m/s <sup>2</sup> , 30 ms, 100 shocks
• Storage/transport	250 m/s <sup>2</sup> , 6 ms, 1000 shocks

#### Technical specifications (continued)

	<b>SIMATIC Field PG M</b>	<b>SIMATIC Field PG M</b>
Electromagnetic compatibility (EMC)		
• Emitted interference	EN 55022 Class B	Tested to DIN EN 60068-2-2: 1994, DIN IEC 68-2-1, DIN IEC 68-2-14
• Immunity to conducted interference on the supply lines	± 2 kV (according to IEC 1000-4-4; 1995; Burst) ± 1 kV; (according to IEC 1000-4-5; 1995; Surge sym) ± 2 kV (according to IEC 1000-4-5; 1995; Surge asym)	+ 5 to + 40 °C - 20 to + 60 °C
• Immunity to interference on signal lines	± 1 kV (according to IEC 1000-4-4; 1995; Burst; length < 3 m) ± 2 kV (according to IEC 1000-4-4; 1995; Burst; length > 3 m) ± 1 kV (according to IEC 1000-4-4; 1995; Surge sym; length > 3 m) ± 2 kV (according to IEC 1000-4-4; 1995; Surge asym, length > 3 m))	10 °C/h (no condensation)
• Immunity to static discharge	± 4 kV contact discharge (according to IEC 1000-4-2: 1995) ± 8 kV air discharge (according to IEC 1000-4-2: 1995)	Tested to DIN IEC 68-2-3, DIN IEC 68-2-30, DIN IEC 68-2-56
• Immunity to radio frequency emission	10 V/m; 80 MHz to 1000 MHz, 80% AM (according to ENV 50140: 1993) 10 V/m; 900 MHz; 50% load factor (according to ENV 50204: 1995)	• Operation 5% to 80% at 25° C (no condensation)
• Immunity to high-frequency current feed	10 V; 9 kHz to 80 MHz	• Storage/transport 5% to 95% at 25° C (no condensation)
• Immunity to magnetic fields	30 A/m; 50 Hz	
<i>Dimensions and weights</i>		
Dimensions (W x H x D) in mm		330 x 300 x 52
Weight, approx.		3.9 kg

2) Battery recharging and CD/DVD writing is only possible up to a temperature of 35 °C

1) The capacity of the battery decreases for technological reasons with each charging/discharging operation and also as the result of being stored at excessively high or low temperatures. The running time per charge decreases therefore in the course of time. In normal use the battery can be charged and discharged over a period of six months from when the field PG is purchased. Capacity loss is not covered by the warranty. For the battery's operation we grant a warranty of six months. We recommend replacing the battery with an original Siemens battery at the end of these six months if there is a significant drop in performance.

A) Subject to export regulations: AL: N and ECCN: EAR99H

E) Subject to export regulations: AL: N and ECCN: 5D992B1

#### Overview

- Software for coupling PCs/programming devices and notebooks to programmable controllers
- Can be used together with CP 5512 (PC card, CardBus 32 bit), CP 5611 A2 (PCI) and integral PROFIBUS interface of the SIMATIC PG/PC
- Communication services:
  - PROFIBUS DP master Class 1 and 2 with acyclic expansions
  - PROFIBUS DP slave
  - PG/OP communication
  - S7 communication
  - S5-compatible communication (SEND/RECEIVE based on the FDL interface)
- The appropriate OPC servers are included in the scope of supply of the respective communication software

#### Technical specifications

Performance data for mono-protocol operation	CP 5511	CP 5611 A2/ CP 5512
Number of connectable DP slaves	≤ 32 <sup>1)</sup>	Max. 60
Number of FDL tasks waiting	Max. 32	Max. 100
Number of PG/OP and S7 connections	Max. 8	Max. 8
• DP master	DP-V0, DP-V1 with SOFTNET-DP	
• DP slave	DP-V0, DP-V1 with OFTNET-DP Slave	

1) Depends on memory available in the adapter area of the notebook

##### SOFTNET-S7 Edition 2005<sup>E)</sup>

6GK1 704-5CW63-3AA0

Software for S7 communication incl. FDL protocol with OPC server and NCM PC single license for 1 installation, runtime software, software and electronic manual on CD-ROM, license key on diskette, Class A, for 32-bit Windows 2000 Professional/Server, Windows XP Professional, 2003 Server, for CP 5512, CP 5611 A2 German/English

##### SOFTNET-DP Edition 2005<sup>E)</sup>

6GK1 704-5DW63-3AA0

Software for DP protocol (Master Classes 1 and 2), incl. FDL protocol with OPC server and NCM PC; single license for 1 installation, runtime software, software and electronic manual on CD-ROM, license key on diskette, Class A, for 32-bit Windows 2000 Professional/Server, Windows XP Professional, 2003 Server, for CP 5512, CP 5611 A2 German/English

##### SOFTNET-DP Slave Edition 2005<sup>E)</sup>

6GK1 704-5SW63-3AA0

Software for DP slave, with DP OPC server and NCM PC, single license for 1 installation, runtime software, software and electronic manual on CD-ROM, license key on diskette, Class A, for 32-bit Windows 2000 Professional/Server, Windows XP Professional, 2003 Server, for CP 5512, CP 5611 A2 German/English

##### SIMATIC NET Software Update Service<sup>E)</sup>

6GK1 704-0AA00-3AA2

For Industrial Ethernet, PROFIBUS, OPC server, for one year warranty incl. manuals on CD-ROM

Prerequisite: SIMATIC NET PC/Windows products German/English

E) Subject to export regulations: AL: N and ECCN: 5D992B1

## Communications software

### S7-REDCONNECT

#### Overview

- For interfacing PCs over redundant Industrial Ethernet to the SIMATIC S7-400H
- Protected from communication failures arising from a fault in the double bus or in redundant rings
- For redundantly configured Industrial Ethernet
- Can also be implemented in non-redundant networks
- No additional programming overhead for the PC and in H systems
- The appropriate OPC server and configuration tools are included in the scope of supply of the respective communication software
- Enhanced redundancy over 4-way communication (STEP 7 V5.1 + SP4 and higher)

