

# Ultra Compact LED Torches

Blue Case

Ultra compact and lightweight elliptical LED light offering bright, reliable, intermittent or constant light. Featuring an injection moulded transparent frame and translucent activation panel, it can be attached to most objects by two unique clips. The built-in split-ring, dual hook clip allows it to be fitted securely to keyrings, belt loops, D-rings etc with very little chance of it becoming detached. The clip-on Activation Case, which is included, converts the Eclipse from intermittent push button pressure switch activation to a constant-on light and also allows it to be clipped to a belt, clothing, watchstrap or hat/cap brim. Made in the USA, it is powered by two replaceable 3V Lithium batteries (included). Includes integral keyring and convenient clip-

on Activation Case
