ACCESSORIES

- **HAND MASKS:** Two simple low cost but effective hand masks to compliment your welder. 464 is a full face type.
  - **467 WELDING HELMET:** Professional wrap - a - round headshield. Allows hands free welding and offers superior comfort for extended use.
  - **468F FLIP TOP WELDING HELMET:** A professional wrap around headshield similar in style and quality to our popular 467 but with flip top front to allow quick and simple viewing of the work in hand. Allows excellent hands free welding and exceptional comfort and convenience.
  - **METEOR 1900 ELECTRONIC HEADSHIELD:** A superb solar panel / ultra light weight helmet (only 350g) which provides optimum face protection with minimum weight. Combines the highest comfort with the latest electro-optical technology filter which is completely waterproof and does not require batteries. Viewing area is 90 x 35mm and market research shows 80% of all welding is performed with only one fixed shade. The Meteor 1900 features shade 3EW clear and shade 10EW darkened which can be altered to shade 11EW and 12EW. The filter changes from clear to dark state in 0.0005 seconds. A quality helmet at a fiercely competitive price.
  - **METEOR 2000 ELECTRONIC HEADSHIELD:** Lightweight helmet which gives less than 1/10,000th second switch time arc to dark. Sensitivity adjustment for use in strong sunlight. Shades 9EW - 12EW at the touch of a switch. Top quality, superior comfort. Batteries included.
  - **MAGNETIC HOLDERS:** For hands free angle welding and assembling. M model holds up to 45 LBS. L model holds up to 80 LBS. Excellent multipurpose tool.
    - **WELDING GAUNTLETS:** 2 types available. Quality gauntlets at a fiercely competitive price and top of the range Superior mig gauntlets for the professional user, giving maximum comfort and control.