System configuration for S7-REDCONNECT

#### Ordering data

##### S7-REDCONNECT Edition 2005<sup>E)</sup>

6GK1 716-0HB63-3AA0

Software for failsafe S7 communication over redundant networks incl. S7-OPC server, S7-1613 2005, single license for 1 installation, runtime software, software and electronic manual on CD-ROM, license key on diskette, Class A, for 32-bit Windows XP Professional, 2003 Server, Windows 2000 Professional/Server; for CP 1613/CP 1613 A2 German/English

##### Upgrade S7-REDCONNECT Edition 2005<sup>E)</sup>

6GK1 716-0HB63-3AA4

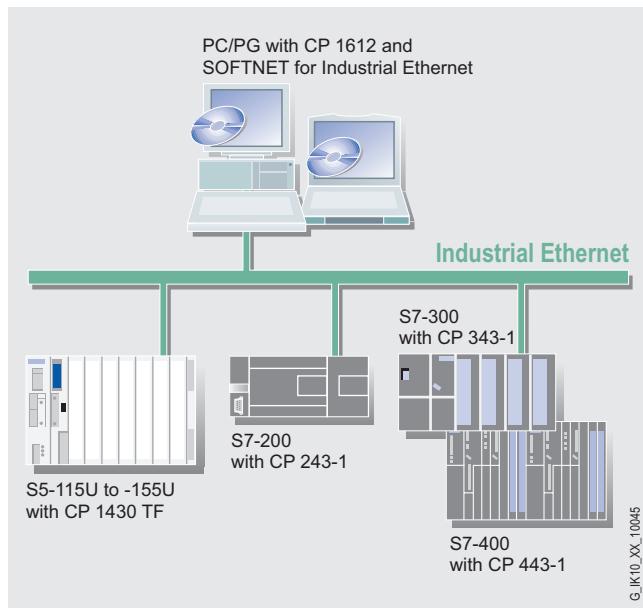

For expanding S7-1613 2005 to S7-REDCONNECT, single license for 1 installation, runtime software, software and electronic manual on CD-ROM, license key on diskette, Class A, for 32-bit Windows XP Professional, 2003 Server, Windows 2000 Professional/Server; for CP 1613/CP 1613 A2 German/English

E) Subject to export regulations: AL: N and ECCN: 5D992B1

### SOFTNET for Industrial Ethernet Edition 2005

#### Overview

- For coupling programming devices/PCs/workstations to programmable controllers
- Communication services:
  - PG/OP communication
  - S7 communication
  - S5-compatible communication (SEND/RECEIVE)
- Can be used with
  - CP 1612 (PCI)
  - CP 7515 (PC Card CardBus)
  - Integrated Industrial Ethernet interface
  - Modem (Remote Access Service RAS)
- Complete protocol stack as a software package
- The appropriate OPC server and configuration tools are included in the scope of supply of the respective communication software

System configuration SOFTNET for Industrial Ethernet

### SOFTNET PN IO

#### Overview

G\_IK01\_XX\_10073

PC with SOFTNET PN IO as PROFINET IO-Controller

- Software with PROFINET IO-Controller function for coupling PG/PC and IPC with PROFINET IO-Devices
- Possible applications:
  - PC-based control systems
  - HMI systems
  - Test applications

- Communication services:
  - PROFINET IO Controller
  - Integrated interfaces of SIMATIC PG/PC
- Cost-effective solution for the low-end performance range
- OPC server for I/O interfacing over PROFINET included in scope of supply

#### Technical specifications

SOFTNET PN IO	
<b>Performance data IO controller</b>	
• Number of operable IO devices	Max. 64
• Number of external IO-lines in one central rack	Max. 1
• Size of IO data areas overall	
- I/O input area	Max. 32 KB
- I/O output area	Max. 32 KB
• Size of I/O data area per connected I/O device	
- I/O input area	Max. 1472 bytes
- I/O output area	Max. 1472 bytes

#### Ordering data

Order No.
<b>SOFTNET PN IO Edition 2005<sup>E)</sup></b>
Software for PROFINET I/O controller with OPC server and NCM PC single license for 1 installation, runtime software, software and electronic manual on CD-ROM, license key on diskette, Class A, for 32-bit Windows XP Professional, 2003 Server; Windows 2000 Professional, Server for CP 1512 and CP 1612, German/English
<b>CP 1612 communications processor<sup>A)</sup></b>
PCI card (32-bit; 3.3 V/5 V) for connecting a programming device or PC to Industrial Ethernet (10/100 Mbit/s), with RJ45 connection incl. driver for 32-bit Windows 98, Me, NT 4.0, WS/Server, 2000 Professional/Server, XP Professional, 2003 Server

