

# Corstat Tote Divisions

Stock Division Sets To Suit Corstat Stacking Boxes

## Conductive Fibreboard divisions from Corstat

Manufactured from Corstat Conductive Fibreboard, these divisions are robust and ESD safe.

With slots at 30mm increments, the divisions can be arranged to create a network of cells to suit your particular application, without the need for tooling.

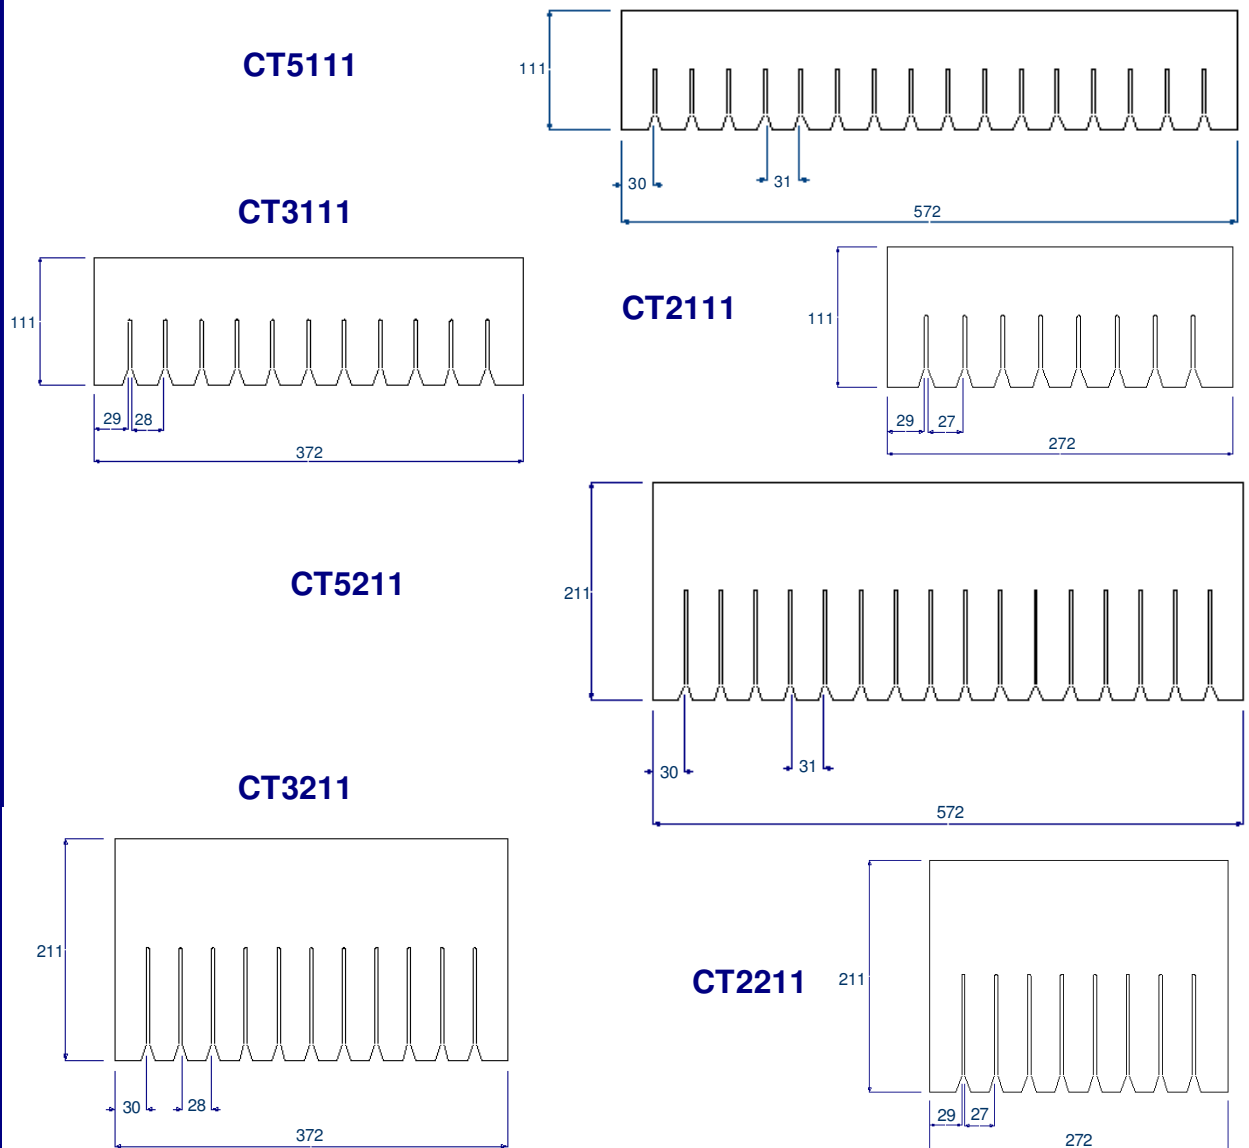

The divisions are designed to fit our popular Stacking Totes 600mm x 400mm and 400mm x 300mm tote boxes and are available in 2 standard heights.

Of course if these divisions do not suit your specific need, we can manufacture bespoke sizes in any quantity to fulfill your requirements
