

1 WATT LED Swivel Headed Lantern

Fitted with a super bright 1 Watt Lumileds LED (LIGHT EMITTING DIODE) which has 100,000 hours life and should never need to be replaced.

Exceptional performance from this extremely lightweight lantern, made from Industrial strength Co-polymer - made for tough conditions.

Also weather proof for all outdoor situations.

This Professional Swivel Headed Lantern is available in LED VIVID BLUE making it one of the most versatile battery-operated lanterns ever made.

This lantern is also fitted with Uni-Lite's unique bi-convex Beamaster lens for beam penetration with a durable polycarbonate reflector.

This specially designed lantern has a swivel head, which swivels 135 degrees giving total flexibility on beam direction.

Operates using one 6v (PJ996) lantern battery (not included)

Or make this product rechargeable using either our UK300 'Plug-in' Lantern battery or our UK251HC rechargeable lantern battery with our UK252 or UK253 chargers!

For extra comfort we have also included a convenient woven nylon shoulder strap.

Also fitted with Uni-Lite's unique single handed Micro switch.