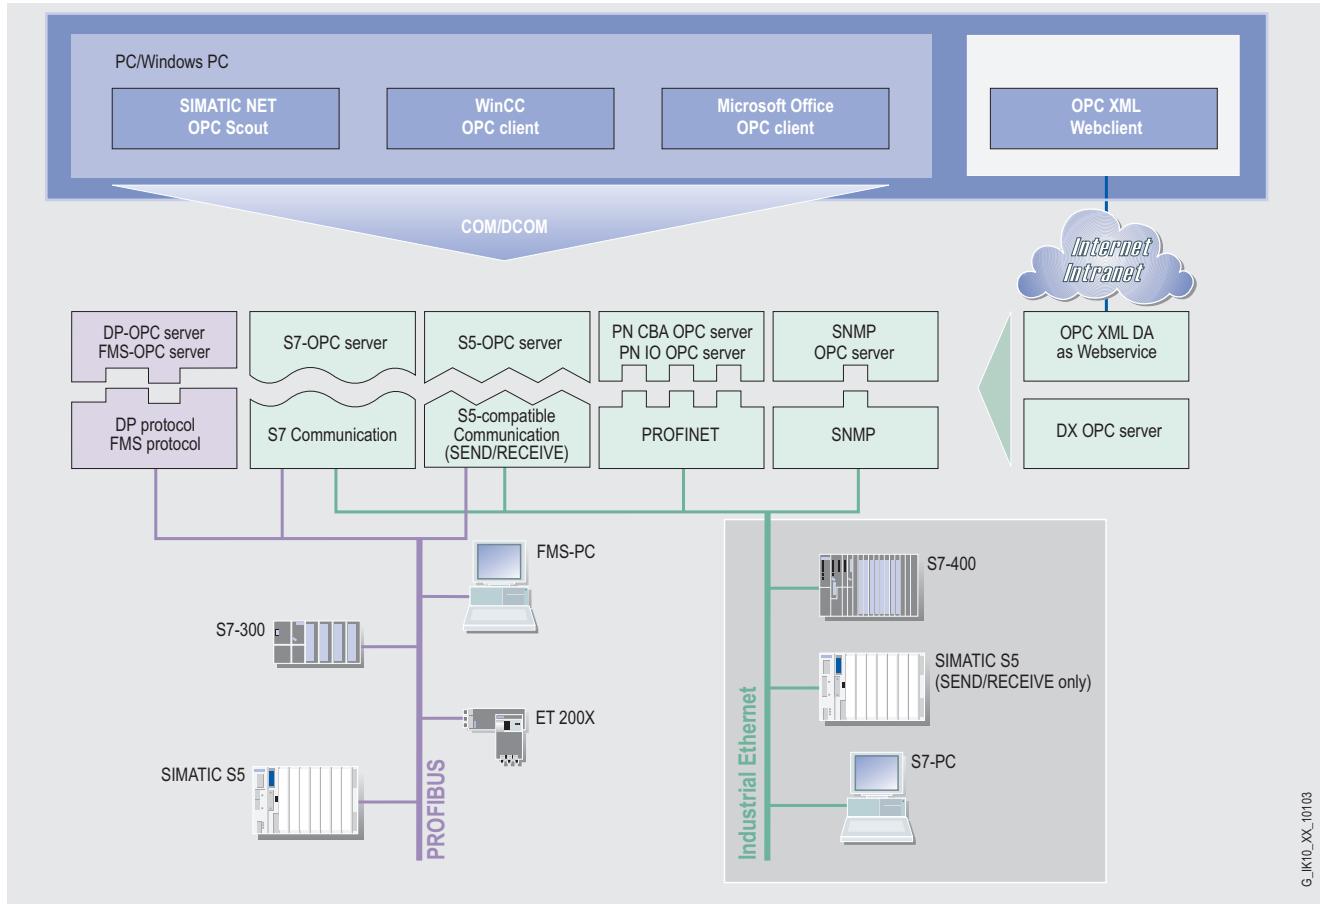

A) Subject to export regulations: AL: N and ECCN: EAR99H

E) Subject to export regulations: AL: N and ECCN: 5D992B1

#### Overview

- The appropriate OPC servers are included in the scope of supply of the respective communication software
- Standardized, open, manufacturer-independent interface

- Interfacing of OPC-capable Windows applications to S7-communication and S5-compatible communication functions (SEND/RECEIVE), PROFINET and SNMP
- OPC Scout with browser functions as OPC client and OCX Data Control

System integration with the OPC server

### PN CBA OPC server

#### Overview

System integration with the PN CBA OPC server

- Access to variables in PROFINET CBA components over the OPC interface
- Use of the objects and symbols defined using the PROFINET engineering tool SIMATIC iMap and STEP 7
- Adding PROFINET functionality to existing installations. This enables it to be used in parallel with other communication protocols such as S7 communication with SOFTNET-S7 for Industrial Ethernet.
- OPC Scout as an OPC client with browser functions for the variables of the PROFINET CBA components

#### Technical specifications

PN CBA OPC Server	
Programming	<ul style="list-style-type: none"> <li>Open and standardized</li> <li>Synchronous and asynchronous reading and writing of variables</li> <li>Monitoring of variables using the OPC server with a signal to the client when a change occurs</li> <li>Use of quantity operations; so a large amount of data can be processed in a short time.</li> </ul>

## Communications software

### SNMP OPC server

#### Overview

- Status monitoring and network management of SNMP-capable devices in any OPC client systems; e.g. SIMATIC HMI/SCADA, office application
- Easy access to SNMP-capable devices over the OPC interface
- Devices without SNMP agents can be monitored using the ping mechanism
- Complete integration in the SIMATIC NET OPC server environment
- SNMP can be implemented in parallel with other communications protocols such as PROFINET or S7 communication
- Configuration and engineering is performed with STEP 7/NCM PC, V5.2 and higher.

### SIMATIC WinAC Software PLC

#### Overview

- Optimized for applications that demand high flexibility and integration capability.
- SIMATIC WinAC software PLCs comprise the following products
  - WinAC Basis and
  - WinAC RTX.
- WinAC RTX:
  - The software solution for tasks that demand a highly deterministic response and high performance.
  - With real-time extension to provide deterministic behavior for the control unit.
- WinAC Basis:
  - The low-cost solution for PC-based control tasks.
  - For data-intensive processes in connection with extensive PC tasks.

## Training

### Training is decisive for your success

**SITRAIN®** - the Siemens Training for Automation and Industrial Solutions - provides you with comprehensive support when solving your tasks.

Training by the market leader in automation, plant installation and support permits you to make your decisions with certainty and full command. Especially where the optimum and efficient use of products and plants are concerned. You can eliminate deficiencies in existing plants, and exclude expensive faulty planning right from the beginning.

**All in all, this represent an enormous gain for your company: shortened startup times, optimized plant components, faster troubleshooting, reduced down times. In other words, increased profits and lower costs.**

### Top trainers

Our trainers know their topics in practice, and possess comprehensive didactic experience. Course developers have a direct wire to product development, and directly pass on their knowledge to the trainers.

