

LMxxW12

AC/DC converter for 12VDC-fans up to 12W

Drives DC-fans from AC-power socket

- FEATURES**

Low cost driver for one or more DC-fans up to a total power consumption of 12W from AC-main supply. Allows using temperature control or/and alarm electronics.

- SECURITY**

Protection class II (fully insulated), shuts off automatically at overload and short circuit. Connectors fully covered.

- SIMPLE MOUNTING**

Mounting simply by using two screws on a flat surface. Very low space requirement. High efficiency. Power lead / Connector on request.
