**Order No.**      **Model**  
005 13 181 99    DXV 80

**Description**  
**Inline desoldering iron set 80 W, 24 V,  
with threadless nozzle fixture system**

Desoldering iron for electronics rework with internal solder reservoir. For vertical handling. Electronic temperature control. Micro finger switch controls quick start, fast action vacuum pump. Different interchangeable nozzles plus several CSF heads are available. The DSX series tools feature a novel threadless desoldering nozzle fixture system where by the nozzle is inserted into the head and locked into place by applying a 1/4 turn. This patented feature allows the desoldering nozzles to be quickly and easily exchanged and also improves the rate of thermal transfer from the desoldering head to the desoldering nozzle providing the tools with a faster heat up time and recovery rate. Additionally, because there are no threads in the head to foul, maintenance and costs are reduced.

Spare parts: see page 131

- consists of:
- 005 13 180 99    DXV 80
  - 005 15 039 99    AKV 80
  - 005 13 142 00    DX 112
  - 005 13 143 00    DX 113
  - 005 13 500 99
  - 005 87 418 15

- Inline desoldering iron 80 W, 24 V with nozzle DX 113HM
- Safety rest
- Nozzle
- Nozzle
- Cleaning set
- Syringe for DXV 80 (5 pieces)