### Practical experience

The practical experience of our trainers makes it possible for them to pass on theoretical matter in a plausible manner. But since it is known that all theory is drab, we attach great importance to practical exercises which can comprise up to half of the course time. You can therefore immediately implement your new knowledge in practice. We train you on state-of-the-art methodically/didactically designed training equipment. You feel absolutely certain when trained in this manner.

### Wide variety

With a total of approx. 300 local attendance courses, we train the complete range of A&D products and a large portion of the system solutions from I&S. Telecourses, teach-yourself software and seminars presented on the Web supplement our classical range of courses.

### Close to our customers

The distance is short. You can find us approx. 60 times in Germany, and worldwide in 62 countries. You wish to have individual training instead of one of our 300 courses? No problem: we will provide a program tailored exactly to your personal requirements. Training can be carried out in our Training Centers or at your company.

### The right mixture: blended learning

Blended learning is understood to be the combination of various training media and sequences. For example, a local attendance course in a Training Center can be optimally supplemented by a teach-yourself program as preparation or follow-up. Furthermore, SITRAIN utilizes supported online training for live instruction on the Internet at agreed times.

**The right mixture is the solution. Therefore blended learning can convey complex topics well, and train networked thinking. Additional effect: reduced travelling costs and periods of absence through training sequences independent of location and time.**

### The international training portal

[www.siemens.com/sitrain](http://www.siemens.com/sitrain)

All training facilities at a glance: search in the worldwide range of courses at leisure, call up all course dates online, utilize the daily updated display of vacant course spaces - and register directly.

### Customer comments on Sitrain

*"... the good course documents, competence and flexibility convinced me."*

[Manfred Riek from Festo Systemtechnik, responsible for planning the basic and further training of project engineers]

*"... represents effective training, constructive dialogs, and solutions which provide great help."*

[Günter Niedermaier, electrical design manager at AMT, Aalen]

## SIMATIC S7 Training Cases S7-300 TIA, S7-300

### Application range of training case S7-300 TIA

The training case is used for practicing the programming, operation and commissioning of programmable logic controllers in the context of Totally Integrated Automation.

#### Design

The training case consists of a SIMATIC S7-300 automation system, a TP 170B operation and monitoring system, and a simulator. The automation system is fitted in a case for transport. This comprises:

- Mounting rail
- PS 307 load power supply
- CPU 315-2DP
- SM 321 digital input module, DI 32 x 24 V DC
- SM 323 digital input/output module, DI 8, DO 8
- SM 322 digital output module, DO 32 x 24 V DC/0.5 A
- SM 331 analog input module, AI 2 x 12 bit plus sign
- Terminal blocks for digital signals
- Terminal/plug block for analog signals
- SIMATIC S7 simulator
- 1 ET 200S with
  - 1 IM151 interface module
  - 1 TM-P 15S23-A1 terminal block
  - 1 PM-E DC 24 V power module
  - 4 TM-E 15S24-A1 terminal blocks
  - 2 digital input modules 4 x 24 V DC
  - 2 digital output modules
  - 1 DI/DO terminal block, 37-contact
- TP170B color
- PROFIBUS DP connection cable for TIA training system

#### Technical specifications

Degree of protection to DIN VDE 0470 Part 1/EN 60529/IEC 529	IP00
Permissible ambient temperature	0 ... +50 °C
Dimensions in mm (W x H x D)	520 x 410 x 350
Weight	Approx. 18 kg

Ordering data	Order No.

### Application range of training case S7-300

The training case is used for practicing the programming, operation and commissioning of programmable logic controllers.

#### Design

The training case consists of a SIMATIC S7-300 automation system including simulator. The automation system is fitted in a case for transport. This comprises:

- Mounting rail
- PS 307 load power supply
- CPU 314
- SM 321 digital input module, DI 32 x 24 V DC
- SM 323 digital input/output module, DI 8, DO 8
- SM 322 digital output module, DO 32 x 24 V DC/0.5 A
- SM 331 analog input module, AI 2 x 12 bit plus sign
- Terminal blocks for digital signals
- Terminal/plug block for analog signals
- SIMATIC S7 simulator

#### Technical specifications

## Training

### SIMATIC S7 Training Cases S7-300F, S7-400F/H

#### Application range of training case S7-300F

The training case is used for practicing the programming, operation and commissioning of fail-safe programmable logic controllers.

#### Design

The training case consists of a SIMATIC S7-300F automation system, emergency stop buttons, contactors, door switches and signal annunciations. The automation system is fitted in a case for transport. This comprises:

- SIMATIC S7 mounting rail
- PS 307 power supply
- CPU 315F
- Bus connector
- IM 151 interface module
- Power module including terminal module
- F-DI modules including terminal modules
- F-DO module including terminal module
- F power module
- DI module including terminal module
- DO module including terminal module
- Emergency stop buttons
- Reset
- Contactors
- Mechanical components

#### Application range of training case S7-400F/H

The training case is used for practicing the programming, operation and commissioning of fail-safe and fault-tolerant programmable logic controllers.

#### Design

The training case consists of a SIMATIC S7-400F/H automation system with 2 CPUs. The automation system is fitted in a case for transport. This comprises:

- PS 307 power supplies
- IM 153 interface modules
- DI module including bus module
- DO module including bus module
- F-DI module including bus module
- F-DO module including bus module
- Rack
- PS 407 power supplies
- S7-400 CPUs 417H
- Communications processors
- Communications modules including fiber-optic cables

#### Technical specifications

Degree of protection to DIN VDE 0470 Part 1/EN 60529/IEC 529	IP00
Permissible ambient temperature	0 ... +60 °C
Dimensions in mm (W x H x D)	520 x 410 x 350
Weight	Approx. 15 kg

**SIMATIC Manual Collection****SIMATIC Manual Collection**

The SIMATIC manual collection brings together the manuals of Totally Integrated Automation in the smallest possible package. It is eminently suitable for startup and service, replaces the space-consuming paper version in the office and provides fast access to the information.

