SM is a MultiCard marker for labelling control and signalling devices. The tags are clipped into the holders or fixed by means of the adhesive film already fitted to them. Customized labels can be created with the PrintJet PRO labelling system, MCP Plus plotter, MCP Basic or MC-Mobilo.

- Users can print quickly to suit their labelling needs
- No need to stock expensive standard tags.
- Highly resistant print – use the PrintJet as a substitute for engraving
- We recommend the ETO SM protective film for extreme applications.
- Holders can be used for the 22-mm-diameter push-buttons from Siemens, ABB, Moeller and Télémécanique

General ordering data

Order No.	1716630000
Part designation	SM-H 27/18 SW
Version	Device markers, MultiCard, 48 x 27 mm, Polyamide 66, black
EAN	4008190343194
Qty.	25 pc(s).