The manual collection contains manuals in 5 languages for

- LOGO!
- SIMATIC S7-200, TD 200
- SIMATIC S7-300, C7
- SIMATIC S7-400
- STEP 7, Engineering Tools, Runtime Software
- SIMATIC DP (Distributed I/O)
- SIMATIC HMI (Human Machine Interface)
- SIMATIC NET (Industrial Communication)
- Machine Vision
- PCS 7 Process Control System

Manuals that are not yet available in all 5 languages will at least be included in English and German.

There is an update contract for the SIMATIC Manual Collection that encompasses supply of the up-to-date collection and three subsequent updates which is valid for one year. If the update contract is not cancelled, it is automatically extended and the list price will be charged to the customer.

**Ordering data****Order No.****SIMATIC Manual Collection<sup>E)</sup>****6ES7 998-8XC01-8YE0**

Electronic manuals on CD-ROM, in 5 languages: S7-200/300/400, C7, LOGO!, SIMATIC DP, PC, PG, STEP 7, engineering software, runtime software, PCS 7, SIMATIC HMI, SIMATIC NET

**SIMATIC Manual Collection update service for 1 year<sup>E)</sup>****6ES7 998-8XC01-8YE2**

Current Manual Collection CD as well as the three following updates

E) Subject to export regulations: AL: N and ECCN: 5D992B1

**CE marking****CE marking**

The electronic products described in this catalog comply with the requirements and protection objectives of the following EU guidelines and with the harmonized European standards (EN) which have been published for programmable controllers in the official Journal of the European Union:

- 89/336/EWG "Electromagnetic Compatibility" (EMC guideline).
- 73/23/EWG "Electrical Equipment for Use Within Specific Voltage Limits" (low voltage guideline).

We have declarations of conformity available for the responsible authorities.

The SIMATIC products are designed for operation in industrial environments and comply with the following requirements:

Noise emissions: EN 50081-2: 1993

Noise immunity: EN 50082-2: 1995

The products can also be used in the domestic environment (household, business and trade area, small plants) with individual approval:

Emitted interference: Individual approval

Immunity: EN 50082-1: 1992

For household use an individual approval from the respective national authority or testing body is required as far as emitted-interference is concerned. In Germany this approval is issued by the Federal Post and Telecommunications Office and its subsidiaries.

For the installation and operation of the products described in this catalog, the installation guidelines described in the manuals and the important notes concerning installation in cabinets and concerning the use of shielded cable must be complied with.

**Notes for machine manufacturers**

The SIMATIC automation system is not a machine within the context of the EU machine guidelines. For SIMATIC, a conformity declaration with respect to the EU machine guidelines 89/392/EMC is not available.

The EU guideline for machines 89/392/EMC specifies the requirements for a machine. A machine is understood for the purposes of this guideline to be a combination of interconnected parts or mechanisms (see also EN 292-1, Paragraph 3.1).

SIMATIC is part of the electrical equipment of a machine and must therefore be included in the conformity declaration procedure by the machine manufacturer.

The EN 60204-1 standard (safety of machines, general requirements for the electrical equipment of machines) is applicable to the electrical equipment of machines.

The following table should be of assistance with the conformity declaration and shows which criteria of EN 60204-1 (as of June 1993) apply for SIMATIC:

<b>EN 60204-1</b>	<b>Topic/criterion</b>	<b>Notes</b>
Paragraph 4	General requirements	The requirements are met when the equipment is assembled/installed in accordance with the installation guidelines. Please note the relevant information in the manuals.
Paragraph 11.2	Digital input/output interfaces	The requirements are met
Paragraph 12.3	Programmable equipment	The requirements are met when the equipment is installed in lockable cabinets to protect against alteration of the memory contents by unauthorized persons
Paragraph 20.4	Voltage tests	The requirements are met

# Appendix

## Quality management

### Quality management

The quality management system of our A&D division complies with the international standard ISO 9001.

The products and systems described in this catalog are manufactured under application of a quality management system certified by DQS in accordance with DIN EN ISO 9001.

The DQS certificate is recognized in all EQ Net countries.

#### DQS certificate nos.:

Siemens AG  
Automation and Drives

- Industrial Automation Systems  
Reg. No: 001323 QM

### Certificates, authorizations, approbations, declarations of conformity

An overview of the certificates available for SIMATIC products (CE, UL, CSA, FM, shipping authorizations) can be found in the internet at

<http://www.siemens.com/simatic/certificates>

The lists are continuously updated. The data for products which have not yet been included in the overview is continuously collected and prepared for the subsequent edition.

You can find certificates, approbations, verification certificates or characteristic curves under:

Index\certificates

or by going directly to the Link Box:

# Appendix

## Siemens contact partners

### Siemens contacts worldwide

#### Overview

The screenshot shows the Siemens Local Partners Worldwide search interface. The user has selected 'Germany' from a dropdown menu under 'Contact by country'. Below this, a dropdown menu for 'Team' shows 'Sales' selected. A 'Next >' button is visible at the bottom right.

The screenshot shows the 'Please select a sector' step. A dropdown menu for 'Sectors' lists various industry sectors, with 'Video Systems, Visualization Systems' selected. Below this, another dropdown menu for 'Team' shows 'Sales' selected. A 'Next >' button is visible at the bottom right.

The screenshot shows the 'Please select a Siemens product group' step. A dropdown menu for 'Product Catalog' lists various product categories, with 'Drive Technology' selected. Below this, another dropdown menu for 'Team' shows 'Sales' selected. A 'Next >' button is visible at the bottom right.

At

[www.siemens.com/automation/partner](http://www.siemens.com/automation/partner)

you can find details of Siemens contact partners worldwide responsible for particular technologies.

You can obtain in most cases a contact partner for

- Technical Support,
- Spare parts/repairs,
- Service,
- Training,
- Sales or
- Consultation/engineering.

You start by selecting a

- Country,
- Product or
- Sector.

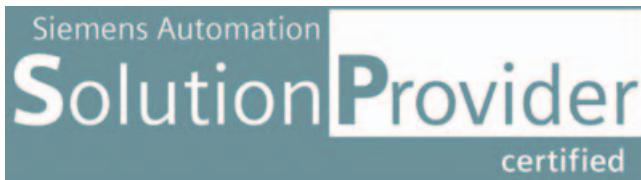

By further specifying the remaining criteria you will find exactly the right contact partner with his/her respective expertise.

# Appendix

## Siemens contact partners

### Partner

#### Siemens Automation Solution Provider

Automation solutions are becoming more and more complex, requirements are continuously increasing.

We help you find competent partners to provide you with an excellent and reliable solution. Your partner combines sector-specific competence and experience with comprehensive expertise for automation solutions.

The Siemens Automation Solution Provider program sets high standards with regard to expert competencies of the participating companies and the worldwide network of partners. Thanks to the careful selection of our Solution Providers and constant training, you will find a competent contact partner who is close-by and is always working with state-of-the-art technology.

#### The program

- Are you looking for automation solutions for very specific tasks?
- Do you want professional advice and support?
- Are you looking for sector experts?
- Do you want to have the competitive edge?

If yes, then our Siemens Automation Solution Providers are exactly what you need!

Our partner companies have the expertise to develop safe, economical and future-oriented solutions - for all sectors and all automation components: from all SIMATIC component, SIMATIC control systems, SIMATIC HMI visualization systems, communication networks via SIMATIC PCS 7, microsystems and Motion Control systems right up to products for the vertical integration of industrial automation and office systems.

#### Your benefits

- Tailor-made, attractively priced and future-oriented solutions.
- Considerable advantages with regard to speed, efficiency, and closeness to your location.
- Sector-specific expertise of the Solution Provider.
- We guarantee that the most current state of the art is used and our Solutions Providers are aware of the latest developments.

#### Certification

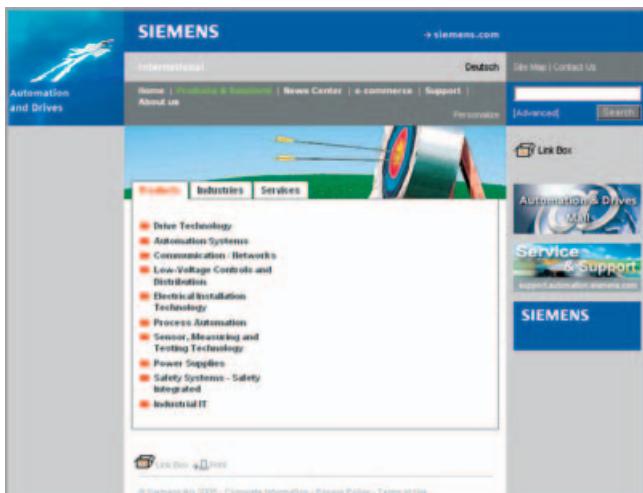

Our Solution Providers are permanently trained to ensure that they are always kept up to date on the state of the art. They must participate in a special certification program where they have to proof their high competency in dealing with Siemens automation tools. Thus we can guarantee a particularly high quality standard, which is ensured by consecutive training sessions with new components and special Solution Provider workshops.

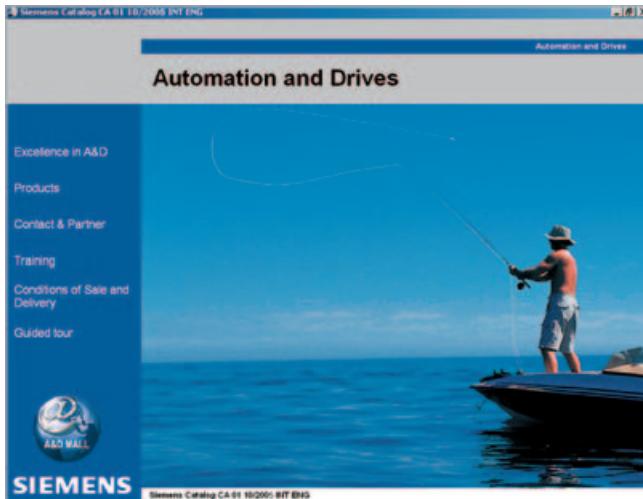

Internet:  
<http://www.siemens.com/automation/solution-provider>

E-Mail:  
SSPinfo@nbgm.siemens.de

#### A&D in the WWW

#### Product Selection Using the Interactive Catalog

#### Easy Shopping with the A&D Mall

A detailed knowledge of the range of products and services available is essential when planning and configuring automation systems. It goes without saying that this information must always be fully up-to-date.

The Siemens Automation and Drives Group (A&D) has therefore built up a comprehensive range of information in the World Wide Web, which offers quick and easy access to all data required.

Under the address

<http://www.siemens.com/automation>

you will find everything you need to know about products, systems and services.

Detailed information together with convenient interactive functions:

The interactive catalog CA 01 covers more than 80,000 products and thus provides a full summary of the Siemens Automation and Drives product base.

Here you will find everything that you need to solve tasks in the fields of automation, switchgear, installation and drives.

All information is linked into a user interface which is easy to work with and intuitive.

After selecting the product of your choice you can order at the press of a button, by fax or by online link.

Information on the interactive catalog CA 01 can be found in the Internet under

<http://www.siemens.com/automation/ca01>

or on CD-ROM or DVD.

The A&D Mall is the virtual department store of Siemens AG in the Internet. Here you have access to a huge range of products presented in electronic catalogs in an informative and attractive way.

Data transfer via EDIFACT allows the whole procedure from selection through ordering to tracking of the order to be carried out online via the Internet.

Numerous functions are available to support you.

For example, powerful search functions make it easy to find the required products, which can be immediately checked for availability. Customer-specific discounts and preparation of quotes can be carried out online as well as order tracking and tracing.

Please visit the A&D Mall on the Internet under:

<http://www.siemens.com/automation/mall>

# Appendix

## Customer Support

### Our Services for Every Phase of Your Project

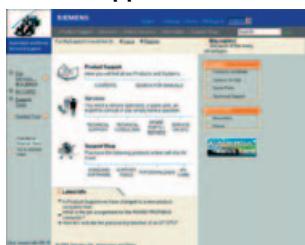

In the face of harsh competition you need optimum conditions to keep ahead all the time:  
A strong starting position. A sophisticated strategy and team for the necessary support - in every phase.  
Service & Support from Siemens provides this support with a complete range of different services for automation and drives.

In every phase: from planning and startup to maintenance and upgrading.

Our specialists know when and where to act to keep the productivity and cost-effectiveness of your system running in top form.

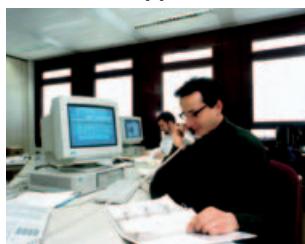

### Online Support

The comprehensive information system available round the clock via Internet ranging from Product Support and Service & Support services to Support Tools in the Shop.

<http://www.siemens.com/automation/service&support>

### Technical Support

Competent consulting in technical questions covering a wide range of customer-oriented services for all our products and systems.

Tel.: +49 (0)180 50 50 222  
Fax: +49 (0)180 50 50 223  
<http://www.siemens.com/automation/support-request>

### Technical Consulting

Support in the planning and designing of your project from detailed actual-state analysis, target definition and consulting on product and system questions right to the creation of the automation solution.<sup>1)</sup>

### Configuration and Software Engineering

Support in configuring and developing with customer-oriented services from actual configuration to implementation of the automation project.<sup>1)</sup>

### Service On Site

With Service On Site we offer services for startup and maintenance, essential for ensuring system availability.

In Germany  
**0180 50 50 444<sup>1)</sup>**

### Repairs and Spare Parts

In the operating phase of a machine or automation system we provide a comprehensive repair and spare parts service ensuring the highest degree of operating safety and reliability.

In Germany  
**0180 50 50 446<sup>1)</sup>**

### Optimization and Upgrading

To enhance productivity and save costs in your project we offer high-quality services in optimization and upgrading.<sup>1)</sup>

1) For country-specific telephone numbers go to our Internet site at:  
<http://www.siemens.com/automation/service&support>

#### Knowledge Base on CD-ROM

For locations without online connections to the Internet there are excerpts of the free part of the information sources available on CD-ROM (Service & Support Knowledge Base). This CD-ROM contains all the latest product information at the time of production (FAQs, Downloads, Tips and Tricks, Updates) as well as general information on Service and Technical Support.

The CD-ROM also includes a full-text search and our

Knowledge Manager for targeted searches for solutions. The CD-ROM will be updated every 4 months.

Just the same as our online offer in the Internet, the Service & Support Knowledge Base on CD comes complete in 5 languages (German, English, French, Italian, Spanish).

You can order the **Service & Support Knowledge Base CD** from your Siemens contact.

Order no. **6ZB5310-0EP30-0BA2**

Orders via the Internet  
(with Automation Value Card or credit card) at:

<http://www.siemens.com/automation/service&support>

in the Shop domain.

#### Automation Value Card

##### **Small card - great support**

The Automation Value Card is an integral component of the comprehensive service concept with which Siemens Automation and Drives will accompany you in each phase of your automation project.

It doesn't matter whether you want just specific services from our Technical Support or want to purchase high-quality Support Tools in our Online Shop, you can always pay with your Automation Value Card. No invoicing, transparent and safe. With your personal card number and associated PIN you can view the state of your account and all transactions at any time.

Services on card. This is how it's done.

Card number and PIN are on the back of the Automation Value Card. When delivered, the PIN is covered by a scratch field, guaranteeing that the full credit is on the card..

By entering the card number and PIN you have full access to the Service & Support services being offered. The charge for the services procured is debited from the credits on your Automation Value Card.

All the services offered are marked in currency-neutral credits, so you can use the Automation Value Card worldwide.

##### **Automation Value Card order numbers**

Credits	Order no.
200	<b>6ES7 997-0BA00-0XA0</b>
500	<b>6ES7 997-0BB00-0XA0</b>
1000	<b>6ES7 997-0BC00-0XA0</b>
10000	<b>6ES7 997-0BG00-0XA0</b>

Detailed information on the services offered is available on our Internet site at:

<http://www.siemens.com/automation/service&support>

Service & Support à la Card: Examples

##### **Technical Support**

"Priority"	Priority processing for urgent cases
"24 h"	Availability round the clock
„Extended“	Technical consulting for complex questions

##### **Support Tools in the Support Shop**

"System Utilities"	Tools that can be used directly for configuration, analysis and testing
"Applications"	Complete topic solutions including ready-tested software
"Functions & Samples"	Adaptable blocks for accelerating your developments

# Appendix

## Software Licenses

### Overview

#### Software types

Software requiring a license is categorized into types. The following software types have been defined:

- Engineering software
- Runtime software

#### Engineering software

This includes all software products for creating (engineering) user software, e.g. for configuring, programming, parameterizing, testing, commissioning or servicing.

Data generated with engineering software and executable programs can be duplicated for your own use or for use by third-parties free-of-charge.

#### Runtime software

This includes all software products required for plant/machine operation, e.g. operating system, basic system, system expansions, drivers, etc.

The duplication of the runtime software and executable programs created with the runtime software for your own use or for use by third-parties is subject to a charge.

You can find information about license fees according to use in the ordering data (e.g. in the catalog). Examples of categories of use include per CPU, per installation, per channel, per instance, per axis, per control loop, per variable, etc.

Information about extended rights of use for parameterization/configuration tools supplied as integral components of the scope of delivery can be found in the readme file supplied with the relevant product(s).

#### License types

Siemens Automation & Drives offers various types of software license:

- Floating license
- Single license
- Rental license
- Trial license

#### Floating license

The software may be installed for internal use on any number of devices by the licensee. Only the concurrent user is licensed. The concurrent user is the person using the program. Use begins when the software is started.

A license is required for each concurrent user.

#### Single license

Unlike the floating license, a single license permits only one installation of the software.

The type of use licensed is specified in the ordering data and in the Certificate of License (CoL). Types of use include for example per device, per axis, per channel, etc.

One single license is required for each type of use defined.

#### Rental license

A rental license supports the "sporadic use" of engineering software. Once the license key has been installed, the software can be used for a specific number of hours (the operating hours do not have to be consecutive).

One license is required for each installation of the software.

#### Trial license

A trial license supports "short-term use" of the software in a non-productive context, e.g. for testing and evaluation purposes. It can be transferred to another license.

#### Certificate of license

The Certificate of License (CoL) is the licensee's proof that the use of the software has been licensed by Siemens. A CoL is required for every type of use and must be kept in a safe place.

#### Downgrading

The licensee is permitted to use the software or an earlier version/release of the software, provided that the licensee owns such a version/release and its use is technically feasible.

#### Delivery versions

Software is constantly being updated. The following delivery versions

- PowerPack
- Upgrade

can be used to access updates.

Existing bug fixes are supplied with the ServicePack version.

#### PowerPack

PowerPacks can be used to upgrade to more powerful software. The licensee receives a new license agreement and CoL (Certificate of License) with the PowerPack. This CoL, together with the CoL for the original product, proves that the new software is licensed.

A separate PowerPack must be purchased for each original license of the software to be replaced.

#### Upgrade

An upgrade permits the use of a new version of the software on the condition that a license for a previous version of the product is already held.

The licensee receives a new license agreement and CoL with the upgrade. This CoL, together with the CoL for the previous product, proves that the new version is licensed.

A separate upgrade must be purchased for each original license of the software to be upgraded.

#### ServicePack

ServicePacks are used to debug existing products. ServicePacks may be duplicated for use as prescribed according to the number of existing original licenses.

#### License key

Siemens Automation & Drives supplies software products with and without license keys.

The license key serves as an electronic license stamp and is also the "switch" for activating the software (floating license, rental license, etc.).

The complete installation of software products requiring license keys includes the program to be licensed (the software) and the license key (which represents the license).

Detailed explanations concerning license conditions can be found in the "Terms and Conditions of Siemens AG" or under <http://www.siemens.com/automation/mall>

## Conditions of sale and delivery, Export regulations

### Terms and Conditions of Sale and Delivery

By using this catalog you can acquire hardware and software products described therein from the Siemens AG subject to the following terms. Please note! The scope, the quality and the conditions for supplies and services, including software products, by any Siemens entity having a registered office outside of Germany, shall be subject exclusively to the General Terms and Conditions of the respective Siemens entity.

#### For customers with a seat or registered office in the Federal Republic of Germany

The „General Terms of Payment“ as well as the „General Conditions for the Supply of Products and Services of the Electrical and Electronics Industry“ shall apply.

For software products, the „General License Conditions for Software Products for Automation and Drives for Customers with a Seat or registered Office in Germany“ shall apply.

#### For customers with a seat or registered office outside of Germany

The „General Terms of Payment“ as well as the „General Conditions for Supplies of Siemens Automation and Drives for Customers with a Seat or registered Office outside of Germany“ shall apply.

For software products, the „General License Conditions for Software Products for Automation and Drives for Customers with a Seat or registered Office outside of Germany“ shall apply.

#### General

The prices are in € (Euro) ex works, exclusive packaging.

The sales tax (value added tax) is not included in the prices. It shall be debited separately at the respective rate according to the applicable legal regulations.

In addition to the prices of products which include silver, plump, aluminum and/or copper, surcharges may be calculated if the respective limits of the notes are exceeded. The respective note (e.g. source: German newspaper „Handesblatt“ in category „deutsche Edelmetalle“ and „Metallverarbeiter“) for silver („verarbeitetes Silber“), plump („Blei in Kabeln“), aluminum („Aluminium in Kabeln“) and copper („Elektrolytkupfer“, „DEL-Notiz“) respectively, of the day the order or rather the on call order is received, is decisive for the calculation of the surcharges.

Surcharges of copper shall be calculated for Drives at a note („DEL-Notiz“) above EUR 225,00 / 100 Kg and for chokes / transformers above EUR 150,00 / 100 kg.

Surcharges shall be charged based on the quantities of the materials which are contained in the relevant products.

Prices are subject to change without prior notice. We will debit the prices valid at the time of delivery.

The dimensions are in mm. Illustrations are not binding.

Insofar as there are no remarks on the corresponding pages, - especially with regard to data, dimensions and weights given - these are subject to change without prior notice.

Comprehensive Terms and Conditions of Sale and Delivery are available free of charge from your local Siemens business office under the following Order Nos.:

- 6ZB5310-0KR30-0BA0  
(for customers based in the Federal Republic of Germany)
- 6ZB5310-0KS53-0BA0  
(for customers based outside of the Federal Republic of Germany)

or download them from the Internet:

(Germany: A&D Mall Online-Help System)

### Export regulations

The products listed in this catalog / price list may be subject to European / German and/or US export regulations.

Therefore, any export requiring a license is subject to approval by the competent authorities.

According to current provisions, the following export regulations must be observed with respect to the products featured in this catalog / price list:

AL	Number of the <u>German Export List</u> . Products marked other than "N" require an export license. In the case of software products, the export designations of the relevant data medium must also be generally adhered to. Goods labeled with an " <u>AL not equal to N</u> " are subject to a European or German export authorization when being exported out of the EU.
ECCN	Export Control Classification Number. Products marked other than "N" are subject to a reexport license to specific countries. In the case of software products, the export designations of the relevant data medium must also be generally adhered to. Goods labeled with an " <u>ECCN not equal to N</u> " are subject to a US re-export authorization.

Even without a label or with an "AL: N" or "ECCN: N", authorization may be required due to the final destination and purpose for which the goods are to be used.

The deciding factors are the AL or ECCN export authorization indicated on order confirmations, delivery notes and invoices.

Errors excepted and subject to change without prior notice.
